ALLEN MEARS,
Dy. Traffic Manager.

JAMALPORE *the 11th August* 1886.

General Remarks on the fluctuation of principal staples carried over the East Indian Railway during month ended 30th June 1886.

INCREASE.

Coal.—The increase in the up and down coal is nominal owing to 32 days traffic being compared with 31 days traffic of 1885.

Cotton.—The increase under this head is accounted for by good prices and active demand for export

Wheat.—There was a brisk business doing in this commodity all through the month, and the prices being good, despatches to Calcutta were heavy.

Grain and pulses.—Due to good prices and excellent crops.

Rice (husked and unhusked).—The increase under this head is assignable to the last season's crop having been a good one.

Opium.—This is a Government monopoly, and the small increase does not call for special comment.

Seeds.—The heavy increase in seeds is attributed to high prices ruling in the Calcutta market owing to brisk demand for export

Tobacco.—This is accounted for by better market and demand.

Gunny.—The increase under the head of wheat accounts for the larger traffic in this staple.

DECREASES

Piece-goods.—The decrease in this staple of commerce is consequent upon a lull in the demand following a very active market in the previous month.

Fruits.—Due to ordinary fluctuation of trade

Lac.—Dull home markets account for a decrease in this staple.

Brass and copper.—The decrease in these staples was due to less despatches to Patna and Mirzapore.

Railway material (Foreign).—Due to a falling off in the despatches of railway material for the Cawnpore-Kalpi, Bilaspore-Katni, and other railways owing to progress of construction.

Salt.—There was an increase in the weight carried, but owing to the very low rates that are now being quoted, there was a decrease in the receipts.

Government Stores.—The decrease in these staples was due to decreased indents for military stores and equipment.

CALCUTTA SMALL CAUSE COURT.

NOTICE.

In accordance with suggestions contained in a report to the High Court, signed by Mr. Justice Wilson and Mr. Justice Trevelyan, on their inspection of the Calcutta Small Cause Court, a new system will, *on and after the 28th October* 1886, be tried for the purpose of revising the list of cases which come daily into the court.

All summons cases will, on the returnable date of the summons, come before one only of the Judges, who will revise the whole list of the court for each day.

He will go through the list, enter "compromises," make decrees in cases in which the defendant does not appear, give fresh summonses in cases where the summons has not been served, grant necessary postponements, ascertain what causes are defended, and dispose of any cases which, in his judgment, can be disposed of summarily.

This would leave the whole time of the other Judges free for the trial of defended causes. The defended causes will be assigned by the Judge revising the list to the lists of the different Judges on the earliest possible days, and will be adjourned by him to those days. The Judge revising the list will have before him the list of each Judge for each day, so far as already filled up, and will arrange that there should always be a sufficient number of cases, say 25 or 30, on each Judge's list. Each of the other Judges will thus have each day his list of defended cases provided for him. When a second summons has been granted, the case will, on the new return day, come again before the Judge who revises the list for that day.

If under this system a Judge should at any time find his list becoming clogged, he will communicate with the revising Judge, and inform the latter that he must have a day or days left clear to enable him to pull up. Thus if on the first of the month a Judge finds that his lists were getting blocked, and that it will take a day to get them clear, he will tell the revising Judge that this is the case. The latter, when revising the lists of the Judge in question, may see that they are already filled, say up to the 9th: he will leave the 10th blank. The Judge who had found himself blocked, knowing that the 10th would be a clear day, will use his discretion: he will either go on as usual up to the 10th, trusting to clear himself on that day, or will adjourn a sufficient number of cases to that day to enable him to take the other cases as nearly as possible on their proper dates.

Adjournments.

No "costs of the day" will be allowed on adjournments.

Nor will adjournments be allowed, even by consent, except upon good cause shown.

By order of the Court,

C. Y. C. Bolst,
Clerk of the Court.

Court of Small Causes of Calcutta,
The 28th July 1886.

NOTIFICATION BY THE ACCOUNTANT-GENERAL, BENGAL.

STOCK CERTIFICATES.

As it does not appear to be generally known that Government Promissory Notes can be readily converted into Stock Certificates and re-converted into Promissory Notes at the option of the holders, and that Stock Certificate-holders enjoy certain special advantages, the attention of holders of Government Securities is drawn to the following particulars:—

1. Government Promissory Notes can be converted into Stock Certificates and re-converted into Promissory Notes at any time at the option of the holder.

2. The holders of Stock Certificates are not required to present them in person or by agent when the interest becomes due. On application made, interest will be paid to Stock Certificate-holders by warrants on any Government Treasury, which warrants will be sent by post, on the day the interest falls due, to the Stock Certificate holders direct or through the Treasury Officer, as they may desire.

3. Stock Certificates are not negotiable by endorsement, and are consequently of no value in the hands of a wrongful holder, and the risks arising from the possession of, or repeated transmission of, negotiable Securities, are thereby avoided.

4. In the event of the loss of a Stock Certificate by theft, fire, &c., a fresh Certificate will issue on satisfactory evidence of loss.

NOTE.—Further particulars can be obtained on reference to the Public Debt Offices, Calcutta, Madras, and Bombay.

Orders and Notifications by the Government of India, &c.

[*Reprinted from the Gazette of India.*]

The following order, issued by the Government of India, Legislative Department, is republished for general information.

F. B. Peacock,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

Simla, the 17th August 1886.

No. 13.—Whereas by resolution passed by the Secretary of State for India in Council on the 29th day of February 1872, the provisions of the 33rd of Vic. Chap. 3, sec. 1, were declared applicable to the Santál Parganas;

And whereas the Lieutenant-Governor of Bengal has proposed to the Governor-General in Council a draft of the following Regulation, together with the reasons for proposing the same;

And whereas the Governor-General in Council has taken the draft and reasons into consideration, and has approved of the draft, and the same has received the Governor-General's assent;

In pursuance of the direction contained in the said section, the said Regulation is now published in the *Gazette of India*:—

REGULATION No. III OF 1886.

A Regulation for determining the Law in force in the Santál Parganas.

Short title, commencement and construction.

1. (1) This Regulation may be called the Santál Parganas Laws Regulation, 1886.

(2) It shall come into force at once; and

(3) It shall be read with, and taken as part of, the Santál Parganas Settlement Regulation. III of 1872.

Substitution of new sentence for the first sentence of section 3 of Regulation III of 1872.

2. For the first sentence of section 3 of the Santál Parganas Settlement Regulation the following sentence shall be substituted, namely:— III of 1872.

Enactments in force in the Santál Parganas

"Subject to the provisions of this Regulation, and of any other Regulation for the time being in force under the thirty-third of Victoria, Chapter I, section 1—

(*a*) so much of each of the Regulations and Acts, or portions of Regulations and Acts, specified in the schedule to this Regulation, as was on the day previous to the passing of the Bengal Tenancy Act, 1885, in force in any part of the Lower Provinces of Bengal which is not included in a scheduled district as defined in Act XIV of 1874, and VIII of 1885.

(*b*) in the case of any such Regulation or Act, or portion thereof, which was not on that day in force in any such part, then the portion thereof specified in the schedule, or, where no portion is there specified, then, in the case of a Regulation or Act passed before the first of May 1872, so much thereof as was unrepealed on that date, and, in the case of an Act passed after the passing of the Bengal Tenancy Act, 1885, the whole of the Act, VIII of 1885.

shall be deemed to be in force in the Santál Parganas."

Amendment of the second sentence of same section.

3. In the second sentence of the same section, after the words "Regulations or Acts," the words "heretofore or hereafter passed" shall be inserted.

New sentence inserted in same section.

4. After the same sentence of the same section the following sentence shall be inserted :—

"The Lieutenant-Governor may, from time to time, with the previous sanction of the Governor-General in Council, by a notification in the official Gazette, declare that any Regulation or Act, or part of a Regulation or Act, mentioned in the schedule shall no longer be in force in the Santál Parganas."

Amendment of fourth sentence of same section.

5. In the fourth sentence of the same section as amended by section 4 of this Regulation, after the words "or any other Act" the words "heretofore or hereafter" shall be inserted.

Substitution of new schedule for schedule to Regulation III of 1872.

III of 1872.

6. For the schedule annexed to the Santál Parganas Settlement Regulation the schedule annexed to this Regulation shall be substituted.

Furreedpore Collectorate, the 7th August 1886. F. H. BARROW, Offg. Collector.

NOTICE is hereby given that, under Government orders No. 1250-500L—R, dated 13th April 1886, the proprietary right of Government to undermentioned Government estates, situate in the district of Hooghly, as specified in the conditions of sale below, will be put up to sale at the Hooghly Collectorate on Tuesday, the 28th September 1886, corresponding with 13th Ashin 1293 B.S. Estate No. 1 will be sold revenue-free, and the rest subject to the payment of the Government revenue entered in column 6.

The purchasers will be subject to the following conditions of sale:—

Conditions of sale.

1*st*.—The estates to be sold to the highest bidders above the upset price. The purchasers of these estates will be considered as the proprietors of these estates, and the entire proprietary right of Government in such estates will be transferred to them, subject to the revenue fixed in perpetuity, except in the case of estate No. 1, which will be sold revenue-free.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force: and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd*.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

THE following Bye-laws for regulating the service of coolies in the Municipal Market, having been confirmed by the Local Government, are published for general information, under section 344 of Act IV (B.C.) of 1876:—

Whereas it is expedient for the management and conduct of business in the New Municipal Market to regulate the service of coolies working for hire in and around this market; the following additional bye-laws are made under section 340 (*f*) of the Municipal Act:—

17 (*a*). With the exception specified below, no person shall on or after the 1st June 1886 work for hire as bazar cooly within the limits of the New Municipal Market, who is not duly licensed for this purpose by the Commissioners, or by such officers as they may authorise to grant licenses to bazar coolies.

17 (*b*). A register of licensed coolies shall be kept up in the office of the Market Superintendent, which shall be open to the inspection of any member of the Market Committee, during office hours, on all days except Sundays and close holidays.

17 (*c*). A licensed cooly shall wear a badge and such other distinctive dress as shall enable every person frequenting the market to know that he is licensed, and shall wear on his arm or in some other conspicuous place, a number corresponding with his number in the register of licensed coolies.

17 (*d*). No person other than a licensed cooly shall wear the badge, distinctive dress or number indicated in the preceding rule.

17 (*e*) Licensed coolies shall be charged such sum for the badge and other distinctive dress referred to above as the Market Committee shall from time to time prescribe.

17 (*f*) Sirdars shall be appointed to preserve order and discipline among the licensed coolies, and prevent their harrassing the public, and shall be remunerated by salaries met by contributions to be paid by the coolies monthly as a condition of the continuance of their license: Provided that not more than one sirdar shall be appointed to 25 licensed coolies.

The contributions shall be such sum, not exceeding six annas per mensem, as may from time to time be fixed by the Market Committee.

17 (*g*). These rules shall not apply to private servants employed by persons frequenting the market to carry purchases made by them.

18. The Market Committee may, for special reasons to be recorded by them, refuse to allow any particular persons to act as private cooly if they think that the employment of such person within the limits of the market is inexpedient.

ROBERT TURNBULL, Secretary to the Corporation.

Calcutta, the 21st August 1886. (1609—3)

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First publication.]

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 11th August, 1886 :—

No. 16 of 1886.

A Bill to prescribe the mode of valuing certain suits for the purpose of determining the jurisdiction of Courts with respect thereto.

WHEREAS it is expedient to prescribe the mode of valuing certain suits for the purpose of determining the jurisdiction of Courts with respect thereto; It is hereby enacted as follows :—

Short title, local extent and commencement.

1. (*1*) This Act may be called the Suits Valuation Act, 1886; and

(*2*) It shall extend to such local areas, and come into force therein on such dates, as the Governor-General in Council, by notification in the Gazette of India, from time to time directs.

Power for Local Government to make rules to determine value of land for purposes of jurisdiction.

2. (*1*) The Local Government may from time to time, with the previous sanction of the Governor-General in Council, make rules for determining the value of land for purposes of jurisdiction in the suits mentioned in the Court-fees Act, 1870, section 7, paragraphs v and vi, and paragraph x, clause (*d*).

VII of 1870.

(*2*) The rules may determine the value of any class of land, or of any interest in land, in the whole or any part of the local area in which this Act is in force in the territories under the administration of the Local Government, and the value so determined may vary from place to place within the local area or part thereof to which the rules apply.

Value of relief sought in certain suits not to exceed value of the land to which those suits relate.

3. Where a suit mentioned in paragraph iv of section 7, or in article 17 of Schedule II, of the Court-fees Act, 1870, relates to land or an interest in land, the amount at which for purposes of jurisdiction the relief sought in the suit is valued shall not exceed the value of the land or interest to which the suit relates as determined by the rules made under the last foregoing section.

VII of 1870.

Ad valorem court-fee value in other suits to be value for purposes of jurisdiction.

4. Where in suits other than those referred to in sections 2 and 3 court-fees are payable *ad valorem* under the Court-fees Act, 1870, the value as determinable for the computation of court-fees shall be the value for purposes of jurisdiction.

VII of 1870.

Procedure where objection is taken on appeal that suit was not properly valued for purposes of jurisdiction.

5. (*1*) The objection that a suit was not properly valued for purposes of jurisdiction shall not be entertained by an appellate Court unless the objection was taken in the Court of first instance.

[Act XII of 1881, s. 206.]

(*2*) If the objection was taken in the Court of first instance but the appellate Court has before it the materials necessary for the determination of the suit, it shall dispose of the appeal as if the suit had been instituted in the proper Court.

[Act XII of 1881, s. 207.]

(*3*) If the appellate Court has not those materials before it, it shall proceed under the rules applicable to it with respect to the hearing of appeals; but if it remands the suit, or frames and refers issues for trial, or requires additional evidence to be taken, it may direct its order either to the Court prescribed in that behalf in those rules or to any Court competent, in its opinion, to entertain the suit; and the objection that the order of the appellate Court was directed to a Court which was not competent to entertain the suit shall not be taken on further appeal.

[Act XII of 1881, s. 208.]

(*4*) Nothing in this section shall be construed to affect the provisions of section 28 of the Court-fees Act, 1870.

VII of 1870.

Repeal of section 14 of the Madras Civil Courts Act, 1873.

6. On and from the date on which rules under this Act take effect in any part of the territories under the administration of the Governor of Fort Saint George in Council to which the Madras Civil Courts Act, 1873, extends, section 14 of that Act shall be repealed as regards that part :

III of 1873.

Provided that the repeal of that section shall not affect the jurisdiction of any Court with respect to any suit instituted in that part before the rules take effect therein.

Time and procedure for making rules.

7. (*1*) Rules may be made under this Act at any time after the passing thereof.

(2) A Local Government shall, before making rules under this Act, consult the High Court with respect thereto and publish a draft of the proposed rules in the official Gazette.

(3) There shall be published with the draft a notice specifying a date at or after which the draft will be taken into consideration.

(4) The Local Government shall receive and consider any objection or suggestion which may be made by any person with respect to the draft before the date so specified.

(5) A rule made under this Act shall not take effect before the Act has come into force in the local area for which the rule has been made or till the expiration of one month after the rule has been published in the local official Gazette.

(6) The publication in the Gazette of a rule purporting to be made under this Act shall be conclusive proof that it has been made as required by this section.

STATEMENT OF OBJECTS AND REASONS.

THE principal object of this Bill is to prescribe a simple mode of valuing suits relating to land for the purpose of determining the jurisdiction of the Courts with respect to them. Most of those suits are of course cognizable exclusively by Civil Courts, but some of them, as for instance, suits in the Punjab under section 9 of the Specific Relief Act, may be tried by Revenue Courts.

2. It has been brought to the notice of the Government that, while the Civil Courts Acts of the several Provinces, with the exception of that in force in the Presidency of Madras, prescribe no special rules for fixing the value for jurisdiction of the subject-matter of land-suits, but simply define the limit of the jurisdiction of each grade of Court by the money-value of the subject-matter in suit, thus leaving the market-value to be the strictly legal criterion, a practice has sprung up, generally in the inferior Courts, of accepting, in the absence of any express provision of law to the contrary, the court-fee valuation as laid down in section 7, paragraph v, of Act VII of 1870, for purposes of jurisdiction also.

3. The generally admitted result is that land-suits are undervalued and disposed of by Courts not strictly competent to try them. In order to remedy this state of things the present Bill has been prepared. It empowers (section 2) the Local Government to frame rules, subject to the sanction of the Governor-General in Council, for determining the value of land in the territories under its administration for purposes of jurisdiction in the suits mentioned in section 7, paragraphs v and vi, and paragraph x, clause (*d*), of the Court-fees Act, 1870, namely, suits for possession of land, to enforce a right of pre-emption, and for specific performance of an award relating to land. These rules are to be made after consultation with the High Court; and the Bill provides (section 7) a procedure for the publication of proposed rules, so that the Courts and the public may have an opportunity of preferring any objections which they may have to them before the rules are made. The Bill further declares (section 3) that where a suit mentioned in paragraph iv of section 7, or article 17 of Schedule II, of the Court-fees Act, relates to land, the amount at which for purposes of jurisdiction the relief sought in the suit is valued shall not exceed the value of the land to which the suit relates as determined by the rules under the Act.

4. In addition to the foregoing provisions, which relate exclusively to land-suits, section 4 provides that in other suits in which court-fees are payable *ad valorem*, the value for purposes of jurisdiction shall be estimated in accordance with the rules which regulate the value for court-fee purposes.

5. Section 5 of the Bill is taken from sections 206-208 of the North-Western Provinces Rent Act, 1881, and has been inserted at the suggestion of Sir Charles Turner, late Chief Justice of Madras. It lays down a special procedure for cases in which the objection that a suit was not properly valued for purposes of jurisdiction is taken in an appellate Court, an objection which the Bill declares may not be entertained unless it was taken in the Court of first instance.

6. Lastly, the Bill (section 6) repeals section 14 of the Madras Civil Courts Act, 1873, which enacts the rule of valuation which it is the object of this Bill to abolish, namely, the valuation for jurisdiction in the case of land-suits shall be in accordance with the court-fee valuation prescribed by section 7, paragraph v, of the Court-fees Act, 1870. In order, however, to prevent hardship or inconvenience to suitors, it is provided that this repeal shall not affect any suit instituted before the rules under the proposed Act take effect.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First publication.]

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 11th August, 1886 :—

NO. 17 OF 1886.

A Bill to amend the Indian Evidence Act, 1872.

WHEREAS it is expedient that Revenue-officers should not be compelled to say whence they obtain information with respect to offences against the public revenue ; It is hereby enacted as follows :—

New section substituted for section 125 of the Evidence Act.

1. The following section shall be substituted for section 125 of the Indian Evidence Act, 1872, namely :— I of 1872.

Information as to commission of offences.

"125. (*1*) No Magistrate, Police-officer or Revenue-officer shall be compelled to say whence he got any information as to the commission of any offence.

(2) 'Revenue-officer' in this section means any officer employed in or about the business of any branch of the public revenue." [Act X, 1870, s. 3]

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to prevent officers of any department concerned with any branch of the public revenue from being compelled to say whence they got any information as to the commission of any offence.

In England not only is it the case that witnesses may not be compelled to disclose, but they are not even permitted to be asked, the names of those from whom they receive information as to frauds on the revenue (*Russell on Crimes and Misdemeanours*, Fifth Edition, III, 553). The law on the subject is further stated in Bell's *Laws of Excise* as follows :—

"It is a rule of evidence applicable to criminal cases, and the same rule has always been held to apply to penal informations at the suit of the revenue, that a witness is not permitted to disclose privileged communications brought to his knowledge for the furtherance of justice. 'This is not the privilege of the witness, but may be justly called a public privilege, and is observed on a principle of public policy and from regard to public interests' (1 *Phil. Ev.* 272). Hence 'those questions which tend to the discovery of the channels by which the disclosure was made to the officers of justice, are not permitted to be asked' (*Rex* v. *Hardy*, 24 Howell's S. T. 753—Eyre, L. C. J.). 'If the name of the informer were to be disclosed, no man would make a discovery, and public justice would be defeated' (*Id.*, p. 814—Buller, J.). In the case of *Attorney-General* v. *Bryant* it was held that a witness for the Crown could not be asked 'Did you give the information?' (15 M. & W. 169)."

It cannot be ascertained from the records of the Legislative Department why the English law with respect to the disclosure by Revenue-officers of the source of information as to the commission of offences against the revenue was not incorporated in the Indian Evidence Act, 1872. The omission has caused much inconvenience, and is even said to be seriously impairing the efficiency of the Excise and Salt Departments in the Presidency of Bombay.

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE JAILS IN BENGAL FOR THE YEAR 1885.

The Reports for the years 1883 and 1884, and the orders of Government recorded thereon.

MR. E. V. WESTMACOTT, C.S., officiated as Inspector-General of Jails from the 1st January to the 25th September 1885, and Dr. Lethbridge was in charge for the remainder of the year. Both officers have thoroughly carried out their duties of inspection, the former having inspected 28 central and district jails, seven subsidiary jails, the reformatory schools at Alipore and Hazaribagh, and the lunatic asylums of Cuttack and Dacca; while the latter had, previous to the submission of his report, inspected 35 jails.

2. *Judicial statistics.*—The following table shows the number of prisoners in all the jails of the province during the past ten years :—

	1876	1877	1878	1879	1880	1881	1882	1883	1884	1885
Number of prisoners of all classes in jails and subsidiary jails on the last day of previous year ..	21,292	21,966	18,154	19,235	18,325	17,308	16,367	15,595	14,718	15,354

Balance at the end of the year	21,266	18,154	19,212	18,349	17,305	16,367	15,595	14,718	15,354	15,076

The daily average population increased from 15,101 in 1884 to 15,177 in 1885. The difference (76), however, was not large, and is probably due to the fact that scarcity prevailed for some part of the year in certain districts, and led to an increase of petty crime. The central jails contained a larger proportion of the total prison population than they have ever done before—55·96 per cent. in 1885 as compared with 54·36 in 1884. The proportion in district and subsidiary jails was 42·05 and 1·99 respectively. As no prisoner sentenced to less than six months is sent to a central jail, the above figures necessarily point to an increase in the number of sentences of six months' imprisonment and upwards.

3. There was a very slight difference between the number of prisoners released in 1885 and the number released in the previous year. 27,379 prisoners were released on expiry of sentence, as against 27,345 in the previous year. The number released on appeal increased from 1,670 to 1,750, the ratio per cent. being highest in Chittagong (15·4), Noakholly (13·9), Dinagepore (13·4), Pubna (13·3), and Balasore (13·0). The number discharged under the mark system decreased from 1,665 to 1,565, and the result is due to the fact that the mark system has been more carefully worked, and that the number of prisoners sentenced to two years and over (to whom alone the system is applicable) is decreasing. The mark rules have recently been revised so as to be more favourable to well conducted prisoners, and in future it will be possible for them to earn longer periods of remission than they have been able to do hitherto. Apart from "special marks" for special service, every convict can earn one mark daily for "the exact and skilful performance of his daily task," and another mark for "thoroughly good conduct and scrupulous attention to all jail regulations." The rules are now to be worked on a more self-acting principle, and in the absence of any entry against a prisoner for any day, it is to be presumed that he has earned "ordinary marks" for that day, and every 24 such marks earned will entitle him to one day's remission. Under the highest rate of marks, a prisoner can earn two months' remission in two years. Sir Rivers Thompson is of opinion that, having regard to the mark system in England (in which the highest rate earned gives a remission of one-fourth of the sentence), the rules might be made even more liberal, as there can be no doubt that the system acts as a powerful incentive to good behaviour in jail. Twenty-two prisoners were released on medical grounds, and 75 comparatively short-term prisoners were discharged with the sanction of Government from the Hazaribagh Jail on the 21st July owing to a severe epidemic of cholera.

4. The number of convicts transported beyond sea decreased from 521 to 468. Seventy-two were rejected by the Medical Board at Alipore against 107 in 1884, the number of rejections from Bengal being two less than in the previous year. Greater care appears to have been exercised in forwarding convicts from other provinces, and as a consequence the number of rejections has fallen from 70 to 37. Orders have recently been received from the Government of India, under which there will in future be a far smaller percentage of rejections. The simple test to be applied is whether a convict is fit for ordinary labour in an Indian jail. If so fit, he is, subject to the prescribed conditions as to age, to be deported to the Andamans. Convicts who, although

of inferior physique, are not suffering from any organic disease, are not to be rejected, nor are such diseases as goitre, hydrocele, varicose veins, and similar minor complaints, for which convicts have been sometimes rejected hitherto, to be considered as a bar to transportation.

5. As regards religion, the marked decrease in the number of Christian prisoners still continues. There was a very slight decrease in the number of Mahomedans, while the number of Hindus received into jails decreased from 18,375 to 17,975, their percentage to the total number of convicts showing a slight fall from 57·36 to 57·01 The previous occupation of convicts presents only one feature worthy of remark, namely, that the number of persons imprisoned, who were in Government employ, decreased from 1,407 in 1884 to 1,228 in 1885. This decrease is substantial and satisfactory, whether as pointing to a closer supervision by Government officers over their native subordinates, or as indicating that the *morale* of the latter has improved under the influence of education. The number of juvenile (those under 16 years of age) convicts decreased from 408 in the previous year to 355. The Inspector General remarks that many boys have to be confined in jail, as there is not sufficient accommodation in the reformatory schools at Alipore and Hazaribagh. But it was pointed out in the Resolution on the Jail Report for 1884 that it was not intended that all juvenile male offenders should be sent to reformatories, irrespective of the offences they had committed, or of their having relatives able and willing to attend to their proper training. At the Hazaribagh school additional cells have been and are being constructed, and it was recently observed by the Lieutenant-Governor, in the Resolution on the Report concerning those reformatories, that the accommodation thus provided would probably suffice for all possible requirements in the near future. Nevertheless, Sir Rivers Thompson will be prepared to consider favourably the scheme which the Inspector-General is about to submit for the starting of a training ship in the Hooghly river as a reformatory school for Mahomedan and Hindu boys. The demand for lascars, it is said, is increasing, and the wages earned are high; and on the pilot brigs and the vessels of the large steam-ship companies trading with Calcutta, there exist means of training and employing boys at sea, which should not be thrown away.

6. There has been a decrease in the number of sentences not exceeding three months, a marked increase in those from three months to two years, and a decrease in sentences from two to ten years. The number of prisoners sentenced to simple imprisonment has increased from 1,868 in 1884 to 2,028 in 1885, while sentences of rigorous imprisonment show a slight decrease from 30,005 to 29,314. These variations call for no remark. The number of female prisoners admitted direct into jail was 1,573, of whom 666 were married, 37 unmarried, 714 widows, and 156 prostitutes. The large proportion of widows and prostitutes is noticeable. The proportion of Hindu females to Hindu male prisoners is 5·8 per cent; whereas the proportion of Mahomedan females is only 4·0. The reason for this smaller percentage is doubtless, as the Inspector-General remarks, that there are fewer widows and unprotected females among Mahomedans, and generally a greater seclusion of females. It is said that the question of confinement of females, where there is only one in jail, still presents difficulties, inasmuch as the result is often a penalty of solitary confinement for a considerable period. The rules which have been sanctioned since the close of the year will prevent any future difficulty on this score. Female prisoners sentenced at sub-divisions are to be at once transferred to the district jail. Where the only prisoner in a female ward is likely to be there for more than seven days, a female friend is to be allowed to live with her; or if the prisoner has no such friend who will act as her companion, an extra female warder is to be entertained to keep her company.

7. At the close of the year 1884, 106 Burmese prisoners were confined in the jails of Bengal. Twenty were received during 1885 and five died, leaving 121 at the close of that year. The Inspector-General considers that we are not in a position to increase this number, though in the Report for 1884 it was said that, if necessary, accommodation could be provided for 141. The necessities of the Burmah Administration in this respect are very pressing, and the Lieutenant-Governor has no doubt that assistance must continue to be given.

There is less reason for any hesitation, as the conduct of these prisoners has during the past year continued to be good. The fact that the Inspector-General has been able to remove the fetters from most of these men, who have been for two or three years in our jails, and to promote others to be night watchmen, speaks in favour of their general good behaviour. As workmen they continue to do excellent service.

8. The number of re-convicted prisoners decreased from 3,915 to 3,644, or from 12·22 to 11·55 of the total number of convictions. It is a significant fact that the number of habituals admitted to jail showed a considerable decrease in certain districts in which attention was given to prosecutions for bad livelihood. On the other hand, in Lohardugga, where there were no such prosecutions, and in Mymensingh, where there were only two, the number of habituals admitted to jail were respectively twice and nearly four times as many as the number admitted in 1884. The number of bad characters imprisoned in default of security was 659 against 556 in 1884. The number of prisoners unable to read or write was 87·0 per cent. of the whole, those able to read or write a little 9·7, and those able to read or write well 3·3 per cent. These figures show but little difference from the previous year. Experience in England has shown that literary education has not produced the good results on prisoners which were once expected from it; in India industrial instruction is perhaps the most potent of the educational influences available to Government for the purposes of reformation.

9. The daily average number of under-trial prisoners was 1,169 against 1,170 in 1884. The number convicted was 14,456, or 48·8 per cent. of the total admitted against 48·2 per cent. in 1884 and 45·1 per cent. in 1883. The accommodation for under-trial prisoners has been increased in certain third class district jails, and the Inspector-General is of opinion that there should be no overcrowding in future. The average period of detention was 17·36 days against 17·30 in 1884. The long detention in the Maldah and Khoolna Jails was separately reported, and the explanations submitted appear to the Lieutenant-Governor to be satisfactory, but arrangements will have to be made for holding four sessions in the year at Maldah, instead of only three as hitherto. The number of civil prisoners admitted increased from 3,545 to 3,793. The Inspector-General remarks that the question of increasing the civil jail accommodation is becoming more urgent; but Sir Rivers Thompson is of opinion that the consideration of this question should now be postponed until it is seen whether the Bill for the partial abolition of imprisonment for debt is adopted. If this Bill becomes law, the existing accommodation should be ample.

10. *Prison discipline, guards, and escapes.*—The system of classification requires the complete segregation at all hours of female, juvenile, under-trial, and civil prisoners, and, as far as possible, the complete separation of habituals (B class) from those convicted for the first time. The number of offences committed by prisoners was 48,789 against 56,564 in 1884. This is a considerable decrease. Having regard to the total jail population, the number of offences may appear to be somewhat excessive; but, as has been remarked in previous reports, all offences in Bengal jails are carefully recorded, even though the offence be of a very petty character. The decrease in 1885 is to some extent due to the remarks of the Government of India, on the Report for 1884, that the system of reporting jail offences in Bengal was faulty as involving unnecessary interference, and that some reduction in the number of petty offences might be effected if more exemplary punishments than are ordinarily imposed were inflicted from time to time in appropriate cases. The following table shows the nature of offences committed in 1885 and the four previous years:—

	Criminal offences.	Breaches of Jail Rules.			Total offences.
		Smoking or having possession of forbidden articles.	Offences relating to work.	Other offences against prison discipline.	
1885	70	2,715	25,702	20,314	48,789
1884	91	3,280	31,303	21,890	56,564
1883	88	3,320	23,852	18,630	49,580
1882	76	3,804	26,672	18,288	48,570
1881	111	3,711	27,963	17,964	49,749

Owing to the depression in the jute trade, the Alipore Jail has been working at half time, and this jail alone accounts for a decrease of 4,691 offences relating to work. The decrease under the head of "smoking or possession of forbidden articles" is due, it is said, to the stoppage of building work, as, when this is going on, large bodies of free artizans come into the jails and work in company with the prisoners. The following table compares the statistics in regard to punishments for the last five years:—

	By criminal courts.	By Jail Officers.					Total punishments.
		Solitary confinement.	Reduced diet.	Solitary confinement with reduced diet.	Corporal punishment.	All other punishments.	
1885	71	3,333	2,486	473	347	42,081	48,790
1884	85	3,688	3,973	572	345	47,945	56,558
1883	77	3,261	2,765	2,347	340	40,170	48,309
1882	79	3,087	3,097	3,098	416	36,827	46,574
1881	101	2,483	9,411	2,358	914	34,593	49,740

For the reason above noticed, the Alipore Jail accounts for a decrease of 6,872 out of a total decrease of 7,768 punishments. The punishment of reduced diet has been discouraged under the orders issued last year, and the Lieutenant-Governor notices with satisfaction that the number of instances in which it was inflicted decreased from 3,973 to 2,486 Corporal punishment was inflicted in only 347 cases. The Government of India remarked, in their Resolution on the Report for 1881, that it was not their wish to prevent the infliction of whippings for really serious offences against discipline, and the instructions which have from time to time been issued on the subject have only had for their object to lay down that corporal punishment should be restricted to grave offences and should not ordinarily be used until it has been shown that other punishments of a less severe character have failed to produce the desired effect. The number of whippings per 1,000 of the prison population was very little over 3, whereas the yearly average in English convict prisons was 11·13 per 1,000 for the five and a half years ended 31st March 1878, and 9·8 for the six years ended 31st March 1885. Solitary confinement was inflicted in 3,333 instances against 3,688 in 1884. Under the relaxations prescribed by the Jail Code, which the Lieutenant-Governor trusts are in all instances allowed, this punishment is far less severe than solitary confinement as carried out in the case of judicial sentences under the Penal Code.

11. All jails, except the Alipore Jail, at which there is a military guard, are now guarded by warders. Police guards were temporarily employed at Hazaribagh and Chumparun owing to an outbreak of cholera. There has, it is said, been much sickness amongst the warders, especially in the malarious districts of Bengal Proper. A special allowance had to be sanctioned by Government for warders in unpopular districts, and since then the Inspector General observes that he has seen a decided improvement in the guards, and that there is no want of recruits. The total number of warders cannot be ascertained from the report, but the Lieutenant-Governor notes with surprise that it should have been found necessary to inflict punishments in as many as 3,133 instances on head warders and warders. There were only 14 escapes of convicted prisoners against 24 in 1884, but 20 under-trial prisoners escaped from subsidiary jails, such escapes being in some cases due to the insecure condition of the buildings and the fact of there being no enclosing walls of masonry, but only palisades of bamboo. Out of the escapes of convicted prisoners, eight were from jails and six from subsidiary jails. There has been a steady decrease since 1870, when the number of escapes was 192; and in the year under report 37 jails out of 45 in the province show no escapes. These figures are satisfactory. The worst case in the list of escapes was that which occurred in broad daylight from inside the Pubna Jail, showing extremely defective arrangements for guarding. In one case at Barisal a water gang of four prisoners was being taken, as usual, to the river, when one of them

deliberately ran off, but eventually surrendered himself while the police were searching for him. The Magistrate very properly refused to punish the warder in charge, on the ground that he could not leave the three other prisoners. This case shows the necessity of having even the smallest gang outside a jail placed under the care of two men, a paid official and a convict overseer. Of the 14 convicted prisoners who escaped, all but three were re-captured.

12. *Expenditure.*—Excluding the charge for buildings constructed under the Public Works Department, the gross expenditure on jails and subsidiary jails amounted to Rs. 11,16,423, being higher than any year since 1880, and Rs 59,933 more than in 1884. There is an increase under every head. The total expenditure on subsidiary jails alone (again excluding public works) was Rs. 85,222 against Rs. 83,368 in 1884, the increase being due to higher prices paid for provisions, and the entertainment on the warder staff of men drawing higher pay than in the previous year. The Lieutenant-Governor, in consideration of the increase of sickness during the year, does not demur to the addition of Rs. 2,545 to the cost of medical stores. He is sure that this matter is one which is carefully watched by Dr. Lethbridge, and that needlessly large indents are reduced whenever they are made. The daily average population of convicts and under-trial prisoners increased from 14,125 in 1884 to 14,198 in 1885. There must, therefore, necessarily have been some increase in the cost of diet, even had the relative prices of the various items composing it remained the same, but in fact there was an increase in the average price both of rice and dall, the two principal articles of diet used. The Inspector-General has given an elaborate comparative table of prices for every district in Bengal, from which it appears that rice rose from Rs. 2-8-2 in 1884 to Rs. 2-8-7 per maund in 1885, and dall from Rs. 2-6-10 to Rs. 2-7-9. On the other hand, the price of wheat and Indian corn decreased, and some of the Behar jails show a less expenditure. Meat and salt were cheaper, but fish dearer. The expenditure on diet per prisoner was under Rs. 20 in the jails of Shahabad, Manbhoom, Buxar, Sarun, Singbhoom, Bhagulpore (District), and Pooree; while it exceeded Rs. 27 in Darjeeling, Lohardugga, Dacca, Chittagong, Mozufferpore, and Hazaribagh. The Inspector-General has taken each division separately, and compared the expenditure of the different districts. This plan, in the Lieutenant-Governor's opinion, is fair, and calculated to encourage those jail officials, among whom those of Khoolna and Jessore may be prominently mentioned, who have tried to manage their jails economically. But Sir Rivers Thompson is not sure that the higher average cost in Burdwan could have been avoided. Prices are at all times higher there than in Midnapore and Bankoora, and prices rose during the year under report in consequence of a threatened scarcity from failure of the crops in that district, which affected prices for a large part of the year. Moreover, mutton, fish, and *dahi* had to be given several times a week owing to the unhealthiness of the jail. But where adjoining districts show considerable differences, as is remarked in the cases of Mymensingh and Dacca, Barisal and Khoolna, Monghyr and Bhagulpore, Sarun and Mozufferpore, Lohardugga and Manbhoom, an unfavourable inference may fairly be drawn against those jails in which the expenditure is highest, and the Inspector-General should take steps to remove any preventible causes for such differences.

13. The charges for establishment rose from Rs. 3,88,181 in 1884 to Rs. 3,94,703 in 1885; hospital charges from Rs. 39,071 to Rs 49,142; clothing from Rs. 58,314 to Rs. 69,487; and contingencies from Rs. 76,829 to Rs. 88,360. There was an increase of sickness during the year, and many prisoners, though not actually in hospital, were given extra diet. The increase on account of clothing to a figure never reached before, viz., Rs. 4-14-3 per head, has not been sufficiently explained, the provision of warm jungeahs for weak prisoners in unhealthy jails accounting only for Rs. 452. The Lieutenant-Governor quite agrees with the Inspector-General's remarks on this subject, and trusts that, while not interfering with the exercise by the Superintendents of notoriously unhealthy jails of the fullest discretion as to the quantity of clothing supplied, he will see that extravagance in this respect is not permitted elsewhere. Transfer charges and travelling allowance increased owing to the attempt to introduce Behar warders into Bengal jails, a change

in the system of giving privilege leave to jailors and assistant jailors, and the transfer of a large number of prisoners to central jails and from central jails to district jails in the case of police registered prisoners, who, under orders of Government, are released in the districts in which they were convicted. An item of Rs. 1,530 was paid to the Dacca Municipality for water supplied to the central jail from January 1883 to March 1884, and is therefore not chargeable against the year under report. The expenditure under the head of petty construction and repairs was Rs. 23,404 against Rs. 17,214 in the previous year. Some useful work was done in constructing or improving latrines, privies, and bathing platforms. The Inspector-General points out that the grant for minor works, which was Rs. 25,000 in 1882, Rs. 10,000 in 1883, Rs. 5,000 in 1884, was reduced to Rs. 1,500 in 1885. The Lieutenant-Governor recognises that he should have an adequate sum at his disposal, if any real minor improvements are to be carried out after, and as a result of, his inspections; and an endeavour will be made to increase the grant for the ensuing year. Taking the gross expenditure for all jails, it comes to this that the average cost of each prisoner to Government has risen from Rs 69-15-4 in 1884 to Rs. 73-9-0 in 1885—a rate higher than that of any year on record. The Inspector-General must realise that this is a rate of increase which the Provincial revenues are not able to bear, and that the Lieutenant-Governor looks to him for an appreciable reduction.

14. *Employment of prisoners and manufactures*.—The average daily number of prisoners sentenced to labour increased from 13,521·78 in 1884 to 13,600·25 in 1885. The daily average number of sick increased from 720·80 to 756·81, and of the convalescent and infirm from 821·10 to 1,045. The total average number of prisoners employed on manufactures decreased from 6,478·18 to 6,340·96, the proportion to the total number of prisoners showing a decrease from 47·90 to 46·62 per cent. The net cash earnings increased from Rs. 2,86,517 to Rs. 3,65,202, or an earning of Rs. 57-10 per head on the average number employed on manufactures only. The Presidency Jail heads the list with an average earning per prisoner of Rs. 80-7. The tent-making industry at Buxar has been established on a sound footing, and, with reference to the recent Resolution of the Government of India on the subject of manufactures in jails, this jail should in future receive a large number of orders. The smaller earnings in the other central jails (except Bhagulpore) is attributed to a diminished demand, to lower prices for coir and hand-made cotton goods, and to a reduction in the tasks owing to an unhealthy year. The reason for the small earnings in the Dacca Jail—only Rs. 4-6 per prisoner—should have been explained. Among district jails, that at Darjeeling stands first with an average earning of Rs. 63-14. The bread-making here has continued to be carried on very successfully and is of great benefit to the station, where bread of good quality is not procurable in the market. The attention of the Inspector-General is directed to the Resolution of the Government of India, Home Department, dated the 7th May 1886, and especially to paragraphs 7 and 9. The intramural industries of jails should in future be adapted, as much as possible, to the requirements of the public consuming departments, those departments being compelled to take articles of jail manufacture, which they require, so long as such articles can be supplied by the jails of the same quality and at the same price as they can be obtained in the open market. Moreover, the object of securing an adequate amount of the penal element in jail industries should be enforced. The Lieutenant-Governor notices that the outstandings due to the jails at the end of the year were in some cases very large.

15. *Subsidiary Jails*.—Subsidiary jails continued to be, as in previous years, under the direct management of sub-divisional officers with civil hospital assistants as Deputy Superintendents. The number of visits of inspection paid by a sub-divisional officer should never fall below 77, that is, eight fortnightly visits during his four months' tour, and two visits a week during the remainder of the year. There has been a marked improvement in this respect during 1885, and no fewer than 32 jails were visited by their Superintendents more than 100 times during the year. In six instances the number of visits paid was below 60, and, except in the case of Buxar, where, owing to the direct transfer of

prisoners to the Buxar Central Jail, it is not so necessary to visit the subsidiary jail frequently. the Inspector-General should call attention to the failure.

16. The total number of prisoners admitted to subsidiary jails was 28,014 against 28,625 in 1884, the daily average number being 728·18 against 743·00. The number of convicted prisoners admitted was 14,120 against 14,519 in 1884. These figures call for no comment. The average period of detention of under-trial prisoners exceeded 20 days in the jails of Chandpore, Gobindpore, and Kishoregunge, and explanations should be called for from the sub-divisional officers of those places. It is quite unnecessary to discuss the age, religion, mortality and other statistics for subsidiary jails separately. These tabular figures may well be omitted in the reports for future years.

17. *Health and Vital Statistics.*—In his eighth Chapter the Inspector-General enters very fully into the question of the sickness and mortality in our prisons, a subject which, as it is the most important, is also the most difficult to deal with in Bengal. With reference to the Report and the Resolution on the administration of jails for 1884, the Government of India remarked that a comparison of the health statistics of Bengal jails with those of other provinces clearly showed that much might still be done to ameliorate the condition of prisoners in the Lower Provinces, and added that "the prison mortality of Bengal cannot be considered satisfactory when contrasted with the death-rate of the free population of the province; for, as stated by the Officiating Inspector-General, the ratio obtained by a very careful registration carried out in Nuddea (which of late years has been notorious for its unhealthiness under the superintendence of Major Ramsay did not exceed 39·6, or say 40 per 1,000, whereas the death-rate in Bengal jails during the year 1884 represented a ratio of upwards of 50 per 1,000." It was also observed that in 15 of the 45 prisons in Bengal, the mortality was above the general average, and that in 7 of these the death-rate varied from 102·2 to 283·4 per 1,000.

18 Dr Lethbridge demurs both to the usefulness and fairness of a comparison between Bengal and provinces where the climatic conditions are so absolutely different, and points out that he has to place together the figures of radically diverse districts, such as, for instance, Mymensingh in Eastern Bengal, and Buxar which immediately adjoins the North-Western Provinces. His argument is that, in the vast province of Lower Bengal, there are far greater variations between different districts than exist in other provinces, in respect of salubrity of climate and the general health and sanitary conditions of the population from which the prisoners come. His main conclusions are the following, namely, (1) that the most potent of all causes of mortality is the broken-down constitution of the prisoners admitted to jails in unhealthy districts; (2) that jail mortality is not due to any causes connected with jail life, as is clear from the fact that a very large proportion of the prisoners die within the first six months of their incarceration, and their chances of life improve after that period; (3) that it is a mistake to calculate the death-rate on the daily average number confined in jails. This method is absolutely valueless in the case of jails in unhealthy districts, though it may give approximate results, if all the prisoners admitted are uniformly healthy. If a large number of men with broken-down constitutions pass through a jail, a certain number of them will certainly die, and the mortality calculated on the daily average population is in such cases useless as a means of ascertaining the sanitary condition of such jail. Sir Rivers Thompson believes that these conclusions are correct in the main. There cannot, he thinks, be a doubt that the condition of health of the free population must largely influence the death-rate in our jails. At first, it is possible that the conditions attaching to jail life have a depressing effect, and that this is intensified by the sickly state of many of the prisoners when they first come in. But this has nothing to do with jail management, or with the arrangements made to reduce to a minimum the risks incidental to a state of enforced restraint; and the Lieutenant-Governor can only repeat what he said last year that it is rather to unremitting watchfulness and care on the part of the jail officials in carrying out the various arrangements for the well-being of the prisoners than in any further additions to, or improvements in the jails, that we must look for a reduction in the mortality.

19. The following table compares the sickness and mortality among convicted and under-trial prisoners in jails and subsidiary jails since 1876 :—

Years.	Daily average number of prisoners.	Daily average sick.	Ratio per mille of daily average sick.	Number of Deaths. From cholera.	From all other causes.	Total number of deaths.	Death-rates per Mille of average strength. From cholera.	From all other causes.	From all causes.	Remarks.
1876	21,672	849	39·1	267	975	1,242	12·3	45·0	57·3	Convicted and under-trial only.
1877	18,709	730	39·0	151	763	914	8·0	40·8	48·8	
1878	18,611	803	43·1	215	1,072	1,287	11·5	57·6	69·1	
1879	18,483	947	51·2	341	1,411	1,752	18·4	76·4	94·8	
1880	17,802	941	52·8	31	1,100	1,131	1·7	61·8	63·5	
1881	16,520	873	52·8	85	1,014	1,099	5·1	61·4	66·5	
1882	15,902	849	53·3	151	933	1,084	9·5	58·6	68·1	
1883	14,776	739	49·3	61	701	762	4·1	47·4	51·5	
1884	14,868	724	48·6	62	678	740	4·1	45·6	49·7	
1885	14,936	773	51·7	157	728	885	10·5	48·7	59·2	

The death rate per 1,000 has risen from 49·7 in 1884 to 59·2 in the year under review. This is largely due to the severe prevalence of cholera in several districts, which alone accounted for 10·3 of the deaths.

The total number of deaths among convicts in jails and subsidiary jails was 838,* or 60·9 per 1,000, as compared with 691, or 50·4 per 1,000 in 1884. Excluding deaths from cholera, the death-rate is reduced to 50·1 per 1,000 as against 46 3 in the previous year. Of those who died, 34·99 per cent. were admitted in indifferent health, and 30·14 in bad health. The death-rate is enhanced by the heavy mortality in the following jails, in some of which cholera accounts for the increase :—

	Death-rates from all causes per mille. 1885.	1884.
Julpigoree	202·0	162·6

Julpigoree, Dinagepore, Purneah, Rungpore, Burdwan, Singbhoom and Bogra, are extremely unhealthy districts, and the high rate must be attributed to the unhealthy conditions of the people admitted to the jails, and the prevalence of malarious diseases in the stations in which those jails are situated. As regards Rajshahye, the jail is, as the Lieutenant-Governor is aware from a personal visit, situated on the banks of the Ganges. It has ample well ventilated accommodation, a spacious open compound, and its sanitary arrangements are, so far as can be judged, as good as they can be. But it has the misfortune to receive most of its prisoners from such unhealthy districts as Rungpore, Dinagepore, Julpigoree and Bogra. 46·3 per cent. of the prisoners admitted were in indifferent health, and 11·8 in bad health, while there were 17 deaths from cholera during the year. The Khulna jail has been at times overcrowded, and receives its prisoners from some very unhealthy thanas in the Sunderbuns. Chumparun and Mymensingh, in both of which special enquiries have been instituted, are notoriously unhealthy districts, and the high mortality at Hazaribagh was due to a very severe outbreak of cholera. At Monghyr one under-trial prisoner died before he could attend court; one died four days, and another eight days, after conviction ; while one man died from injuries due to falling into a well. As regards Julpigoree, it is stated that out of 513 prisoners the medical officer declared 80 to be in bad, and 321 in indifferent, health. The Inspector-General remarks—"Only those who know the standard of health which is considered good in a malarious district will understand the meaning of such terms as bad and indifferent as

* Including two cases of suicide.

applied to Julpigoree prisoners. Of the 513 prisoners referred to, 20 died. Of those who died, 8 were admitted in bad health, 11 in indifferent health, and only one in good health." No explanation is given of the high death-rate in Chittagong which ordinarily cannot be classed as an unhealthy district.

20. The remarks of the Inspector-General, referred to above, are borne out by the figures of mortality according to the length of time passed in jail. Out of 836 convicts who died, 361 had been less than six months in jail, 210 more than six months and less than a year, 144 more than a year and less than two years, 45 more than two and less than three years, and 73 above three years. Moreover, the following table shows that prisoners discharged during 1885 had improved in health during their residence in jail.

21. The year 1885 was an unhealthy one as regards fevers of malarious origin, and the Inspector-General ascribes it to the unusual rainfall during the unhealthy months of the year. There was a considerable increase in the admissions from dysentery and diarrhœa—7,764 against 7,061 in 1884—the number of deaths at the same time rising from 271 to 318. There were 21 cases of small-pox with 4 deaths, and 249 cases of cholera with no less than 147 deaths. As these epidemics have been the subject of special reports, it is not necessary to notice them further here. The cases returned under the head "remittent and continued fevers" showed a decided decrease, but the ratio per mille of deaths to admissions indicates that these cases have been of a severe type, no less than 92·7 per mille dying, as against 39·7 in 1884. A disease has been returned under this head which has been the subject of a special enquiry in the Alipore Jail by a Committee composed of Drs. Cleghorn, Joubert, and Clarke. The report of the Committee, recently received, fully justified its appointment. It has been shown that cerebro-spinal meningitis has prevailed in many parts of India in jails and in emigrant ships without being recognized as a disease distinct from remittent fever, with which it has been confounded. The Committee are of opinion that defective ventilation and the crowding together of large bodies of human beings are the most important hygienic defects which can, in the present state of our knowledge, be said to favour the development of such a disease. It is a satisfaction to know that during the current year, which up to date has been an unusually healthy one, the condition of the prisoners has, as regards health, been good.

22. The Inspector-General has represented to Government that the number of clerks in the head office is insufficient to do the work of the department. Government appointed Mr. Counsell, the Registrar of the Bengal Office, to examine and report on its working; and it seems clear from his report that the office is somewhat undermanned, and requires to be strengthened. The matter is now under consideration.

23 Sir Rivers Thompson notices with pleasure the large number of officers who have been favourably mentioned. His thanks are due both to Mr. Westmacott and to Dr. Lethbridge for their effective administration of one of the most difficult departments of the public service.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Inspector-General of Jails for information and guidance, and to all Commissioners for information and for communication to the District and Sub-divisional Officers in their divisions.

Ordered also that a copy of this Resolution, and a copy of the Report, be submitted to the Government of India in the Home Department.

Ordered also that a copy of this Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

F. B. PEACOCK,

Chief Secretary to the Government of Bengal.

RESOLUTION ON THE GENERAL ADMINISTRATION REPORT OF THE CHITTAGONG DIVISION FOR THE YEAR 1885-86.

GENERAL DEPARTMENT.—MISCELLANEOUS.

Calcutta, the 21st August 1886.

RESOLUTION.

READ—

The General Administration Report of the Chittagong Division for 1885-86.

MR. LYALL officiated as Commissioner of the Chittagong Division during the whole of the year, except for a fortnight, when he was on privilege leave. Mr. Manson was in charge of the Chittagong district, Mr. Skrine of Tipperah, and Mr. Bedford of the Chittagong Hill Tracts, with brief interruptions. As the Commissioner observes, there were fewer changes than usual among the officers of the Division, and all the reports, except that of Tipperah, have been submitted by Collectors who have been in charge sufficiently long to write from personal experience.

Tours.

2. The Commissioner's tour was a short one, as he was not absent from head-quarters for more than 62 days; but the Chittagong Division consists of only four districts, and he spent a fortnight in each. Mr. Manson made a very useful tour in Chittagong, supervising on the spot, with marked success, the management of the extensive Government estates of the district. The rule that every Collector should spend at least 90 days on tour was observed by all officers except the Officiating Collector of Tipperah, who was in camp for 80 days only. The district had its full complement of officers, and there was the less reason therefore for the incomplete observance of the rule in this case.

Weather, crops, and public health.

3. The rainfall of the year was above the average, and was on the whole well distributed. The rice crop was fair, with good prices, which the Commissioner considers better for the cultivators than a bumper harvest and low prices. On the other hand the jute crop in Tipperah was poor, and in Noakhally the cold-weather crops were inferior. Although the reported death-rate increased in Chittagong and Tipperah, the Commissioner considers that this was partly due to improved registration, and that the year was a healthy one on the whole. There was a considerable decrease in the number of deaths from cholera in Chittagong, where, the Commissioner says, "the heavy rainfall washed the disease out." The attention of the Sanitary Commissioner has been called to the unprotected circumstances of the district as regards vaccination, and measures will be taken to remedy this need.

Material condition of the people.

4. The condition of the inhabitants of this Division, judged by an Indian standard, is almost always good, and was rather above the average during the year 1885-86. In one of the Wards' reports of the Noakhally district, the manager (himself a Muhammadan) remarks on the large number of the ryots and tenure-holders who have two wives, which is locally considered a sure sign of prosperity, and on the liberal scale on which all females are supplied with jewellery. Unfortunately for themselves the possession of surplus funds tends in all these districts to promote continuous litigation. Inhabitants of Noakhally and Chittagong districts earn large sums as lascars and firemen, the Borooah Mughs are well known as the best and most highly paid cooks in many parts of India, while even ordinary workmen find very remunerative employment in Burmah. It may be said that the Division, as a whole, sends out skilled labourers, who return with considerable profit, and imports coolies for rough work, particularly on the tea gardens who add considerably to the value of the local produce. The lowest wages

entered in the report are four annas a day for unskilled labour, while as much as eight annas a day can sometimes be obtained.

Manufactures.

5. The quantity of tea exported from Chittagong increased from 893,923lbs. in 1884-85 to 952,885lbs. in 1885-86. In the rice mills 2,45,250 maunds of grain to the value of nearly 7½ lakhs of rupees were cleaned, against 1,63 233 maunds in the previous year. Only two sea-going vessels were built, and owing to the low rates of freight the year was not a good one for brig-owners. The Commissioner procured a specimen of the limestone found in the Sungoo valley sub-division, which was locally supposed to be inferior, and on analysis it proved to be calcareous tufa, the purest limestone. This discovery should lead to useful results. The districts of Tipperah and Noakhally, are entirely agricultural and possess no manufactures.

Trade.

6. The total value of the trade of the Chittagong port has decreased by 3 per cent. from Rs. 2,15,47,444 in 1884-85 to Rs. 2,08,11,093 in the year under report, or by Rs. 7,36,351. The decrease was in both foreign and interportal trade, but chiefly in interportal, which accounts for Rs. 7,20,369 of the total, leaving only Rs. 15,982 as due to foreign trade. There has been a considerable falling off in foreign imports, particularly in salt and kerosine oil, of which there were large stocks at the commencement of the year. The figures for the last three years are given below :—

	Value.	Increase.	Decrease.
	Rs.	Rs.	Rs.
1883-84	3,15,192	.....	.....
1884-85	6,06,421	2,91,229	.....
1885-86	2,27,277	.....	3,79,144

In the value of foreign exports there has been an increase of Rs. 3,60,584 as shown in the subjoined table—

Year.	Paddy.		Rice.		Jute.		Tea.		Tobacco.		All other articles.
	Quantity.	Value.	Quantity.	Value.	Quantity.	Value	Quantity.	Value.	Quantity.	Value.	Value.
	Cwt.	Rs	Cwt.	Rs.	Cwt.	Rs.	lbs.	Rs.	lbs.	Rs.	Rs.
1884-85	....	.....	407,444	15,08,991	1,063,3732	61,88,602	3,847	2,527	16,176	3,127	3,664
1885-86	6,612	9,000	623,261	25,78,480	979,029	54,70,413	5,339	4,023	9,673	1,853	3,674
Increase ...	6,612	9,000	215,817	10 69,539	...	...	1,492	1,490	..	...	10
Decrease .	.. ...	.....	..	..	84,3443	7,18,189	.....	.....	6,503	1,273	.. ...

The increase in the exports of rice and tea is attributed to a more favourable season for production, while the marked falling off in the jute trade of the port is connected with the diversion of trade from Chittagong by the temporary reduction of freights from Naraingunj to Calcutta, due to competition between two River Steamer Companies. It is hoped that a Bill to establish a Port Trust at Chittagong may be passed during the next legislative session, and tend to the introduction of many necessary improvements in the port and its approaches.

State of public feeling.

7. The Commissioner states that the Burmese war and the annexation of Upper Burmah excited interest in Chittagong, particularly in Cox's Bazar, where trade was affected to some extent. The effect of the Tenancy Act was scarcely felt in Chittagong or Noakhally; in Tipperah a report spread, which the Collector had to contradict, that the new law limited the amount of rents to a fixed sum per acre. Towards the close of the year rents were being more regularly paid, and the new form of receipt, which at first occasioned some difficulty, was being freely used. In Noakhally the Muhammadan population was, it is said, "greatly exercised on the question of arm-to-arm vaccination, and finally lymph from tubes had to be substituted" Local Self-Government does not appear to be a subject of much interest in the division. There is a local press, but it does not appear to have so much influence in Chittagong as the Calcutta and Dacca newspapers, which are taken in all three districts of the Division.

Police and law.

8. The Chittagong Division is comparatively free from serious crime, and the conduct of the police is reported by Mr Lyall, who in this department has had exceptional experience, to have been good on the whole. There were in all 15,908 cases in 1885, against 15,516 in 1884, showing a slight increase. The following

statement gives the number of civil suits instituted in the years 1884 and 1885 in the three regulation districts of the Division :—

	Chittagong.		Noakholly.		Tipperah.		Total.	
	1884.	1885.	1884.	1885.	1884.	1885.	1884.	1885.
Suits for money and moveable property	3,667	3,783	3,245	3,463	11,449	13,196	18,361	20,441
Suits under the rent laws	7,393	7,938	6,611	6,972	9,473	8,599	22,477	22,829
Title and other suits	4,331	2,983	961	1,167	2,897	2,745	8,189	6,895
Total ...	15,391	14,024	10,817	11,601	23,819	24,540	49,047	50,165

The decrease in the number of rent suits in Chittagong and Tipperah is attributed to the introduction of the Bengal Tenancy Act ; but as this falling off, which is not very marked, is counterbalanced by an increase in Noakhally, the explanation must be received with caution.

Land Revenue.

9. There was an increase of Rs. 15,967 in the revenue demand, the greater part of it occurring on the extensive Government estates of the Chittagong district. The collections of the Division cannot be considered satisfactory. The Commissioner reports :—

Current collections showed an increase of Rs. 20,501. The percentages of each district are given below and compare favourably with the previous year, Chittagong having got above the 90 per cent. standard.

	Chittagong.	Tipperah.	Noakhally.
1884-85	88·3	96·3	94·6
1885-86	90·1	96·5	94·2

Arrear collections amounted to Rs. 1,72,832 on a demand of Rs. 3,13,612 or 55·1 per cent. against 51·7 per cent. in the previous year.

In one important department, however, there has been a marked improvement—the collections on the Government estates managed directly by the Collector in the district of Chittagong. The Commissioner writes :—

I wrote hopefully of khas management in this district last year ; now I can write with certainty and assert that, when the establishment is equal to the work, khas tehsil in Chittagong is a success.

The collections were 106·5 per cent on the current demand. In three out of the five circles the collections were over cent per cent. ; in the fourth 99 7 or practically cent. per cent., and in one only were they as low as 94·1. The khas collections represent 40 per cent. of the whole land revenue of the district, and are therefore of far more importance than in most districts where khas collections represent an insignificant percentage of the land revenue. Much yet remains to be done, but order is rapidly taking the place of the chaos that existed five years ago, and another couple of years should put all straight. The system was first introduced in Kutubdia, and there, too, the establishment is stronger than elsewhere, and the collecting area is compact.

The results are shown below, and are, I consider, wonderfully good, and reflect great credit on the collecting staff.

	Ryotwari demand of Kutubdia.	Collection.	Balance.
	Rs.	Rs.	Rs.
Current	13,931	13,902	29
Arrear	6,784	6,773	11
Total ...	20,715	20,675	40

These results have been got without undue pressure. New lands are being leased, and ryots who left the island years ago for Burmah are coming back. The other circles do not show such results, but they have not been so long established as Kutubdia, and are not as yet in such order ; but in all the circles the reports are to the same effect—that the ryotwari

collections are comparatively easy, and that it is the izaradars who give trouble and do not pay. When it is considered that these men get 20 per cent., while last year's khas collection cost but 7·9 per cent., the balance in favour of direct collections with a proper establishment is very great.

Mr. Manson, the Collector of Chittagong, deserves a special acknowledgment for the successful industry with which he has managed these estates.

Other sources of revenue.

10. The excise duties produced Rs. 2,69,981, against Rs. 3,04,548 in 1884-85. The decrease of Rs. 34,567 is due partly to the reduction of outstill shops in order to check the excessive consumption of intoxicating liquor; but chiefly to measures taken to limit the sale of opium in Cox's Bazar sub-division with a view to its introduction into Burmah, where the drug is supposed to produce effects more than ordinarily deleterious. In each of these cases there has been a deliberate surrender of revenue to promote temperance. The stamp revenue amounted to Rs. 11,27,013 being Rs. 27,070 more than in the previous year. The increase is confined to judicial stamps, and is partly nominal, as during the year searching and copying fees were made payable in stamps. There was a great falling off in the import duty on salt, which amounted only to Rs. 5,75,902, against Rs. 9,91,748 in 1884-85. The decrease is not attributed to a decline in consumption, but to circumstances affecting the local trade. The Commissioner writes:—"The excessive importations of the previous year had caused a large accumulation of salt both here and at Naraingunge. Small dealers took advantage of the low prices caused by the competition of Messrs. M. David and Company with the native dealers, and also laid in large stocks; so that, when M. David and Company retired from the business and sold their stock here to their rivals, prices at once went up and sales almost ceased Matters improved towards the close of the year, and sales were large for the last two months, and have continued large."

Education.

11. The Commissioner does not give complete figures as to the number of schools and students in the Division, but it appears that there was an increase in Tipperah, and a falling off in the Chittagong and Noakhally districts. The decrease is confined to primary schools, and is attributed to greater strictness in conducting the examinations. In a division where the masses enjoy such a degree of material prosperity, there must be room for the extension of the advantages of primary education to a large proportion of the population.

Committees.

12. The Commissioner very properly observes that where there is a working Chairman or Vice-Chairman, seeing to things himself, good work is done by Road Cess Committees and Municipal Committees, and that, where such a man is wanting, the work is bad. This confirms the experience gained from other districts in Bengal, that success is very much due to the individual exertions of one person. It is stated that the Municipal Committees at Comilla and Noakhally did better than that of Chittagong, and that in the latter town conservancy and the state of the roads deteriorated. A new Vice-Chairman has been appointed in Chittagong, and there is reason to hope for immediate improvement.

Conduct of zemindars.

13. In the Chittagong district nearly every man, the Commissioner reports, is a petty zemindar. Only one large landowner is specially mentioned, and he is referred to for his eccentric conduct in serving during the year 50 notices, under section 424, Civil Procedure Code, of his intention to sue Government, generally without the faintest ground for such action. The management of the Maharajah of Tipperah's estates in Noakhally is reported to be unsatisfactory for the usual reason—the want of any record of the rent paid or payable—and it is said that the Collector is in this case about to recommend the institution of proceedings for making a survey and record of rights under section 101 of the Bengal Tenancy Act. The Nawab Ahsanullah contributed during the year, with his well-known liberality, Rs. 5,000 for the improvement of the town of Comilla. It is a misfortune to the districts of this Division that the greater number of the land-owners are non-resident, and that the management of estates is not always in satisfactory hands.

Employment of Muhammadans.

14. In the Chittagong district the Muhammadans constitute about 71 per cent. of the population, of whom 5 per cent. are educated, against 11·6 per cent. of Hindus. The number of educated Muhammadans is, therefore, about equal to that of educated

Hindus. The following table shows the extent to which Muhammadans are employed :—

	Total employed.	Number of Muhammadans.	Percentage of Muhammadans.
Gazetted officers	76	28	36·8
Officers in superior service	690	133	19·3
„ in inferior „	1,362	518	38·0

It would appear that in this district Muhammadans do not obtain a share of Government appointments proportionate to the number of educated men which their community includes. As indicated in recent orders of Government, an endeavour should be made to correct this inequality by degrees as opportunity offers, care being taken, in so doing, not to disappoint the reasonable expectation of Hindu apprentices, or others having any claim to appointments. The information given for other districts is not so complete as in the case of Chittagong, but, as far as it goes, it suggests the same conclusion. The Commissioner states that the number of educated Muhammadans qualified for the higher posts under Government is steadily increasing, and that in proportion to their number the Muhammadan boys take more prizes than Hindus at the Chittagong Government School.

15. Mr. Lyall's administration of his Division has been marked by vigour and intelligence. The observations made by the Commissioner on the official characters of his subordinates will be communicated to the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,
Offg. Secretary to the Government of Bengal.

RESOLUTION ON THE GENERAL ADMINISTRATION REPORT OF THE RAJSHAHYE DIVISION FOR THE YEAR 1885-86.

GENERAL DEPARTMENT—MISCELLANEOUS—

Calcutta, the 21st August 1886.

RESOLUTION.

READ—

The Annual Administration Report of the Rajshahye Division for 1885-86.

THIS valuable report is submitted by Lord H. Ulick Browne, who has been in charge of the Division for nearly ten years, and is thus in a position to speak with the authority of experience on all the topics with which he deals.

Tours.

2. The Commissioner, Collectors and Subdivisional Officers all made tours of the prescribed length, and every department of administration appears to have been subjected to thorough inspection. The only defaulter in this respect was Baboo Rajendra Chundra Ghose, Deputy Collector of Nowgong. The explanation given by him of the deficiency is that the duration of his stay at the subdivision was uncertain, and that the pergunnah of Barbakpore was disturbed. The first reason is obviously futile: the second should have led the Subdivisional Officer to make even an unusually long tour in the disturbed pergunnah.

Weather and crops.

3. Though the fall of rain came a little late in some districts, it was sufficient and well distributed. Lord Ulick Browne has adopted the useful practice of giving his estimate of the outturn of the different crops in a figured statement, in which the average harvest is taken at sixteen annas.

It is observed that the *aus* and *amun* rice crops, which are the staples of the Division, were good, and that jute, the product next in importance, was somewhat deficient. The cold weather crops were indifferent in Rajshahye owing to the want of rain in the months from November to February inclusive; but taking the division as a whole, the year was one of general agricultural prosperity. "An unusually severe earthquake," the Commissioner observes, "occurred in the morning of 14th July. All buildings in Pubna were more or less shaken and cracked, but the actual damage was more serious in the head-quarters of Serajgunge. It injured most of the masonry buildings in the district of Bogra, and caused immense loss of property. It reduced almost to ruins the

town of Sherepore. After Sherepore, Bogra, and Serajgunge, Nattore and its neighbourhood suffered more than other parts of the division, where the damage was not serious."

Public health.

4. Statements are incorporated in the report showing the number of deaths from each disease registered in every district during the last two years, but evidently they are untrustworthy, giving the smallest mortality for the most unhealthy tracts. Very much yet remains to be done to perfect the registration of vital statistics in rural tracts. In Rajshahye and Pubna, where registration appears to be least defective, the mortality was 29·7 and 29·8 a thousand in 1885, against 36·5 and 32·43 respectively in 1884. The improvement is in each case attributed to the cleansing effects of the heavy inundation of the year. Vaccine operations increased in all the districts of the division except Bogra and Rungpore; and as regards both of these the explanation of the falling off is that the number of unprotected persons has diminished.

Material condition of the people.

5. The Commissioner considers that the material condition of the people in the Rajshahye Division is decidedly satisfactory. As Mr. Boroouah, Collector of Bogra, indicates, the fact that workmen from Behar and the North-West Provinces go during the dry season to seek employment in Rajshahye proves that in the latter country wages are comparatively good. There is a general agreement among the Collectors that the year 1885-86 was marked by exceptional prosperity. Debts and arrears of rent were paid, and there was an unusual number of marriages. The price of food, though still high, was lower than in the preceding year, and there was a slight rise in the rate of wages. It is, however, to be remarked that the years immediately preceding were bad, and that the ryots had therefore to recover lost ground. Mr. Beadon, the Collector of Dinagepore, asserts the claims of his district to larger subsidies from Government for the development of its resources, and he bases this claim upon the amount of the land revenue taken from the district. If the Rajshahye Division alone were considered, Dinagepore would stand pre-eminent, but upon the principle adopted by Mr. Beadon there would be a good many districts in the province which would have superior rights. It is obvious, however, that such a principle as it affects districts is no whit stronger than if a claim was preferred by each province to its own revenues. In the matter of communications, the fact is ignored that the capital of the district has recently been connected by rail with the Northern Bengal Railway system, entirely at the cost of Provincial revenues; and that similar works are under construction which will shortly connect Dinagepore with Purneah and Behar. These railway works have thrown a large amount of money into the district, and must give remunerative employment to the labouring population.

Manufactures and trade.

6. There was during the year an increase in the manufacture of tea molasses, indigo, and country cloths, a falling off in jute cloths and bags, in silk, and in some petty industries. The subjoined table shows the produce of the tea gardens:—

Districts.	Number of gardens			Area under cultivation in acres.						Gross yield in pounds.			Average yield per acre from mature plants.

N B—The divisional average yield per acre from mature plants cannot be struck, as the "gross yield" contains produce from both mature and immature plants. The figures in columns 1883 and 1884 against "total" shown in the report for 1884-85 have been omitted from the statement, as they would be misleading.

There was some falling off in the business done at the great fair of Nekmurd, as appears from the statement given below. On the principal days no

less than 100,000 persons were assembled at the fair, the proceedings of which were successfully controlled by the District Officer.

The traffic was on the whole less than in the year 1884-85, owing to the disturbed state of Bhutan. In the trade with Thibet there was a decline, particularly in ponies and blankets, attributed to the closing of the passes from September to January; articles of smaller bulk were smuggled through the blockade The Commissioner sums up his remarks upon this branch of his report as follows:—

Of the articles of trade, jute in all the districts of the division, except Darjeeling gunnies in Dinagepore, Pubna, Rungpore and Julpigoree; rice in the districts of Dinagepore, Rajshahye, Bogra, and Rungpore; tobacco in Rungpore, only; and tea in Julpigoree and Darjeeling mainly contribute to the thriving condition of the ryots. The influence of the tea industry in the parts of the Julpigoree district adjoining the Terai and the Dooars has been marked The increase of population is very rapid, and in Mynagoree and Kyrantee thanas there is now very little land not taken up for cultivation. The district of Darjeeling is largely dependent on trade and manufactures. In fact, the population of the hills has been mainly gathered by, and is chiefly dependent on, the tea industry, and the trade has arisen in consequence.

State of public feeling.

7. The Commissioner observes that the bulk of the population being ignorant cultivators, public feeling on subjects of general interest, except the Tenancy Act, is almost unknown. The Collector of Pubna states that "there is no doubt that the subject which has most deeply penetrated the districts has been the new Tenancy Act. Many of its provisions are widely understood already, and complaints from the ryots are frequent that the new cheque receipts are not given them." The ryots of the Rajshahye district are said to have formed even exaggerated ideas of the privileges secured to them by the Act, and the Collector issued public notices to dispel illusions and to facilitate rent collections. There are five local newspapers, two of which are devoted to agricultural matters, two are religious in character, while all appear to be loyal and moderate in tone.

Employment of Muhammadans.

* Includes all officers serving in the several departments of Government service.

The proportion of educated Muhammadans to educated Hindus, as shown in column 3 of the foregoing table, has been arrived at from the census figures of 1881, representing Muhammadan and Hindu males who can read and write

It is remarkable that the Muhammadans, who are supposed to be less instructed than the Hindus, are found to have a superiority in elementary education. The number of Muhammadans who have received an education in English is not known, but it is comparatively small. Their deficiency in this respect is considered by several Collectors as the sole cause—by the Commissioner as the main cause—of their want of success in obtaining Government service. The Collector of Rungpore observes that the Hindus, having once gained an immense majority, keep the Muhammadans out by a sort of trade unionism, so that a Muhammadan finds it very difficult to obtain a post, or even to retain it when conferred. The Commissioner remarks that cases occasionally arise in which Muhammadan candidates are found to be treated with insufficient consideration, and that they are afraid to apply for employment in an office where all the clerks are Hindus for fear of a set being made against them. He does not, however, consider that this tendency is very strong, and adds that it depends on district officers to pay special attention to the wishes of Government in this respect, and to do what little is necessary, here and there, as occasion arises. The Lieutenant-Governor trusts that the requisite attention will be given, as the number of Muhammadans employed in this Division is very small, and it is by no means easy to effect a change in such matters when once a custom has become established.

Police and crime.

9. The following table shows the number of cognizable cases reported, the percentage of false cases, and the number of true cases during the years 1884 and 1885, and the number of persons tried and convicted during 1885 :—

The Commissioner remarks that "the foregoing table shows that there was a net decrease of 661 cases. The increase in Dinagepore, Rajshahye and Darjeeling, and the decrease in Pubna, were nominal, being only 34, 47, 59, and 75 respectively. The increase in Julpigoree and decrease in Bogra were principally owing to ordinary theft and lurking house-trespass, class V, and the decrease in Rungpore was principally under lurking house-trespass only."

The Lieutenant-Governor regrets to observe that the Commissioner is obliged to speak unfavourably of the conduct of the police in some districts of his division. His condemnation especially affects the district of Pubna.

Civil Justice.

The fluctuations in the amount of litigation have not been great, and the Commissioner, while he gives the explanations suggested in each case by the Collectors, properly remarks that these are probably worth very little.

Revenue.

11. The collections on account of land revenue were 96·04 per cent. of the gross demand, including arrears, and amounted to Rs. 49,24,485, against Rs. 49,14,173 in 1884-85, showing an increase of Rs. 10,312. The excise receipts were Rs. 6,02,106, being Rs. 22,625 less than those of the preceding year. The falling off was chiefly in the article of country spirits. The income from stamps was Rs. 10,76,228, which is nearly the same as that received last year.

Monetary arrangements.

12. The Deputy Commissioner of Darjeeling states that "last year's report described the speculation by which the owner of a copper mine in Sikkim suddenly brought down the value of the local pice, and for the first time excited a demand for the Government coin on a scale which seemed likely to supplant them. During the year the unstamped copper lumps known as *dulia* pice, the value of which was from 100 to 110 per rupee, have disappeared from circulation altogether, not only in the Terai, but in the hills. The stamped copper coinage both of Nepal and Sikkim, known as *Chaksinga* or *Chapti* pice, comes in small quantities into the upper hills, and is exchangeable at the rate of 128 coins for the rupee, though it cannot be said to be in circulation. In the lower hills and the Terai it is not seen at all. In the Terai Government copper coin is still at a premium of one pice in the rupee. Copper coin to the value of Rs. 56,563-15-3 was imported by us during the year, and Rs. 50,808-8-2 worth was issued."

The value of notes received from the public in payment of public dues increased from Rs. 22,81,595 in the previous year to Rs. 30,49,130, and there was on the other hand a slight decline in the value of notes issued to the public, which in this division is never very large, so that there is always a considerable surplus of notes for remittance to other treasuries. The traders in Dinagepore and other places receive the funds required for the purchase of country produce as far as practicable in notes, which they exchange for silver with those about to pay public revenue.

13. The branch line of the Northern Bengal State Railway from Parbutipore to Dinagepore is being extended to Purneah to bring it into connection with the railway system in Behar, and southwards with the East Indian Railway at Sahebgunge; and this line will shortly be opened. The Deputy Commissioner of Darjeeling writes—

Railways.

"There has been no change in the railway system since last year. Only the terminus and about a mile of the Northern Bengal State Railway are in this district. The effects of the line in increasing the cultivation of jute in the Terai, in creating the gunny-bag manufacture there, and in developing the tract in every way, both as regards tea cultivation and ordinary agricultural produce, are still visible. The bazar of Matigara, two miles from the terminus, which ten years ago scarcely existed, has now become a centre of trade and distribution second only to Darjeeling, not only for the Terai, but for the hills, Nepal, Sikkim, and even Thibet. In the cold weather it is thronged with Thibetan traders. The terminus at Silligoree has throughout the year effectively registered the Nepal trade in place of the old frontier station at Nakshwarbaree."

14. The comparative statement subjoined shows the number of schools of different classes, and the number of pupils attending them, during the years 1884-85 and 1885-86:—

There was thus an increase in schools of a superior class, but a considerable decrease in the number of those giving primary education, attributable to recent orders excluding from the returns very small and inefficient schools. The Lieutenant-Governor notices with regret the decrease in the number of girls' schools, and of pupils attending them. The Deputy Commissioner of Julpigoree observes:—"There is no doubt that the girls' schools are losing their popularity, and that a reaction of feeling in regard to them has set in, in this part of the country at all events. It is said that no permanent benefit is conferred on the girls, whose education is never carried beyond their 10th or 12th year, and that in many instances the effect of the little knowledge they acquire is to make them unhappy and discontented, if it does not lead to more evils in after-life. The more respectable classes educate their girls at home." As public opinion is so backward as to be able to effect little in this matter, girls' schools should receive all possible encouragement from educational officers and the more enlightened members of the community.

15. The special thanks of the Lieutenant-Governor are given to Lord Ulick Browne for his successful administration of the Rajshahye Division, not only during the year to which this report relates, but for the lengthened period during which he has directed its affairs. The Commissioner's remarks on the conduct of his subordinates will be communicated to the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Offg. Secretary to the Government of Bengal.

CHITTAGONG DIVS. 22	Chittagong, Aug. 24 '86	1·62	Weather—seasonable. Harvesting of *aus* continues. *Aman* is being steadily transplanted. Insects are causing damage in several places. Prices stationary. Public health good.
23	Noakholly, „ 20 „	1·91	Weather—sometimes rainy and sometimes fair. Reaping of *aus* and transplanting of *aman* paddy continue. Crops damaged to a certain extent by excessive rain. Public health fair.
	Feney ...	1·64	
24	Tipperah „ 19 „	1·44	Weather—clear with occasional rain. Much *aus* has been cut. Some that was cut could not be dried and threshed. Some uncut *aus* was flooded and rotted. The water throughout the district has reached levels not reached for many years. The banks of the Gumti have been breached on the south at Baladkuria and on the north at Jatrapore, and in several places breaches were only avoided by vigorous protective action. The river is now falling. The price of rice is rising from Rs. 2-8 to Rs. 3 a maund.
	Brahmunberiah ...	5·56	
	Chandpur ...	3·10	
25	Chittagong Hill Tracts. „ 17 „	4·98	Weather—cloudy and rainy, with occasional sunshine, throughout the week. Early *joom* paddy ripening. Transplanting of late rice by plough-cultivators commenced. Sugarcane progressing. Fever prevalent.
	Hill Tipperah, „ 18 „	6·99	Weather—rainy. *Aman* paddy is still being transplanted. Gathering of *satya* paddy is nearly over. Prospects of *joom* crops continue favourable. Public health good.
BEHAR.			
PATNA DIVS. 26	Patna, Aug. 21 '86	0·04	Weather—hot and occasionally cloudy; a break in the rains and westerly winds prevailing. Transplantation of rice in progress. Rain wanted for the recently transplanted rice. *Bhadoi* on low lands has been damaged by inundation. Public health generally good, except a few cases of cholera reported from Behar, Islampore and Chundi police stations and from Barh town and interior of the sub-division.
27	Gya, „ 21 „	0·74	Weather—showery; easterly winds. Paddy, *bhadoi* and *kotari* doing well. Fever reported from all stations except Aurungabad, and cholera from some. Public health generally good Prices stationary.
28	Shahabad, „ 21 „	3·01	Weather—very hot and seldom cloudy. Transplantation of paddy going on; prospects fair. *Bhadoi* crops have suffered from excessive rain in Buxar and from drought in Sasseram. Fever and cholera have broken out here and there in the district

	Sasseram ...	0·96	
	Bhabhua ...	0·52	
29	Durbhunga „ 21 „	0·57	Weather—easterly winds prevailing. Prospects of paddy and *bhadoi* good except in the flooded parts of the district. The damage caused by floods has been very serious, greater portion of the crops having been either washed away or destroyed. Prices remain unaltered. Public health is generally good
	Madhubani ...	0·17	
	Tajpur ...	1·10	
30	Muzufferpore, „ 21 „	0·30	Weather—mostly rainless, with strong sunshine; sky sometimes clouded. Recent fine weather very beneficial. The floods are subsiding after destroying the *bhadoi* and injuring the *aghani* over considerable areas. Re-transplantation of rice in inundated parts is in progress: the crops in the rest of the district are in excellent condition. About one-third of the district suffered from recent floods. Public health fair.
	Hajipore ..	0·64	
	Sitamarhi ...	0·39	
31	Sarun. „ 21 „	1·03	Weather—hot with easterly wind. Prospects of crops improved by the break in the rains. Paddy promises well. Indian-corn damaged in parts of Gopalgunge sub-division by inundation. Sporadic cases of cholera reported from Sudder sub-division.
	Sowan ...	0·95	
	Gopalgunge ...	Nil	
32	Chumparun, „ 21 „	1·21	Weather—seasonable *Bhadoi* and paddy crops are in good condition, except where damage has been done to them by the excessive rain and floods. Prices stationary. Public health fair.
BHAGULPUR DIVS. 33	Monghyr Aug. 21 '86	0·09	Weather—hot; easterly winds with passing clouds occasionally. Rain is wanted. Prospects of *bhadoi* crop good. Paddy is still being transplanted. Prices stationary. Public health generally good.
	Begusarai ...	0·82	
	Jamui ...	0·18	
34	Bunguipore, „ 21 „	0·51	The break in the rains has only been varied by showers. A return of heavy rain would now help the completion of transplanting of late rice. *Marua* in north poor; otherwise *bhadoi* prospects good. Early harvest in progress. Public health favourable.
35	Purneah „ 21 „	1·16	Weather—fine. State and prospects of crops excellent, except in the localities affected by the overflow of the Kosi and the Ganges.
	Kissengunge ..	4·88	
	Arrareah ...	2·05	
36	Maldah „ 21 „	0·32	Weather—generally bright and clear but occasionally cloudy with light showers. Reaping of *bhadoi* paddy continues. *Haimanti* paddy is doing well, but more rain is wanted for it in Ramangola outpost. Prices of common rice have fallen slightly. Public health generally good

Explanation. *Summary.*—The normal means of air pressure and temperature are the arithmetical averages or means of the readings during the same period for the past ten
The *humidity* of the atmosphere is expressed as a percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The number
re the numerical means or averages of the rainfall in that district determined from the returns sent in by the sub-divisional stations for the period in question during the past
tations in the district sending in returns divided by the number of stations. A rainy day is one on which at least hundredth of an inch fell.

* Mean for six days. † Mean for five days.

CALCUTTA, *the 17th August* 1886.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 20TH OF AUGUST 1886.

THE principal feature of interest in the meteorology of the past week has been the formation and advance of a barometric depression which passed into Orissa on Thursday, the 19th. At the end of the previous week a very feeble depression had appeared off Masulipatam, but on the 14th it had almost disappeared; on the 15th a rapid fall of pressure took place over the northern part of the Bay, the fall at False Point being no less than 0·13″, while over the remainder of the province the fall of pressure was small. A more pronounced barometric depression was therefore produced, and on this day, with the formation of the depression, a very distinct cyclonic circulation of winds set in over the whole of the northern part of the Bay of Bengal. On the 16th these conditions were intensified, and a very well marked, though more or less feeble cyclonic storm was generated, which on this day was to the south-east of Gopalpore. On Tuesday, the 17th, a rapid fall of pressure took place at Gopalpore, while over the remainder of the province pressure was rising, and the cyclonic storm which had thus again intensified slowly was still to the south-east of Gopalpore, and it was evidently approaching the coast to the north of that station. At 10 A.M. of the 18th the centre of the feeble storm was over the coast a little to the north of Gopalpore, and on the afternoon of that day it had advanced inland and was at 4 P.M. about 20 miles south of Cuttack, and finally on Friday, the 20th, the storm had moved into the Central Provinces and was near Raipur.

The storm, as judged by the land observations, was very feeble, though pressure at Cuttack fell on the 18th below 29·4″, and yet the velocity of the cyclonic circulation of winds which accompanied the formation and advance of the storm was never more than moderate. From the logs of certain vessels navigating the Bay at this time, and which passed near the area occupied by the storm, it would appear that at sea weather was very squally and unsettled, though perhaps the depression never reached the extent of a true storm.

The cyclonic circulation of winds, though feeble in force, was of large extent, and practically the whole of Bengal and the northern half of the Bay were thus affected. The monsoon winds have thus again been deflected and prevented from blowing in their usual course over Bengal, and except in the districts immediately affected by the formation and advance of the feeble storm, rainfall has been light and scanty for the whole week. Even in those districts influenced by the depression the rainfall, though general, has in almost all instances been light, and thus over the whole province the week has been generally one of scanty local and light rainfall, and the average fall over the whole area does not amount to more than about one-half of the normal for the period.

The changes of pressure have of course been governed by the formation and advance of the cyclonic storm above described, and thus while the average pressure for the week has been distinctly below the normal, over the greater part of Behar and probably over North and East Bengal, pressure has been above the normal. The largest variation from the normal has been at Cuttack, where the defect equals 0·108″, and over Orissa generally the defect has been 0·08″. In South-West Bengal pressure has been in defect at Saugor Island and Calcutta, and in excess at Berhampore and Jessore; while in North Behar the excess pressure is equal to 0·034″. For the whole province for the week pressure has been below the normal by 0·01″.

Temperature, owing to the scanty rainfall, has been above the normal in all districts. The excess temperature in Chutia Nagpur, South Behar, East and South-West Bengal has been comparatively small, not equalling one degree, while in Orissa and North Behar the excess registered has been between 1° and 2°. Over the whole province the variation of the mean temperature for the week from the normal has been 0·08°.

Rainfall, as stated previously, has been light and scanty over almost the whole province. In Orissa the average fall has been 2·90 inches on 5·9 days, which compared with the normal fall for the period and expressed as a percentage gives 105 per cent. In South-West Bengal the fall has been only 1·11 inches on 3·9 days, which is equal to only 32 per cent. of the normal. In East Bengal the average amount reported has been 2·36 inches falling on 4·6 days, and the percentage of the normal fall is 60. In North Bengal the stations have received an average rainfall of 1·86 inches on 2·7 days, and the percentage of the normal fall is 55. In North Behar the rainfall reported has averaged the extremely small amount of 0·74 inch falling on 2·4 days, and this compared with the normal only equals 35 per cent. In South Behar the fall has been slightly larger and averages over the whole district 1·00 inch, which was received on 3·1 days, and this fall is 40 per cent. of the normal for the period. Finally, in Chutia Nagpur the average rainfall for the week has been 1·67 inches on no less than 4·5 days, and, compared with the normal, the percentage is 54. For the whole province, taking these divisions to have an equal value; the fall for the week has equalled 54 per cent. of the normal. When, however, the number of rainy days is compared with the normal number, it is found that in some districts rain has fallen almost as frequently as usual, and for the whole province rain has fallen on an average of no less than 3·9 days during the week, while the normal number is 4·5 days. It thus appears evident that the diminished rainfall for the week has been principally due to the actual lightness of the rain showers rather than to the absence of rainy days.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 20th of August 1886 :—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

MEMORANDUM.

THE returns from the principal Municipalities in Bengal (excepting Howrah, from which no return was received up to date) for the week ending 7th August 1886 present the following results :—

1. That the birth-rate in these Municipalities amounted to 19 8 per 1,000 of population against 20 6 per 1,000 in the preceding week ending 31st July, and the death-rate 29·9 per 1,000 as opposed to very nearly the same proportion, viz. 29·8 per 1,000.

2. That these events were returned in the highest proportions from the following Municipalities :—

Births.	Ratio per *mille.*	*Deaths*	Ratio per *mille.*
Gya	40·4	Gya	73·1
Chittagong	37·6	Puri	65·0

		Darjiling	39·0
		Mozufferpore	37·7
		Serampore	37 3
		Bhagulpore	34·4
		Suburbs of Calcutta	30·8

3. That in comparison with the results of the preceding week, there was an enhancement of mortality from the maladies returned under the head of "Other causes," but no noticeable differences in the casualty-rates from the rest of the diseases—*vide* figures given below :—

	Ratio per *mille* during the weeks ending—

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "*Age*," the ratios under which have been omitted, inasmuch as the census of the Europeans, above alluded to, cannot be employed as a basis of calculation owing to the results of the census under this head not having been recorded under the authorized form of age classification.

GENERAL REMARKS AND EXPLANATIONS.

The above abstract shows that out of the 13 heads under which the total traffic of the line is classed, there is an increase under 9 and decrease under 4 heads in comparison with last May's working results. The total weight lifted during the month under notice is 30,073·39 tons against 17,091·88 tons carried during the corresponding period of 1885, being an increase of 75 per cent.

INCREASES.

Food-grains ... ... 11,580·27 tons.
Heavy despatches of paddy and rice have, as before, contributed to this increase.

Ginger ... ... 251·18 tons.
Increase due to a good crop and fair demand.

Gunny-bags ... ... 121·27 tons.
After many months of depression, the traffic in this article appears to be reviving.

Miscellaneous ... ... 1,533·04 tons.
This traffic is subject to fluctuations which it is impossible to trace with accuracy; the increase is apparently due to several heavy consignments of machinery and garden stores which passed during the month.

Piece-goods ... ... 26·93 tons.
This represents an increase of 5 per cent. compared with the corresponding period of 1885.

Railway material ... ... 707·02 tons.
Locomotive coal principally contributes to this increase.

Salt ... ... 159·13 tons.
The traffic under this head shows an increase of 7 per cent.

Sugar ... ... 4·04 tons.
The increase is apparently due to a decline in prices in the Calcutta market.

Tea ... ... 19·40 tons.
Consignments of the new crop are commencing to come forward.

DECREASES.

Ale ... ... 4·52 tons.
This traffic is entirely composed of commissariat beer for the troops in Darjeeling and is dependent on the number stationed there.

Jute ... ... 789·66 tons.
There is little or no demand for export, and the heavy despatches made for some time past will account for the present falling off.

Seeds ... ... 253·82 tons.
Mustard seed, which principally contributes to this traffic, has not, it appears, yielded a fair crop this year.

Tobacco ... ... 372·77 tons.
Decrease is attributed to a large quantity of this article being sent by boat from the neighbourhood of Siliguri station.

Offg. Secy. to the Govt. of Bengal.

GOVERNMENT OF BENGAL, MUNICIPAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS—(No. 49.)

INDIA—WEST COAST.

MALABAR COAST.

PORT OF NARRAKEL.

Replacement of the anchorage buoy.

WITH reference to Notice to Mariners, No. 47, issued from this Department on the 27th July 1886, information has been received from the Port Officer of Cochin that the large buoy, painted *red*, marking the Narrakel roadstead, has been replaced, distant about 6 cables S. E. of its old position, in 18 feet low-water, springtides, with—

Narrakel flagstaff bearing	...	...	..	E. ½ N.
Cochin Light-house	...	...	...	S. E. by S.
Cruz Milagre Gap	...	...	...	S. E.

Note.—Masters of vessels picking up anchorage should therefore be guided solely by bearings, and care should be taken when approaching the roadstead from the southward *not* to mistake the *green* wreck buoy for the anchorage buoy, which is larger and painted *red*.

The great *mud* flat forming the smooth-water anchorage at Narrakel has shifted considerably to the southward, and a convenient and safe anchorage may be found to the westward and south-westward of the *red* buoy.

The bearings are magnetic.

By direction of the Government of Bengal,

EATON W. PETLEY,
for Port Officer of Calcutta.

HIGH COURT,
The 30th August 1886.

By order of the High Court,
C. M. W. BRETT, *Registrar.*

CALCUTTA SMALL CAUSE COURT.

NOTICE.

IN accordance with suggestions contained in a report to the High Court, signed by Mr. Justice Wilson and Mr. Justice Trevelyan, on their inspection of the Calcutta Small Cause Court, a new system will, *on and after the 28th October* 1886, be tried for the purpose of revising the list of cases which come daily into the court.

All summons cases will, on the returnable date of the summons, come before one only of the Judges, who will revise the whole list of the court for each day.

He will go through the list, enter "compromises," make decrees in cases in which the defendant does not appear, give fresh summonses in cases where the summons has not been served, grant necessary postponements, ascertain what causes are defended, and dispose of any cases which, in his judgment, can be disposed of summarily.

This would leave the whole time of the other Judges free for the trial of defended causes The defended causes will be assigned by the Judge revising the list to the lists of the different Judges on the earliest possible days, and will be adjourned by him to those days. The Judge revising the list will have before him the list of each Judge for

each day, so far as already filled up, and will arrange that there should always be a sufficient number of cases, say 25 or 30, on each Judge's list. Each of the other Judges will thus have each day his list of defended cases provided for him. When a second summons has been granted, the case will, on the new return day, come again before the Judge who revises the list for that day.

If under this system a Judge should at any time find his list becoming clogged, he will communicate with the revising Judge, and inform the latter that he must have a day or days left clear to enable him to pull up. Thus if on the first of the month a Judge finds that his lists were getting blocked, and that it will take a day to get them clear, he will tell the revising Judge that this is the case. The latter, when revising the lists of the Judge in question, may see that they are already filled, say up to the 9th: he will leave the 10th blank. The Judge who had found himself blocked, knowing that the 10th would be a clear day, will use his discretion: he will either go on as usual up to the 10th, trusting to clear himself on that day, or will adjourn a sufficient number of cases to that day to enable him to take the other cases as nearly as possible on their proper dates.

ADJOURNMENTS.

No "costs of the day" will be allowed on adjournments.

Nor will adjournments be allowed, even by consent, except upon good cause shown.

By order of the Court,

COURT OF SMALL CAUSES OF CALCUTTA, *The 28th July* 1886. } C. Y. C. BOLST, *Clerk of the Court.*

NOTIFICATION BY THE ACCOUNTANT-GENERAL, BENGAL.

STOCK CERTIFICATES.

As it does not appear to be generally known that Government Promissory Notes can be readily converted into Stock Certificates and re-converted into Promissory Notes at the option of the holders, and that Stock Certificate-holders enjoy certain special advantages, the attention of holders of Government Securities is drawn to the following particulars:—

1. Government Promissory Notes can be converted into Stock Certificates and re-converted into Promissory Notes at any time at the option of the holder.

2. The holders of Stock Certificates are not required to present them in person or by agent when the interest becomes due. On application made, interest will be paid to Stock Certificate-holders by warrants on any Government Treasury, which warrants will be sent by post, on the day the interest falls due, to the Stock Certificate-holders direct or through the Treasury Officer, as they may desire.

3. Stock Certificates are not negotiable by endorsement, and are consequently of no value in the hands of a wrongful holder, and the risks arising from the possession of, or repeated transmission of, negotiable Securities, are thereby avoided.

4. In the event of the loss of a Stock Certificate by theft, fire, &c., a fresh Certificate will issue on satisfactory evidence of loss.

Furreedpore Collectorate, the 7th August 1886. F. H. BARROW, Offg. Collector.

NOTICE is hereby given that, under Government orders No. 1250-500L—R, dated 13th April 1886, the proprietary right of Government to undermentioned Government estates, situate in the district of Hooghly, as specified in the conditions of sale below, will be put up to sale at the Hooghly Collectorate on Tuesday, the 28th September 1886, corresponding with 13th Ashin 1293 B.S. Estate No. 1 will be sold revenue-free, and the rest subject to the payment of the Government revenue entered in column 6.

The purchasers will be subject to the following conditions of sale:—

Conditions of sale.

1*st*.—The estates to be sold to the highest bidders above the upset price. The purchasers of these estates will be considered as the proprietors of these estates, and the entire proprietary right of Government in such estates will be transferred to them, subject to the revenue fixed in perpetuity, except in the case of estate No. 1, which will be sold revenue free.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force: and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd*.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale

Bhagulpore Collector's Office, the 19th August 1886. A. A. WACE, Offg Collector.

NOTICE is hereby given that the undermentioned rent-free lands, originally acquired by Government for the construction of a new Munsif's Court-house in the sub-division of Cutwa, in the district of Burdwan, not being required by Government any longer, will be put up to sale rent-free at the Cutwa sub-divisional office at noon on Tuesday, the 28th September 1886, corresponding with 13th Assin 1293 B.S.

The purchasers will be subject to the following conditions of sale.

1st.—If the purchase-money does not exceed Rs. 100, then the whole amount of the bid must be paid up at once

2nd.—If the purchase-money exceeds Rs. 100, then one-fourth of the amount of the bid must be immediately paid up. If the balance be not paid up by noon of the fifteenth day after the day of sale, reckoning the day of sale as one day, or if that day be a closed holiday, then by noon of the first succeeding office opening day, the sale is to be cancelled, and the sum deposited being forfeited to Government, and the land is to be again put up for sale at the risk of the defaulting purchaser, after the issue of a fresh advertisement as in the case of original sale.

3rd.—The land will be sold rent-free to the highest bidder

4th—Possession will be given to the highest bidder after the confirmation of the sale.

Notice.

THE public are hereby informed that the well-known Kartick Baruni Mela, which is held every year on the banks of the Dhaleshwari river, near Munshigunge, in the district of Dacca, will commence on the 11th November 1886, A.D., corresponding to the 26th Kartick 1293, B.S., and continue up to the 24th December 1886. Tradesmen, Dealers, and others may buy and sell there during these six weeks.

G. E. MANISTY, Magistrate of Dacca.

THE following Bye-laws for regulating the service of coolies in the Municipal Market, having been confirmed by the Local Government, are published for general information, under section 344 of Act IV (B.C.) of 1876:—

Whereas it is expedient for the management and conduct of business in the New Municipal Market to regulate the service of coolies working for hire in and around this market; the following additional bye-laws are made under section 340 (*f*) of the Municipal Act:—

17 (*a*). With the exception specified below, no person shall on or after the 1st June 1886 work for hire as bazar cooly within the limits of the New Municipal Market, who is not duly licensed for this purpose by the Commissioners, or by such officers as they may authorise to grant licenses to bazar coolies.

17 (*b*). A register of licensed coolies shall be kept up in the office of the Market Superintendent, which shall be open to the inspection of any member of the Market Committee, during office hours, on all days except Sundays and close holidays.

17 (*c*). A licensed cooly shall wear a badge and such other distinctive dress as shall enable every person frequenting the market to know that he is licensed, and shall wear on his arm or in some other conspicuous place, a number corresponding with his number in the register of licensed coolies.

17 (*d*). No person other than a licensed cooly shall wear the badge, distinctive dress or number indicated in the preceding rule.

17 (*e*). Licensed coolies shall be charged such sum for the badge and other distinctive dress referred to above as the Market Committee shall from time to time prescribe,

17 (*f*). Sirdars shall be appointed to preserve order and discipline among the licensed coolies, and prevent their harrassing the public, and shall be remunerated by salaries met by contributions to be paid by the coolies monthly as a condition of the continuance of their license: Provided that not more than one sirdar shall be appointed to 25 licensed coolies.

The contributions shall be such sum, not exceeding six annas per mensem, as may from time to time be fixed by the Market Committee.

17 (*g*). These rules shall not apply to private servants employed by persons frequenting the market to carry purchases made by them.

18. The Market Committee may, for special reasons to be recorded by them, refuse to allow any particular persons to act as private cooly if they think that the employment of such person within the limits of the market is inexpedient.

ROBERT TURNBULL, Secretary to the Corporation.

Calcutta, the 21st August 1886. (1609—3)

THE following modified Bye-Law, No. 18 of the Bye-Laws framed under section 24, clause 1 of Act I (B C) of 1880, confirmed by the Lieutenant-Governor, is published for general information:—

Every car running after sunset shall carry two bright lights: one in front of the car and one at the back, and the horses shall also be provided with bells. The penalty for infringement of the rule either by the driver or conductor shall be a fine not exceeding Rs. 20.

ROBERT TURNBULL, Secretary to the Corporation.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 11th August, 1886:—

No. 16 of 1886.

Bill to prescribe the mode of valuing certain suits for the purpose of determining the jurisdiction of Courts with respect thereto.

WHEREAS it is expedient to prescribe the mode of valuing certain suits for the purpose of determining the jurisdiction of Courts with respect thereto; It is hereby enacted as follows:—

Short title, local extent and commencement.

1. (*1*) This Act may be called the Suits Valuation Act, 1886; and

(*2*) It shall extend to such local areas, and come into force therein on such dates, as the Governor-General in Council, by notification in the Gazette of India, from time to time directs.

Power for Local Government to make rules to determine value of land for purposes of jurisdiction.

2. (*1*) The Local Government may from time to time, with the previous sanction of the Governor-General in Council, make rules for determining the value of land for purposes of jurisdiction in the suits mentioned in the Court-fees Act, 1870, section 7, paragraphs v and vi, and paragraph x, clause (*d*).

VII of 1870.

(*2*) The rules may determine the value of any class of land, or of any interest in land, in the whole or any part of the local area in which this Act is in force in the territories under the administration of the Local Government, and the value so determined may vary from place to place within the local area or part thereof to which the rules apply.

Value of relief sought in certain suits not to exceed value of the land to which those suits relate.

3. Where a suit mentioned in paragraph iv of section 7, or in article 17 of Schedule II, of the Court-fees Act, 1870, relates to land or an interest in land, the amount at which for purposes of jurisdiction the relief sought in the suit is valued shall not exceed the value of the land or interest to which the suit relates as determined by the rules made under the last foregoing section.

VII of 1870

Ad valorem court-fee value in other suits to be value for purposes of jurisdiction.

4. Where in suits other than those referred to in sections 2 and 3 court-fees are payable *ad valorem* under the Court-fees Act, 1870, the value as determinable for the computation of court-fees shall be the value for purposes of jurisdiction.

VII of 1870.

Procedure where objection is taken on appeal that suit was not properly valued for purposes of jurisdiction.

5. (*1*) The objection that a suit was not properly valued for purposes of jurisdiction shall not be entertained by an appellate Court unless the objection was taken in the Court of first instance.

[Act XII of 1881, s. 206.]

(*2*) If the objection was taken in the Court of first instance but the appellate Court has before it the materials necessary for the determination of the suit, it shall dispose of the appeal as if the suit had been instituted in the proper Court.

[Act XII of 1881, s. 207.]

(*3*) If the appellate Court has not those materials before it, it shall proceed under the rules applicable to it with respect to the hearing of appeals; but if it remands the suit, or frames and refers issues for trial, or requires additional evidence to be taken, it may direct its order either to the Court prescribed in that behalf in those rules or to any Court competent, in its opinion, to entertain the suit; and the objection that the order of the appellate Court was directed to a Court which was not competent to entertain the suit shall not be taken on further appeal.

[Act XII of 1881, s. 208.]

(*4*) Nothing in this section shall be construed to affect the provisions of section 28 of the Court-fees Act, 1870.

VII of 1870.

Repeal of section 14 of the Madras Civil Courts Act, 1873.

6. On and from the date on which rules under this Act take effect in any part of the territories under the administration of the Governor of Fort Saint George in Council to which the Madras Civil Courts Act, 1873, extends, section 14 of that Act shall be repealed as regards that part:

III of 1873.

Provided that the repeal of that section shall not affect the jurisdiction of any Court with respect to any suit instituted in that part before the rules take effect therein.

Time and procedure for making rules.

7. (*1*) Rules may be made under this Act at any time after the passing thereof.

(2) A Local Government shall, before making rules under this Act, consult the High Court with respect thereto and publish a draft of the proposed rules in the official Gazette.

(3) There shall be published with the draft a notice specifying a date at or after which the draft will be taken into consideration.

(4) The Local Government shall receive and consider any objection or suggestion which may be made by any person with respect to the draft before the date so specified.

(5) A rule made under this Act shall not take effect before the Act has come into force in the local area for which the rule has been made or till the expiration of one month after the rule has been published in the local official Gazette.

(6) The publication in the Gazette of a rule purporting to be made under this Act shall be conclusive proof that it has been made as required by this section.

STATEMENT OF OBJECTS AND REASONS.

THE principal object of this Bill is to prescribe a simple mode of valuing suits relating to land for the purpose of determining the jurisdiction of the Courts with respect to them. Most of those suits are of course cognizable exclusively by Civil Courts, but some of them, as for instance, suits in the Punjab under section 9 of the Specific Relief Act, may be tried by Revenue Courts.

2. It has been brought to the notice of the Government that, while the Civil Courts Acts of the several Provinces, with the exception of that in force in the Presidency of Madras, prescribe no special rules for fixing the value for jurisdiction of the subject-matter of land-suits, but simply define the limit of the jurisdiction of each grade of Court by the money-value of the subject-matter in suit, thus leaving the market-value to be the strictly legal criterion, a practice has sprung up, generally in the inferior Courts, of accepting, in the absence of any express provision of law to the contrary, the court-fee valuation as laid down in section 7, paragraph v, of Act VII of 1870, for purposes of jurisdiction also.

3. The generally admitted result is that land-suits are undervalued and disposed of by Courts not strictly competent to try them. In order to remedy this state of things the present Bill has been prepared. It empowers (section 2) the Local Government to frame rules, subject to the sanction of the Governor-General in Council, for determining the value of land in the territories under its administration for purposes of jurisdiction in the suits mentioned in section 7, paragraphs v and vi, and paragraph x, clause (*d*), of the Court-fees Act, 1870, namely, suits for possession of land, to enforce a right of pre-emption, and for specific performance of an award relating to land. These rules are to be made after consultation with the High Court; and the Bill provides (section 7) a procedure for the publication of proposed rules, so that the Courts and the public may have an opportunity of preferring any objections which they may have to them before the rules are made. The Bill further declares (section 3) that where a suit mentioned in paragraph iv of section 7, or article 17 of Schedule II, of the Court-fees Act, relates to land, the amount at which for purposes of jurisdiction the relief sought in the suit is valued shall not exceed the value of the land to which the suit relates as determined by the rules under the Act.

4. In addition to the foregoing provisions, which relate exclusively to land-suits, section 4 provides that in other suits in which court-fees are payable *ad valorem*, the value for purposes of jurisdiction shall be estimated in accordance with the rules which regulate the value for court-fee purposes.

5. Section 5 of the Bill is taken from sections 206-208 of the North-Western Provinces Rent Act, 1881, and has been inserted at the suggestion of Sir Charles Turner, late Chief Justice of Madras. It lays down a special procedure for cases in which the objection that a suit was not properly valued for purposes of jurisdiction is taken in an appellate Court, an objection which the Bill declares may not be entertained unless it was taken in the Court of first instance.

6. Lastly, the Bill (section 6) repeals section 14 of the Madras Civil Courts Act, 1873, which enacts the rule of valuation which it is the object of this Bill to abolish, namely, the valuation for jurisdiction in the case of land-suits shall be in accordance with the court-fee valuation prescribed by section 7, paragraph v, of the Court-fees Act, 1870. In order, however, to prevent hardship or inconvenience to suitors, it is provided that this repeal shall not affect any suit instituted before the rules under the proposed Act take effect.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 11th August, 1886 :—

NO. 17 OF 1886.

A Bill to amend the Indian Evidence Act, 1872.

WHEREAS it is expedient that Revenue-officers should not be compelled to say whence they obtain information with respect to offences against the public revenue; It is hereby enacted as follows :—

1. The following section shall be substituted for section 125 of the Indian Evidence Act, 1872, namely :— 1 of 1872.

Now section substituted for section 125 of the Evidence Act.

"125. (*1*) No Magistrate, Police-officer or Revenue-officer shall be compelled to say whence he got any information as to the commission of any offence.

Information as to commission of offences.

(*2*) 'Revenue-officer' in this section means any officer employed in or about the business of any branch of the public revenue." [Act X, 1876, s. 3.]

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to prevent officers of any department concerned with any branch of the public revenue from being compelled to say whence they got any information as to the commission of any offence.

In England not only is it the case that witnesses may not be compelled to disclose, but they are not even permitted to be asked, the names of those from whom they receive information as to frauds on the revenue (*Russell on Crimes and Misdemeanours*, Fifth Edition, III, 553). The law on the subject is further stated in Bell's *Laws of Excise* as follows :—

"It is a rule of evidence applicable to criminal cases, and the same rule has always been held to apply to penal informations at the suit of the revenue, that a witness is not permitted to disclose privileged communications brought to his knowledge for the furtherance of justice. 'This is not the privilege of the witness, but may be justly called a public privilege, and is observed on a principle of public policy and from regard to public interests' (1 *Phil. Ev.* 272). Hence 'those questions which tend to the discovery of the channels by which the disclosure was made to the officers of justice, are not permitted to be asked'' (*Rex* v. *Hardy*, 24 Howell's S. T. 753—Eyre, L. C. J.). 'If the name of the informer were to be disclosed, no man would make a discovery, and public justice would be defeated' (*Id.*, p. 811—Buller, J.). In the case of *Attorney-General* v. *Bryant* it was held that a witness for the Crown could not be asked 'Did you give the information?' (15 M. & W. 169)."

It cannot be ascertained from the records of the Legislative Department why the English law with respect to the disclosure by Revenue-officers of the source of information as to the commission of offences against the revenue was not incorporated in the Indian Evidence Act, 1872. The omission has caused much inconvenience, and is even said to be seriously impairing the efficiency of the Excise and Salt Departments in the Presidency of Bombay.

REPORT ON THE STATE OF THE SALT MARKET FOR THE FIRST QUARTER OF 1886-87.

No. 713B, dated Calcutta, the 18th August 1886.

From—C. E. BUCKLAND, Esq., Officiating Secretary to the Board of Revenue, Lower Provinces,

To—The Secretary to the Government of Bengal, Financial Department.

I AM directed to submit the following report on the state of the salt market for the first quarter of 1886-87, comprising the months of April, May, and June 1886.

SALT.

F. M. HALLIDAY, Esq.

2. The quantity of salt of every description cleared during the quarter under report amounted to 24,77,614 maunds 16 seers 14 chittacks, against 24,22,611 maunds 9 chittacks in the previous quarter, and 21,29,421 maunds 14 seers 9 chittacks in the corresponding quarter of the previous year; and the net amount of duty levied thereon was Rs. 47,09,713-8, against Rs. 45,37,911-8 in the previous quarter, and Rs. 41,03,558-8 in the corresponding quarter of the previous year.

3. The quantity of excise salt sold in the districts of Cuttack, Pooree, and Balasore during the quarter under review from the stock of the different

seasons' manufacture, and the quantities which remained in store at the close of the quarter, are shown in table I:—

The difference between those figures and the corresponding figures in the statement submitted with the report for the previous quarter is due to revised figures subsequently received from the Collector.

4. The above statement shows that the total sale of excise salt during the quarter under review amounted to 1,06,079 maunds 4 seers, against 1,05,960 maunds in the previous quarter, and 1,49,375 maunds 24 seers in the corresponding quarter of the previous year.

5. The subjoined table II shews in comparison the importations into the Port of Calcutta and the total clearances of sea-imported salt during the quarter under review and the corresponding quarters of the previous two years:—

4. Following the classification adopted in paragraph 1, the following works are specially noted :—

Public buildings.—Under this head a sum of Rs. 16,300 was contributed. Baboo Rajmohon Roy Chowdhry gave Rs. 10,000 for a building to accommodate the Government higher class English school at Taki, in the 24-Pergunnahs district. Baboos Shama Churun Bullub and Upendronath Shawoo gave Rs. 4,000 for a house for an English school, and for a bungalow for a vernacular school, at Dhancoorah in the 24-Pergunnahs. Baboo Baikantho Mohon Roy, zemindar, of Khulna, gave Rs. 1,200 for a higher class English school at Uluberiah.

Roads.—A sum of Rs. 10,040 was contributed under this head. The largest amount, Rs. 5,000, was given by His Highness the Maharajah of Cooch Behar for the repairs of the central emigration road in the district of Julpigoree. Baboo Bipin Behari Roy gave Rs. 3,000 for a road 1¼ miles long, and a khal 1½ miles long at Manikdaha, in the district of Furreedpore. Rupees 1,350 were contributed by the Court of Wards out of Syed Basarat Ali Chowdry's estate for a khal with roads along its banks, from the village of Batahariah to Nanidia in the district of Tipperah.

Embankments or Bunds.—The total sum of Rs. 7,044, contributed under this head, is made up of small amounts.

Tanks.—Out of contributions amounting to Rs 3,03,014 for these works, the following are specially mentioned :—Baboo Suvjan Chowdhury Rs. 33,000; Baboo Sant Pershad, Rs. 6,000; the Maharajah Kissen Protap Shaha of Hutwa, Rs. 4,000; Israj Singh, Rs. 4,000; Baboo Nobin Sarkar, Rs. 3,000; Baboo Nattia Deno Bandhu Pal, Rs. 3,000; Baboo Tariny Churun Chatterjee, Rs. 2,500; Baboo Becharam Mookerji, Rs. 2,000; Baboo Govinda Chandra Kundu, Rs. 2,000; and Baboo Hemangini Debi, Rs. 2,000.

Wells.—Rupees 44,286 were spent in constructing wells. Rupees 21,450 were contributed in the district of Monghyr for 73 wells; Rs. 6,884 in the district of Shahabad for 19 wells; Rs. 4,065 in the district of Sarun for 22 wells; Rs. 1,900 in the district of Chumparun for 8 wells; and Rs. 1,146 in the Purneah district for 8 wells. The other wells, for which contributions were given during the year, are distributed among the districts of Nuddea, Dinagepore, Mymensingh, Patna, Gya, Mozufferpore, Durbhunga, Bhagulpore, Lohardugga, Manbhoom, and Balasore.

Miscellaneous.—Of Rs. 3,900 contributed, Rs. 2,500 were given by Baboo Tarini Charan and Rajaram Kumar of Patooshair, in the Bankoora district, for an irrigating machine.

RESOLUTION.—The number of voluntary contributions made by native gentlemen for works of public utility is again large, and the amount contributed falls but little short of the figures for last year, which were unusually high. The Lieutenant-Governor trusts that the works which have been constructed at such considerable cost will prove to be a lasting benefit to the localities in which they are situated, and he has much pleasure in acknowledging the public spirit and liberality of the numerous donors who have contributed these large sums for the public benefit.

Letters of acknowledgment will be forwarded by Government to those who have constructed important works. The gentlemen who have contributed Rs. 500 and under will, as usual, receive an acknowledgment from the Commissioner or the Magistrate of the Division.

ORDER.—Ordered that a copy of this Resolution, and of the statement, be forwarded to the Board of Revenue, Lower Provinces, and to all Commissioners of Divisions, to the Commissioner of Chota Nagpore, and to all Superintending Engineers of Public Works Circles in Bengal, for information.

Ordered also that a copy of this Resolution, and of the statement, be forwarded to the Revenue and Judicial Departments of this Government for information.

Ordered also that this Resolution, and the statement, be published in the Supplement to the *Calcutta Gazette* for general information.

By order of the Lieutenant-Governor of Bengal,

S. T. TREVOR, *Col.*, R.E.,

Secretary to the Govt. of Bengal,

ANNUAL REPORT ON THE CIVIL LITIGATION OF GOVERNMENT DURING THE YEAR 1885-86.

RESOLUTION.

JUDICIAL.

Dated Calcutta, the 23rd August 1886.

READ—

The Annual Report on the Civil Litigation of Government during the year 1885-86.

Read also—

The Reports for the two preceding years, and the orders of Government thereon.

The following statement shows the result of Government litigation in all the civil courts of Bengal during the year 1885-86 as compared with the two previous years:—

		1883-84.	1884-85.	1885-86.

	Total ...	456	698	1,008

The percentage of cases decided in favour of Government increased from 75 to 86½.

2. Taking the litigation in the High Court only, the percentage of cases decided in favour of Government decreased from 96 to 87½. No explanation is given for this decrease, the reason assigned by the Legal Remembrancer, that a comparatively larger number of cases were decided against Government than in the two preceding years, merely re-stating the fact in another form. Of the 305 appeals shown as compromised, remanded, or withdrawn, 169 from Tirhoot and 133 from Midnapore were suits by ryots of Government estates objecting to the enhanced assessment of rent fixed by Government. All these suits were decided in favour of Government by the lower courts. The Midnapore cases were sent back for re-trial, and the Tirhoot cases were withdrawn at the suggestion of the Advocate-General. Mr. Allen has given short summaries of the four appeal cases decided against Government, but he offers no opinion on the merits of the decisions themselves.

3. The result of Government litigation in the lower appellate courts was more unfavourable, the percentage of cases decided in favour of Government being 63 per cent. only as against 93 in the previous year. The case of Bhooban Chunder Banerjee *versus* the Secretary of State was an important one in the interests of the Government revenue, though the appellate decision merely strengthened and affirmed what had been decided on several previous occasions (I. L. R., 2 Cal, 141; 6 Cal., 389; 7 C. L. R., 456). Government revenue does not become due from day to day, but at certain specified times. It is not therefore liable to apportionment; and the person, who is the owner of a revenue-paying estate, on the date that the payment of revenue falls due, is the only person liable for its payment. In the case

above mentioned, arrears of embankment charges were realized from the purchaser of an estate, the former owner having, in consequence of certificate proceedings, executed an agreement in favour of the Collector to pay the arrears in three instalments. The new purchaser urged that the arrears were a personal debt due from the former proprietor. It was contended on behalf of Government that embankment charges under Act VI of 1873, were clearly defined in Act VII of 1878 (B.C.) as "revenue," and were a charge on the estate, and, as such, were recoverable from the person in possession, and that the purchaser took the estate subject to the payment of embankment charges, whether in arrear or accruing The first court took this view, and dismissed the plaintiff's suit, but on appeal the Subordinate Judge misinterpreted the meaning of sections 40 and 44 of the Embankment Act, and held that the arrears were a personal charge on the proprietor, and not a charge on the estate. This decision was upset by the High Court, and the decision of the first court upheld. With reference to the case brought by Abdul Aziz Khan and others, mentioned in paragraph 23 of the report—and the same remark applies to several other cases—it would have been more satisfactory if the Legal Remembrancer had stated the grounds on which the decisions were given against Government.

4. With reference to the suit brought by Enayet Momin, it is clear, the Lieutenant-Governor thinks, that there has been a failure of justice. The plaintiff sued to recover possession of a piece of land taken up, under Act X of 1870, for the Durbhunga Municipality for conservancy purposes, on the ground that he, as tenant of the land, had no notice of the declaration and other proceedings. It was urged on behalf of Government that the plaintiff's rights or claims were not brought to the notice of Government, that the declaration was duly published in the Gazette, that the necessary notices issued, and that, therefore, the plaintiff was not entitled to recover possession. Both the first court and lower appellate court held that the land in dispute was not the land covered by the declaration; that there was no proper acquisition, and therefore the plaintiff was entitled to recover. Mr. Allen thinks that the case was badly conducted and wrongly decided in the lower courts, but says that no second appeal could be filed, as the papers essential for filing an appeal to the High Court were not sent in time. The Collector of Durbhunga will be asked to submit an explanation on this point. As the Legal Remembrancer remarks, the municipality cannot be bound by the decree, as they were not a party to the litigation.

5. Four suits were instituted in Shahabad to recover the price of certain property attached and sold by Government as the property of certain absconding offenders. Paintiffs claimed as their *stridhan* and joint undivided property. It was contended on behalf of Government that the rights and interests of the offenders were sold; that the intending purchasers were forewarned about the possible claims of others; and that therefore the Government was not liable. However, it was found by the lower courts that the property sold belonged to the plaintiffs, and not to the absconding criminals. Mr. Allen does not state clearly whether it was found that *no portion or share* of the property belonged to the absconders, but the Lieutenant-Governor presumes that such was the case. The local authorities, it is stated, were desirous of appealing the case to the High Court. But the Legal Remembrancer saw no prospect of substantial success, and decided not to do so. Without any reference to the question whether the attached property belonged in whole or in part to the plaintiffs, Sir Rivers Thompson regrets that the case was not argued and carried to the High Court on the question of jurisdiction. The rulings of the High Court are conflicting on this point. It has been ruled in one or two cases that claimants to property attached under the provisions of section 88 of the Code of Criminal Procedure can institute a suit in the civil court *against the purchasers* to establish their rights (7 W. R., Cr., 54; 17 W. R., Cr, 10). But in other cases (18 W. R, Cr., 34, *et aiunde*) it has been ruled that property declared to be at the disposal of Government can only be restored by Government. In Sir Rivers Thompson's opinion such claims should be decided by the executive Government, and it is in the interests of *bonâ fide* claimants that this should be so. On a report of the presentation of any *bonâ fide* claim a thorough inquiry by the Magistrate would be ordered, and, if

there were no good grounds for suspecting collusion, or the commission of an offence under section 206 of the Penal Code, or some such cognate offence, the property would be restored. It has recently been ruled by the Allahabad High Court that the proceedings of a Magistrate under section 88 of the Criminal Procedure Code are not "judicial proceedings" under section 4 (*a*) of the Code, and are therefore not liable to revision by the High Court (I. L. R. 6, All. 487). Neither does it appear to be advisable or necessary, in the interests of justice, that such proceedings should be made the subject of suits in the civil court. For the above reasons, it is a matter for regret that the cases were not carried to the highest tribunal, and the question of jurisdiction fully argued.

6. In the courts of first instance the percentage of cases decided in favour of Government was 88, against 69 in the previous year. Out of the 71 cases decided adversely to Government, no less than 43 were cases under the Land Acquisition Act, in which the courts gave the claimants a little more than the amounts tendered by the Collectors as compensation.

7. As the Lieutenant-Governor has observed above, the Legal Remembrancer does not offer any opinion regarding the merits of the decisions he summarises, and it is extremely difficult, therefore, to say whether any particular case, which was not appealed, should have been appealed. In the following cases, however, decided by courts of first instance, the soundness and correctness of the decisions appear to be exceedingly questionable. In the case brought by Nilmoni Dasi and others to recover possession of a jote, it was contended on behalf of Government that the plaintiffs had not paid the rents for some years, that they had deserted the village, and that the settlement officers were justified in settling the jote with others. The Munsif found on evidence that the plaintiffs had not deserted the village, but had all along cultivated the jote with those with whom it was contended Government had wrongly settled it. It seems clear that in this case the evidence produced by Government must have been worthless, or that the decision was wrong. Another case, brought by Behari Lall Pyne, against the Chairman of the Baranagore Municipality, appears to have been of an extremely frivolous character. The suit was brought to compel the defendant to restore some earth which was taken from a drain, and for damages. It was contended that the drain was a public drain under the municipality, and that no wrongful act had been committed. The Munsif, however, held that the disputed drain was a joint property of the plaintiff, and decreed the suit with costs, allowing one rupee only as damages. Four suits were brought in Pubna to recover mesne profits for the period the plaintiffs had been kept out of possession of some villages, decreed to them in previous suits. It was contended on behalf of Government that the amount claimed was excessive, and that they were not entitled to more than had actually been collected. The Subordinate Judge of Pubna, however, considered that the plaintiffs were entitled, not to what had actually been collected, but to *what could reasonably have been collected at the rate at which the plaintiffs have been collecting* since they came into possession. This proposition, in Sir Rivers Thompson's opinion, is open to the charge of want of clearness, and the *ratio decidendi* itself is open to question. In another case the sale of a mehal, sold for arrears of road cess and public works cess, was set aside on the ground of illegality and irregularity in publishing the notices and conducting the sale. The purchasers have appealed against this decision to the High Court. The adverse decision appears to have been based on the Full Bench ruling referred to in paragraph 8 of the Report for 1884-85. In that case it was held that, if the notification of sale required by section 6, Act XI of 1859, has not been affixed 30 clear days before the date appointed for the sale, the Collector ceases to have any jurisdiction to put up the property for sale. It was virtually ruled that it is irrelevant whether the defaulter has sustained any material injury or not; that the defaulter need not sue within one year, as the law directs; and that the presumption arising from the grant of a sale certificate under section 8, Act VII (B.C.) of 1868 is not to be drawn. The Legal Remembrancer then suggested that the law ought to be recast, as a revenue sale would give as insecure a title to the purchaser as a sale in execution of a decree of a civil court, and a copy of his remarks was sent to the Board of Revenue

for consideration. The attention of the Board of Revenue will also be drawn to the present case in order that, should the appellate decision be adverse to Government, the advisability of preferring an appeal to the Judicial Committee of the Privy Council may be taken into consideration The High Court Full Bench decision is, in the Lieutenant-Governor's opinion, not only opposed to the spirit of the Privy Council's decision in a case of the same nature reported in I. L. R., 9 Cal, 656, but also to other Privy Council decisions, distinguishing between the merely directory and the absolutely imperative provisions under section 8, clause 2 of Regulation VIII of 1819 (the law relating to putni sales).

8. The figures below show the result of the litigation in which the Court of Wards was concerned for the year under report as compared with the two preceding years :—

		1883-84.	1884-85.	1885-86.
Decided in favour of Court of Wards	...	763	700	1,113
Ditto against Court of Wards	...	99	121	158
Compromised, remanded, or withdrawn	...	70	56	44
Percentage in favour of Court of Wards	...	88½	85¼	87½

The result is therefore better than that of the preceding year. The increase in the number of cases is due to the fact that the Burdwan Raj, the Dighaputi estates, and the Tikari Estate in Gya have come under the Court of Wards.

9. The following table shows the amount of Government decrees recovered during 1885-86, as compared with the amounts recovered during the two preceding years :—

		1883-84.	1884-85.	1885-86.
		Rs.	Rs.	Rs.
Amount under realization	..	7,02,705	6,42,647	6,26,182
Realized during the year	...	61,862	20,407	12,338
Percentage of recovery		8¾	3¼	2

Omitting the Canning decrees, amounting to Rs. 5,81,279, which have been remitted during the year, the amount under realization was Rs. 44,903, so that the percentage of recovery would amount to 27½.

10. The following table shows the amount of wards' decrees recovered during 1885-86, as compared with the realizations of the two previous years :—

		1883-84.	1884-85.	1885-86.
		Rs.	Rs.	Rs.
Amount under realization	...	6,93,908	5,72,757	9,37,524
Realized during the year	...	1,44,266	1,02,253	1,69,179
Percentage of recovery	...	20	19¼	18

The increase in the demand is due to the Burdwan Raj and the Tikari Estate having come under the Court of Wards. From statement K, appended to the Report, it appears that, with the exception of the Tikari Estate, not a pice was recovered out of the outstanding decrees of wards' estates in any of the districts of the Patna Division. The realizations of the Chowghuria estate in Burdwan, the Cossimbazar estate in Moorshedabad, the Srinugger estate in Purneah, the Chota Nagpore estate in Lohardugga, as well as of the Tikari and the Burdwan Raj, are very small as compared with the amounts decreed in favour of those estates during the year.

11. These results are most unsatisfactory, and clearly show that in all civil litigation the Government suffers as much as any private suitor from infructuous decrees. The fact is of importance, as it affects the proposal now under consideration for the abolition of imprisonment for debt. During the year, in consequence of a direction of the Lieutenant-Governor, contained in the Resolution on the Report for 1884-85, the Legal Remembrancer submitted a report concerning the difficulties experienced in realizing decrees. He was of opinion that the small collections are due in a great measure to the facility for concealing property, to the joint family system, and the prevalence of *benamee* transactions, which offer almost insuperable obstacles to the realization of decrees, even by private persons. The Board were asked to consider

the subject, and they have submitted a report to which they append a brief summary of the opinions of the different Commissioners. This report has been submitted to the Hon'ble Judges of the High Court for such action or notice as they may think fit to take. Sir Rivers Thompson is inclined to agree with the Commissioner of Chittagong that the civil courts would do well to call in the aid of the criminal courts more frequently in cases of opposition or contempt; and that prosecutions should be invariably instituted in the case of fraudulent concealment, removal or transfer of property. It is certain that there is far less difficulty in realising decrees in certificate cases than there is in realising civil court decrees, and the difference is probably due to the greater interest and energy which a Collector has and displays in such work. This is the weak point in the whole of our civil court administration, and is due partly to the fact that the judges are apt to think that proceedings after decree are comparatively of small importance, and partly to the fact that the execution of the decree is entrusted, without any effective supervision, to an imperfect subordinate agency.

12. The Legal Remembrancer has not made any remarks regarding the respective merits of the Government Pleaders subordinate to him, or as to the manner in which they have performed their duties. It is desirable that this should be done in future reports.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Superintendent and Remembrancer of Legal Affairs for information.

By order of the Lieutenant-Governor of Bengal,

F. B. PEACOCK,

Chief Secretary to the Government of Bengal.

RESOLUTION ON THE REPORT OF THE CINCHONA PLANTATION IN BENGAL FOR 1885-86.

MUNICIPAL DEPARTMENT—MEDICAL.

Darjeeling, the 24th August 1886.

RESOLUTION.

READ—

The Annual Report of the Government Cinchona Plantation and Cinchona Factory in Bengal for the year 1885-86

The most important feature of last year's operations was that the planting was entirely confined to yellow bark trees, no red bark having been put out anywhere. One hundred and eighty seven thousand plants of the hybrid variety, and 239,000 of *Calisaya Ledgeriana*, were planted out. There are now over five millions of trees of various ages in the plantation, namely, red (*Succirubra*) 2,932,000, yellow (*Calisaya Ledgeriana*) 1,325,118, yellow (*Calisaya Verde* and *Morada*) 183,300, hybrid 572,100, and other kinds 25,093. The crop of the year was not large, having amounted to 205,410lbs. of dry bark, of which 181,280lbs. were red, 15,950lbs. were *Calisaya*, and 8,180lbs. were hybrid bark. The bulk of the crop was as usual made over to the febrifuge factory.

2. The expenditure on the plantation amounted to Rs. 79,728-2, against the budget allotment of Rs. 97,805. Of this, Rs. 12,052-9 9 represents the capital expenditure on the young trans-Teesta plantation at Rungjung, which has not yet come into bearing; and the balance Rs. 67 675-8-3 the working expenses of the old plantations at Mungpoo, including Rungbee and Sittong. The capital account is thus brought up to Rs. 10,96,255; but, as has been explained in previous years, this has been recouped by the saving effected by the substitution of cinchona febrifuge for quinine in Government medical institutions.

3. The demand for the febrifuge was considerably less than in previous years. The outturn from the factory, which is regulated by the demand,

accordingly fell from 6,464lbs. in 1884-85 to 4,743lbs. during 1885-86—namely, 4,625lbs. of ordinary and 118lbs. of crystalline febrifuge. Certain improvements devised in the method of working the factory, and the introduction of grinding machinery, have raised the percentage of febrifuge obtained from the bark to three per cent. The cost of manufacture, however, rose to Rs. 12-11-2 per pound of ordinary febrifuge, and R. 19-0-9 per pound of crystalline febrifuge. The rates exceed those of the preceding year by five annas per pound in the case of the former, and by eight annas per pound in the case of the latter. This was entirely due to the smaller quantity manufactured.

4. The issues during the year were less than in 1884-85 by 1,653lbs., as will be seen from the table below :—

	1884-85.		1885-86.	
	lbs.	oz.	lbs.	oz.

Sold to the public	3,965	8	3,413	4
Given as samples	10	4	2	0
Total ...	7,152	4	5,499	4

The decline in the issues is entirely due to the presence, at the depôts at Calcutta, Madras and Bombay, of the large quantity (7,000 pounds) of London made febrifuge sent out for sale under instructions from the Secretary of State. 3,500 pounds of this have been made over to the Bengal depôt, while 1,750 pounds have been distributed to the depôts at Madras and Bombay, respectively, and until these large supplies are absorbed, the demand for the Mungpoo ferbrifuge must continue to be limited. The decrease in the sale of febrifuge to the public is due to the extremely low price (Rs. 2-1 per ounce) at which quinine was obtainable in the market during the year. It is, however, anticipated that the depression in the price of quinine, which is due to special causes, will not last.

5. The revenue derived from the sale of the febrifuge, seed, plants and bark amounted to Rs. 93,476-14, against Rs. 1,24,225-2 in the previous year.

	Rs.	A.	P.
By sale of febrifuge, seed, plants and bark to the public	58,594	14	0

Ditto Inspector-General of Civil Hospitals, Bengal	9,835	0	0
Ditto Inspector-General of Jails, Bengal ...	1,383	8	0
Total ...	93,476	14	0

The actual profit exhibited on the year's working amounts to Rs. 30,220-15-2. Dr. King points out that in addition to this should be taken into account the 2,054lbs. of febrifuge supplied to Government medical institutions in substitution for quinine, the value of which, at the most moderate calculation, amounts to Rs. 33,000.

6. The thanks of the Lieutenant-Governor are due to Dr. King for his continued efficient management of the Department, and to Mr. Gammie, who held executive charge of the plantation and factory. The other assistants are well spoken of.

ORDER.—Ordered that a copy of this Resolution, and of the Report referred to, be submitted to the Government of India in the Home Department, to the Superintendent of the Government Cinchona Plantation, to the Government of Madras, and to the Inspector-General of Civil Hospitals, Bengal, for information.

By order of the Lieutenant-Governor of Bengal,

R. H. WILSON,

Offg. Secretary to the Govt. of Bengal.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

Explanation.—*summary.*—The normal means of air pressure and temperature are the arithmetical averages or means of the readings during the same period for the past ten. The *humidity* of the atmosphere is expressed as a percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The number are the numerical means or averages of the rainfall in that district determined from the returns sent in by the sub-divisional stations for the period in question during the past stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least hundredth of an inch fell.

* Mean for six days.

for the week ending Friday, the 27th of August 1886.

CALCUTTA, *the* 31*st August* 1886.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 27TH OF AUGUST 1886.

At the close of the previous week the cyclonic storm which had formed off the coat of Ganjam had passed slowly inland to the north of Gopalpore, and on Friday, the 20th, its centre was near Raipur. This storm had almost completely kept the monsoon winds from advancing over the greater part of Bengal for nearly the whole of that week, but with its disappearance a tolerably steep baric gradient was established over the Bay and a somewhat powerful monsoon current commenced to flow over Bengal from almost the commencement of the present week, and it has continued to give rainfall almost without a break during the last four or five days of the week. The re-commencement of the rains over the province, which has accompanied this re-setting in of the monsoon current, has of course been the main feature in the meteorology of the week. It has therefore only been marked by the usual oscillations of pressure and temperature, and the normal intensifying and falling off in strength of the two branches of the monsoon current, that is the alternate appearance of westerly and south-westerly winds, and of easterly and south-easterly winds, over considerable parts of the province, which have given rise to considerable interaction and generally to heavy rainfall.

The changes of pressure, as stated previously, have been of the usual oscillatory description, but the tendency has been towards a distinct decrease of pressure. Thus on the 21st, 22nd and 23rd pressure rose steadily, though not rapidly; this was followed by a rapid fall during the two following days, and on the 26th and 27th pressure was again rising over the greater part of the province. For the previous week the mean defect of pressure from the normal was 0·01", while during the present week the defect has been increased to 0·058." This defect too is now pretty evenly distributed.

With the heavy and fairly continuous rainfall which has occurred over the province during the greater part of the week, temperature has become very decidedly lower than it was. For the previous week, when rainfall was scanty, temperature was 0·8° in excess of the normal, but in the present week it is in defect by an almost corresponding amount. The defect has been considerable in South Behar and East Bengal, where it exceeds 1°; in Orissa, Chutia Nagpur and North Behar the defect has been 0·5°, but in South-West Bengal temperature has been normal. For the whole week the mean temperature of the province has been 0·7° in defect of the normal.

Rainfall, as has been previously stated, has been heavy and continuous throughout the week, and it is in excess over the whole province. In some parts the rainfall has been considerably more than double the normal. The excess has been very large in Behar, in East Bengal and in Chutia Nagpur, and considerable in South-West Bengal, while in North Bengal and Orissa the excess fall has been small. Thus in Orissa the average rainfall for the week has been 2·40 inches falling on 4·3 days, which, compared with the usual fall and expressed as a percentage of the normal, shows that the actual fall has been 102 per cent. of the normal. In South-West Bengal the average rainfall has been 3·75 inches on 4·7 days, and the actual fall has therefore been 137 per cent. of the normal. In East Bengal the rainfall at all the stations for the week has averaged 5·35 inches on 6·2 days, and the fall is 181 per cent. of the normal. In North Bengal an average rainfall of 3·62 inches on 5·2 days is reported, and the percentage of the normal fall has been 118. In North Behar the actual fall has been 5·23 inches on 5·5 days, while the normal for the period is only 2·36 inches on 3·3 days, and thus the percentage of the normal is no less than 222. Again, in South Behar the actual average fall has been 5·13 inches on 5·4 days, while the normal fall is only 2·61 inches on 3·5 days; in this district the rainfall is 197 per cent. of the normal. Finally, in Chutia Nagpur an average rainfall of 4·41 inches has been received on 6·0 days, while the normal fall is only 2·92 inches on 4·4 days, and the percentage of the normal will be 151. Rainfall has thus been received over the whole province on an average of 5·3 days, which is considerably in excess of the normal 4·0 days, and, compared with the normal fall for the period, the actual fall has been 158 per cent.

In some districts and at some stations the rainfall has been even heavier than is indicated in the above statements. Thus in South-West Bengal, the Hooghly district has been a centre of particularly heavy rain, Hooghly having received 7·08 inches, Jehanabad 5·96 inches, and Culna 6·79 inches. Part of the Khoolna district, as shewn by the stations Satkhira and Bagerhat, has also received an average of 7 inches of rain. In East Bengal, the Chittagong district has received rather a heavy fall, Cox's Bazar reporting 12·90 inches, and Chittagong 9·38 inches. In North Bengal, Bogra has received more than 9 inches, while Darjeeling reports no less than 18·05 inches in the week. In North Behar, Purneah has received 9·84 inches, while in the Durbhunga district, Bahera reports 9·19 inches, Tajpore 8·17 inches, Roshera 6·75 inches, Madhubani 5·95 inches, and Durbhunga 5·42 inches. Paru, in the Mozufferpore district, has reported 8·34 inches, and Sewan, in the Sarun district, 7·96 inches. The Gya district has also been a centre of heavy rainfall, Jehanabad reporting 8·99 inches, Gya 8·08 inches, Arwal 6·62 inches, and Pakri Barawan 14·75 inches.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 27th of August 1886 :—

The mean temperature and humidity are obtained by applying to the mean of the 10h, 16h, and minimum readings a correction dependent on the range, and derived from the hourly observations at the Surveyor-General's Office, Chowringhee, in past years.

METEOROLOGICAL OFFICE, INDIA;
Calcutta, the 30th August 1886.

A. PEDLER,
For Meteorological Reporter to the Govt. of India.

MEMORANDUM.

DURING the week ending 14th August 1886, births and deaths were registered in the principal Municipalities in Bengal (excluding Howrah, from which no return has been received up to date) at the rates, respectively, of 21·9 and 31·4 per 1,000 of population against 19 8 and 29·9 per 1,000, respectively, during the preceding week ending 7th August, indicating a sensible advance in the registration of both events.

2. The highest proportions of births and deaths were returned from the following Municipalities :—

Births.	Ratio per *mille.*	*Deaths.*	Ratio per *mille*
Comillah	... 46·2	Puri	... 83·9
Beauleah	... 36·8	Gya	... 76·5

Bhagulpore	... 30·8	Purneah	... 34 6
		Bhagulpore	... 32·6
		Monghyr	... 31 6
		Chittagong	... 30·5

3. The mortality from the specific diseases mentioned below, in comparison with the death-rates from the same diseases in the preceding week, stood as follows :—

	Ratio per *mille* during the weeks ending—	
	14th August 1886.	7th August 1886.
Cholera	3·3	3 5
Small-pox	·1	·04
Fever	12 5	11·9
Bowel-complaints	5 2	3 9
Injury	·5	·7
Other causes	9 7	9·8

The only noticeable fact indicated by the above figures is that the death-rate from bowel-complaints had risen sensibly.

4. Excepting small-pox and injury, the casualties from which were nowhere noticeably large, the Municipalities named below were reported to have returned the highest death-rates from the rest of the diseases :—

Cholera.	Ratio per *mille.*	*Fever.*	Ratio per *mille.*	*Bowel-complaints.*	Ratio per *mille.*	*Other causes.*	Ratio per *mille*

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "*Age*," the ratios under which have been omitted, inasmuch as the census of the Europeans, above alluded to, cannot be considered as a basis of calculation on account of the results of the census taken this month not having been recorded under the authorized form of age classification.

MALABAR COAST.

PORT OF NARRAKEL.

Replacement of the anchorage buoy.

WITH reference to Notice to Mariners, No. 47, issued from this Department on the 27th July 1886, information has been received from the Port Officer of Cochin that the large buoy, painted *red*, marking the Narrakel roadstead, has been replaced, distant about 6 cables S. E. of its old position, in 18 feet low-water, springtides, with—

Narrakel flagstaff bearing	E. ½ N.
Cochin Light-house	S. E. by S.
Cruz Milagre Gap	S. E.

Note.—Masters of vessels picking up anchorage should therefore be guided solely by bearings, and care should be taken when approaching the roadstead from the southward *not* to mistake the *green* wreck buoy for the anchorage buoy, which is larger and painted *red*.

The great *mud* flat forming the smooth-water anchorage at Narrakel has shifted considerably to the southward, and a convenient and safe anchorage may be found to the westward and south-westward of the *red* buoy.

The bearings are magnetic.

Public Works Department Resolution No. 1442G., dated 13th December 1884.
Despatch from Secretary of State, No. 14P.W., dated 23rd April 1885.

RESOLUTION.—In the Despatch of November 1884, read in the preamble, the Secretary of State for India sanctioned a period not exceeding three years being added to the pensionable service of Civil Engineers who were appointed to the Department as Assistant Engineers, 1st grade, after they had left other employment in India, on the same conditions that the concession had previously been sanctioned for Civil Engineers, who were appointed to the Department with initial rank higher than that of 1st grade Assistant Engineer; these conditions were:—

i. That they were appointed before the 1st November 1873.
ii. That they did not receive a bonus on leaving the service of a Guaranteed Railway Company.

In giving publicity to His Lordship's sanction in Rule V of Public Works Department Resolution No. 1442G., dated 13th December 1884, the conditions attached to the grant of the concession were omitted.

His Excellency in Council is pleased to order the words "After they had left other employ in India" to be expunged from the Rule, the Secretary of State having in the Despatch of the 23rd April 1885, quoted in the preamble, authorised the extension of the concession to all Civil Engineers appointed to the first grade of Assistant Engineers on entering the Department, provided the conditions laid down are fulfilled.

Rule V of the Resolution now read again is accordingly reconstructed as follows:—

V.—Civil Engineers who were appointed before 1st November 1873 to the Department as Assistant Engineers, first grade, will be allowed, on account of previous experience, to add to their pensionable service a period not exceeding three years, provided such previous experience was not acquired before the age of 25. This concession will not, however, be granted to any officer taken over, directly or indirectly, from one of the Guaranteed Railway Companies who received a bonus on leaving the service of the Company.

The Governments of Madras, Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab.
The Chief Commissioners of the Central Provinces, British Burma, Assam, and Coorg.
The Resident at Hyderabad.
The Agents to the Governor-General for Central India, Rajputana, and Biluchistan.
The Accountant-General, Public Works Department.
The Inspector General of Military Works.
The Director-General of Railways.
The Consulting Engineers to the Government of India for Guaranteed Railways, Calcutta, Lahore, and Lucknow.
The Superintendent of Works, Simla Imperial Circle.

ORDER.—Ordered that this Resolution be communicated to the Local Governments, Administrations and Officers noted on the margin and that it be published in the *Gazette of India*, and in all local official Gazettes.

CALCUTTA SMALL CAUSE COURT.

NOTICE.

IN accordance with suggestions contained in a report to the High Court, signed by Mr. Justice Wilson and Mr. Justice Trevelyan, on their inspection of the Calcutta Small Cause Court, a new system will, *on and after the* 28*th October* 1886, be tried for the purpose of revising the list of cases which come daily into the court.

All summons cases will, on the returnable date of the summons, come before one only of the Judges, who will revise the whole list of the court for each day.

He will go through the list, enter "compromises," make decrees in cases in which the defendant does not appear, give fresh summonses in cases where the summons has not been served, grant necessary postponements, ascertain what causes are defended, and dispose of any cases which, in his judgment, can be disposed of summarily.

This would leave the whole time of the other Judges free for the trial of defended causes. The defended causes will be assigned by the Judge revising the list to the lists of the different Judges on the earliest possible days, and will be adjourned by him to those days. The Judge revising the list will have before him the list of each Judge for each day, so far as already filled up, and will arrange that there should always be a sufficient number of cases, say 25 or 30, on each Judge's list. Each of the other Judges will thus have each day his list of defended cases provided for him. When a second summons has been granted, the case will, on the new return day, come again before the Judge who revises the list for that day.

If under this system a Judge should at any time find his list becoming clogged, he will communicate with the revising Judge, and inform the latter that he must have a day or days left clear to enable him to pull up. Thus if on the first of the month a Judge finds that his lists were getting blocked, and that it will take a day to get them clear, he will tell the revising Judge that this is the case. The latter, when revising the lists of the Judge in question, may see that they are already filled, say up to the 9th: he will leave the 10th blank. The Judge who had found himself blocked, knowing that the 10th would be a clear day, will use his discretion: he will either go on as usual up to the 10th, trusting to clear himself on that day, or will adjourn a sufficient number of cases to that day to enable him to take the other cases as nearly as possible on their proper dates.

ADJOURNMENTS.

No "costs of the day" will be allowed on adjournments.

Nor will adjournments be allowed, even by consent, except upon good cause shown.

By order of the Court,

C. Y. C. BOLST,
Clerk of the Court.

NOTIFICATION BY THE ACCOUNTANT-GENERAL, BENGAL.

STOCK CERTIFICATES.

As it does not appear to be generally known that Government Promissory Notes can be readily converted into Stock Certificates and re-converted into Promissory Notes at the option of the holders, and that Stock Certificate-holders enjoy certain special advantages, the attention of holders of Government Securities is drawn to the following particulars :—

1. Government Promissory Notes can be converted into Stock Certificates and re-converted into Promissory Notes at any time at the option of the holder.

2. The holders of Stock Certificates are not required to present them in person or by agent when the interest becomes due. On application made, interest will be paid to Stock Certificate-holders by warrants on any Government Treasury, which warrants will be sent by post, on the day the interest falls due, to the Stock Certificate-holders direct or through the Treasury Officer, as they may desire.

3. Stock Certificates are not negotiable by endorsement, and are consequently of no value in the hands of a wrongful holder, and the risks arising from the possession of, or repeated transmission of, negotiable Securities, are thereby avoided.

4. In the event of the loss of a Stock Certificate by theft, fire, &c., a fresh Certificate will issue on satisfactory evidence of loss.

NOTE.—Further particulars can be obtained on reference to the Public Debt Offices, Calcutta, Madras, and Bombay.

PART IB.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.

The 2nd September 1886.—The following revised rules for the management of hospitals and dispensaries under Government supervision are published for general information in supersession of the Dispensary Manual issued in September 1881.

R. H. WILSON,
Offg. Secy. to the Govt. of Bengal.

REVISED DISPENSARY MANUAL.

PRELIMINARY.

IN these rules—

(*a*) "Local authority" means any body of persons for the time being invested by law with the control and administration of any matters within a specified local area.

(*b*) "Local fund" means any fund under the control or management of a local authority.

CLASSIFICATION.

RULE 1.—Hospitals and dispensaries under Government supervision shall be divided into the following classes:—

CLASS I.—*State hospitals and dispensaries*, including all institutions maintained by Provincial Funds and under Government management. (The fact that an institution is possessed of endowments, or receives contribution from local funds or private subscriptions, does not remove it from this category so long as Provincial Funds are practically responsible for all the charges connected with it.)

CLASS II.—*Local Fund institutions*, including all institutions which are placed under the control and administration of local authorities, or guaranteed or maintained by local funds. (The fact that such an institution is aided by private subscriptions, or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine, or otherwise, does not remove it from this category so long as its existence is practically dependent upon local funds.)

CLASS III.—*Private institutions*. This class is subdivided into—

(A)—Institutions maintained entirely at the cost of private individuals or associations or from private endowments. (The fact that Government supplies superior inspection or registers does not remove an institution from this category.)

(B)—Institutions supported by private subscriptions or endowments, but receiving aid from Government or local funds.

CONDITIONS UNDER WHICH GOVERNMENT AID AND SUPERVISION WILL BE GIVEN.

RULE 2.—No hospital or dispensary shall be established in Class I, and no aid shall be granted from Provincial revenues to any hospital or dispensary in Class II or Class III, without the previous sanction of Government. No hospital or dispensary shall be established in or removed from Class II, or transferred to this class from Class III, without the previous sanction of the Commissioner. No private institution shall be brought into Class III, or receive supervision or aid from Government, except with the sanction of the Commissioner, and in accordance with these rules. No private institution not included in Class III shall receive aid from Government or local funds. Any institution in Class III may be withdrawn therefrom at any time at the option of the owners or supporters, but shall, on being so withdrawn, cease to receive supervision or aid from Government or local funds.

RULE 3.—Applications for the sanction of the Commissioner under Rule 2 in respect of any hospital or dispensary shall be submitted through the Magistrate of the district concerned. On receipt of such an application, it shall rest with the Commissioner to accept, modify, or reject the proposals which it contains, and to pass such other order as he shall think fit. The Lieutenant-Governor reserves the right to withdraw his sanction, supervision, or aid in the event of a dispensary not continuing to serve adequately the purposes of a *bonâ fide* public charity, or if its continuance appears otherwise undesirable.

RULE 4.—A guarantee bond, in the form prescribed in Appendix A, must be executed by the intending supporters of an institution in Class III.

RULE 5.—The Managing Committee of every hospital or dispensary under these rules, whether in Class I, Class II, or Class III, shall submit to the Medical Department, through the Civil Surgeon of the district, such reports, returns, and accounts as may be prescribed from time to time Such reports, returns, and accounts shall be in such forms, and be submitted on such dates, as may be prescribed. All books, registers, and forms which may be necessary for the preparation and submission of such reports, returns, and accounts will be supplied by Government free of cost.

RULE 6.—Every institution which is recognised by Government and brought under these rules is subject to inspection and supervision by the Commissioner of the Division, by the civil authorities of the district, by the Civil Surgeon, by the administrative officers of the Medical Department, and by any other person who may be generally or specially appointed in that behalf. No charge will be made for such inspection or supervision.

RULE 7.—Government aid to a hospital or dispensary will be conditional on the observance of due economy in the management of the dispensary funds. The Inspector-General of Civil Hospitals will bring to the notice of the Commissioner any instance in which he considers that such economy is not observed.

APPOINTMENT, PAY, LEAVE AND PENSION OF MEDICAL OFFICERS.

RULE 8.—The medical officer of every institution in Class I of these rules shall be taken from the Government establishment, and shall be appointed by the Inspector-General of Civil Hospitals.

RULE 9.—The local authority or Managing Committee vested with the control and administration of an institution in Class II, and the Managing Committee of an institution in Class III, shall be entitled to appoint their own medical officer, subject to the following conditions, viz —

(*a*) that he be a duly qualified medical man, licensed or certified by a recognised medical college or school, his license or diploma being subject to examination and approval by the Inspector-General of Civil Hospitals;

(*b*) that he be not a dismissed servant of Government, or disqualified for his duties by age, infirmity, or character; and

(*c*) that in the event of misconduct, insolvency, or professional incompetence by reason of age or otherwise, being proved against him to the satisfaction of the Medical Department, he be removed from his charge on the requisition of the Inspector-General of Civil Hospitals.

Provided that on the application of the local authority or Managing Committee of any such institution, the services of a Government medical officer may be lent to such institution subject to the rules laid down in this Manual.

Provided also that no officer of the Government establishment who, on the date when these rules come into force, is holding medical charge of any institution in Class II, shall be removed from his appointment by the local authority, except with the consent of the Inspector-General of Civil Hospitals.

RULE 10.—In the case of a hospital or dispensary situated at the head-quarters of a sub-division, the services of the Government medical officer in charge of the sub-division will, if the local authority or Managing Committee of the institution so desire it, be made available for the charge of the hospital or dispensary in addition to his other duties, on condition that the proprietors or managers of the dispensary undertake to pay him an additional allowance of Rs. 10 a month if he is a Civil Hospital Assistant, or Rs. 20 a month if he is an Assistant Surgeon. It will be open to them, however, to obtain the services of a medical subordinate of the Government establishment of such higher rank as they may desire, on the payment by them of the full amount by which the authorised pay and allowances of such officer may exceed the amount sanctioned by Government for the medical charge of the sub-division

RULE 11.—The Inspector-General of Civil Hospitals may, at any time, for departmental or other reasons, remove or transfer any Government medical subordinate whose services have been lent to an institution in Classes II or III, and may, with the consent of the local authority or Managing Committee of the institution, appoint another medical subordinate to succeed him. In every such case, except as hereinafter provided, the transit pay and travelling allowances both of the officer transferred and of his successor shall be entirely paid by Government.

Provided that if any officer is transferred at the request of the local authority or Managing Committee, the transit pay and travelling allowances both of the officer transferred and of his successor shall be entirely paid by the local authority or Managing Committee concerned.

RULE 12.—The pay to which a Government medical subordinate in substantive charge of a hospital or dispensary is entitled, is the pay of his grade in the public service. In the event of his becoming entitled, on promotion, to a higher salary than he has received, the local authority or Managing Committee of a dispensary in Class II or Class III may at their option either (*a*) retain his services on payment of the higher salary, or (*b*) apply for the services of another officer of the Government establishment as provided in Rule 9, or (*c*) appoint their own medical officer, subject to the conditions prescribed in that rule.

RULE 13.—No allowance in excess of the pay to which he is entitled under Rule 12 shall be granted to any officer of the Government establishment for the charge of a hospital or dispensary in Class II or Class IIIB. An officer of the Government establishment in charge of a hospital or dispensary in Class IIIA shall receive such allowances as may be determined by the Managing Committee of the institution.

RULE 14.—Government medical subordinates appointed to the charge of a hospital or dispensary under these rules will retain their right to pension, but the amount of pension of each officer will be determined by the salary to which he may be entitled by his grade in the Government service, without reference to any additional allowances paid to him by the managers of the hospital or dispensary under the second clause of the last preceding rule.

RULE 15.—Government medical subordinates in charge of hospitals or dispensaries in Classes II and III are entitled to leave under the rules of the Civil Leave Code. All applications for leave shall be submitted through the local authority or Managing Committee and the Civil Surgeon of the district to the Inspector-General of Civil Hospitals, who alone is authorised to grant the leave. The travelling allowances and transit pay of a *locum tenens* under this rule shall be paid by Government.

The leave pay of an officer proceeding on privilege leave will be borne by the local authority or Managing Committee of the dispensary. In all other cases the leave pay of the officer will be paid by Government.

RULE 16.—Medical officers in charge of hospitals or dispensaries in Class II or Class III, who are not in Government service, shall be entitled to such leave as the local authority or Managing Committee may grant; provided that in the case of an institution in Class II, if rules for the grant of leave have been framed by the local authority concerned, leave shall only be granted in accordance with such rules. The local authority or Managing Committee shall provide for any expenditure that may be incurred on account of the pay of the medical officer while on leave, and the pay and travelling allowances, if any, of his *locum tenens*.

RULE 17.—The salaries or part salaries of Government medical subordinates, which are due from hospitals or dispensaries, must be paid for each month on or before the 15th day of the following month. If payment is not made as above, the Magistrate of the district is authorised to advance the amount due, and will be responsible for its prompt recovery.

MEDICAL STORES.

RULE 18.—Hospitals and dispensaries which pay for their own medicines and instruments shall have the option of obtaining them either from the Government stores or from private vendors approved by the Civil Surgeon; provided that a dispensary previously supplied by private vendors cannot indent on the Government stores without the sanction of the Inspector-General of Civil Hospitals. In either case the indents of the medical officer must be checked by the Civil Surgeon.

RULE 19.—Medical stores will be supplied to dispensaries from the Government Medical Store Department at cost price;* but the supply of medicines will ordinarily be confined to the articles specified in the list given in Appendix E, and it will be in the discretion of the Inspector-General of Civil Hospitals to sanction or disallow any demand.

* Cost price includes the percentage fixed from time to time by Government to cover expenditure on supervision and other charges of the Medical Store Department.

RULE 20.—Medical stores, if required from the Medical Store Department, must be indented for annually, and the annual indent must be submitted on the date fixed by the Civil Surgeon to enable him to submit the combined indent for his district on the date appointed by Government. Indents delayed beyond the date fixed will not be passed for supply from the Government stores.

RULE 21.—Payments due to the Medical Store Department for medical stores must be made within a month of the receipt of the account at the hospital or dispensary.

MANAGEMENT AND SUPERVISION.

RULE 22.—The management of hospitals and dispensaries under these rules shall be vested as follows:—

If the institution is in—

(*a*) Class I—in such officer, person or persons as Government may direct.

(*b*) Class II—in the local authority, or any Managing Committee appointed by it. Such Committee may include persons who are not members of the local authority, and shall exercise its powers subject to the directions of the local authority by whom it was appointed.

(*c*) Class III—in a manager or Managing Committee to be appointed by the Commissioner; provided that no Committee shall be appointed for any institution in Class IIIA, unless the proprietors or chief supporters apply for such appointment.

RULE 23.—When Managing Committees are appointed, in cases (*b*) and (*c*) of Rule 22, the names of the members shall be published by the Commissioner in the *Calcutta Gazette*. The Committee shall elect two of their number to be Chairman and Vice-Chairman respectively, and may also elect another of their number as Secretary.

RULE 24.—The Managing Committee shall meet at least once a quarter, and shall scrutinize the accounts and enquire into all matters affecting the welfare of the institution. They shall examine and pass the monthly accounts, and shall keep a minute-book in which their proceedings shall be recorded.

RULE 25.—The Managing Committee shall be responsible for the management of the funds of the institution. It shall be their duty to see that the guaranteed and promised subscriptions are regularly collected. After defraying the current expenses of the institution, the balance, if any, of the donations and subscriptions realised by the Committee shall be deposited by them in the Post Office Savings Bank. When the amount at credit of the dispensary is Rs. 3,000, the Comptroller-General should ordinarily be asked to invest the whole or a part of it in Government securities. No other mode of investment will be allowed without the previous sanction of Government.

RULE 26.—The Secretary shall keep the accounts of all funded and other property belonging to the institution. He shall receive from the medical officer in charge a monthly account of the receipts and disbursements, and shall examine and countersign all the establishment pay and contingent bills of the institution. He shall, at the end of each month, prepare a statement of the accounts, which he shall submit to the Committee at their next meeting.

RULE 27.—In the case of institutions in Class II, all subscriptions, donations, and the interest on endowments shall be credited to the local fund, but a separate account of dispensary receipts and expenditure shall be kept. The endowments and other invested funds of such institutions shall be held in the custody of the Comptroller-General apart from the assets of the local fund. The securities shall not be sold, and these invested funds shall not be appropriated or used in any way without the sanction of Government.

RULE 28.—The Civil Surgeon shall be the visiting Superintendent of every hospital and dispensary in his district which is classified under these rules.

RULE 29.—The Superintendent shall scrutinize the expenditure and accounts of every hospital or dispensary in his district, and shall call the attention of the Managing Committee to any irregularity or other circumstance which in his opinion deserves notice.

The Managing Committee shall be bound to consider any communication from the Superintendent, to afford him full information as to the conduct of the medical officer in charge, and all other matters affecting the welfare of the sick and the management of the institution.

If any difference of opinion arises between the Superintendent and the Managing Committee regarding any non-professional matter affecting the management of the institution, a reference shall be made through the Magistrate to the Commissioner of the Division, and the decision of the Commissioner shall be final.

RULE 30.—The Superintendent shall visit each dispensary in his district not less than twice annually, and shall prepare and submit promptly to the Inspector-General of Civil Hospitals inspection reports in Form No. XVI given in Appendix B.

RULE 31.—The Superintendent shall furnish an annual report of the working of the hospitals and dispensaries in his district to the Inspector-General of Civil Hospitals, according to the scheme given in Appendix C, and annual returns in accordance with the forms annexed.

RULE 32.—The Managing Committee of every hospital or dispensary shall cause to be kept at the institution—

(*a*) A record of the work done, showing day by day the number of patients treated, the affections for which they were treated, and, in important cases, some account of the symptoms; the treatment, progress, and the result.

(*b*) A record of the accounts of the institution.

These shall be written up daily by the medical officer in charge, and shall be open at all times to the inspection of inspecting officers.

The medical officer shall write up all other books and records prescribed under these rules or otherwise; and in any case in which this is not done, the reasons should be stated in the inspection report of the Superintendent.

RULE 33.—An extract from the proceedings of each meeting of the Managing Committee shall be promptly forwarded to the Superintendent, who may, if he thinks fit, and shall if the Managing Committee so desire, submit it with his remarks to the Inspector-General of Civil Hospitals.

RULE 34.—A Visitors' book shall be kept in every hospital and dispensary, in which will be recorded the remarks of visitors. A copy of these remarks shall be forwarded, on the day of entry, to the Superintendent, who will, if necessary, transmit it with his remarks to the Inspector-General of Civil Hospitals within three days of its receipt in his office.

GENERAL.

RULE 35.—The medical officer in charge of a hospital or dispensary is responsible for the proper treatment of the sick, and this duty shall not on any account be delegated to a subordinate; he is also responsible for all matters connected with the comfort and well-being of the patients, and for the proper working of the dispensary establishment.

RULE 36.—The Managing Committee shall prescribe the hours of attendance (which shall not be less than four hours in the morning and two hours in the afternoon) within which the medical officer must be present at the dispensary. He must also give attention to urgent cases at other hours.

The hours of attendance shall be clearly stated in a notice posted in some conspicuous part of the dispensary.

RULE 37.—Any person attending at a charitable dispensary is entitled to receive advice free of charge; but the medical officer may exercise his discretion in refusing to supply medicines in ordinary cases where the person is not poor. Medicines should never be refused to any urgent or dangerous case attending the dispensary. The medical officer refusing to give medicines gratis shall promptly report the facts to the Superintendent and the Managing Committee.

RULE 38.—No medicines may be issued from the dispensary stock to any one who does not receive treatment at the dispensary either as an in-door or out-door patient.

RULE 39.—In no case shall any money payment be received from any person attending the dispensary. Provided that where special accommodation has been provided for paying patients, fees shall be levied according to a scale previously sanctioned in that behalf by the Managing Committee.

RULE 40.—The medical officer in charge of a dispensary has the privilege of engaging in private practice, provided it does not interfere with his attendance at the dispensary during the hours prescribed under Rule 36, or in any other way with his dispensary work. The Managing Committee may, with the sanction of the Superintendent, make rules for the attendance, gratuitously or otherwise, of the medical officer on persons in their own homes who are unable by reason of sickness to attend the dispensary.

Provided that a medical officer who is on the Government establishment is bound to attend gratuitously all persons who, under the orders of Government, are entitled to such gratuitous attendance at their own homes.

RULE 41.—No medical officer in charge of a hospital or dispensary shall have any interest in a private dispensary or druggist's shop.

RULE 42.—When accommodation is provided for the medical officer in or near the dispensary, he must live in the residence provided for him.

RULE 43.—In dispensaries in which there are house-patients, a bed-head ticket in the prescribed form shall be hung over the bed of each in-patient.

RULE 44.—Medicines and instruments shall be kept under lock and key, except small quantities of the articles in daily use during the attendance of patients.

RULE 45.—Poisons must be kept under separate lock and key.

RULE 46.—No building for the location of a dispensary or hospital in Class II, and no extension to such building, shall be constructed by the local authority until the plan and estimate of such building or extension shall have been approved by the Civil Surgeon, or if the work is estimated to cost more than Rs. 1,000, by the Inspector-General of Civil Hospitals.

RULE 47.—In the case of institutions in Class II or Class III, repairs to the dispensary buildings shall be executed by, and be chargeable to, the local authority or Managing Committee as the case may be.

RULE 48.—Menial servants will be appointed and discharged by the Managing Committee of the institution. Compounders and dressers will also be appointed and be liable to removal by the Managing Committee, subject to the approval of the Superintendent.

RULE 49.—Dispensary servants must not be employed in the private service of the medical officer.

RULE 50.—The employment of apprentices is prohibited.

BOOKS AND FORMS.

RULE 51.—The following books and forms are required to be kept up at hospitals and dispensaries brought under these rules:—

(1)—Diary and register of in-door patient (Appendix B, form I).

In large hospitals it may also be convenient to keep a separate register of major operations: this should be kept in the following form:—

Register of Major operations.

Number.		Nature of operation.	Date of operation.	Result and date.				Cause of death.	Operator's name and rank.
Serial.	In hospital register.			Cured.	Relieved.	Discharged otherwise.	Died.		

(2)—Bed-head ticket (form II). This should be written up daily and be filed, so as to preserve a concise history of the case and treatment. It is advisable also to keep a case-book for recording all special or important cases.

(3)—Register of out-patients (form III).

(4)—Ticket for out-door patients (form IV).

(5)—Monthly return of in and out-patients (form V). This should be prepared and submitted to the Civil Surgeon soon after the close of the month, and a copy should be kept in a book for the more easy and accurate preparation of the annual return.

(6)—A season register of vaccination for use in dispensaries to which vaccinators are attached. The form can be obtained from the Superintendent.

(7)—Annual return and report of vaccination. In duplicate; one copy to be filed, and the other to be submitted to the Superintendent, who will draw up a "general" return and report (in similar form) of the operations performed in all the dispensaries under his superintendence, and submit them, through the prescribed channel, to the office of the Sanitary Commissioner, the individual dispensary returns being filed in his own office.

(8)—Monthly bills in detail of establishment, diet, and contingencies (form VI) to be prepared by the medical officer in charge, and examined and countersigned by the Secretary for payment. These bills are then to be sent to the committee or district officer, as the case may be, for payment. In all cases in which there is a grant from Government for establishment, diet or any other charge, the bills of such expenditure are to be kept separate from the private accounts of the charity.

(9)—A bill-book for copies of all the dispensary bills.

(10)—A monthly statement of accounts (form VII, Parts I and II) to be submitted in duplicate monthly to the Superintendent, who will send one copy to the Magistrate, and keep one for record. A copy of this is to be kept in the bill-book (9), and laid before the committee at their monthly meetings. This rule applies only to dispensaries in classes II and III.

(11)—A daily account or cash-book, showing actual receipts and expenditure in detail. This is to be kept at the dispensary, and the account totalled up at the end of each month.

(12)—A diet-book (in form VIII). This is required only in dispensaries in which there are in-patients.

(13)—Monthly return of medical subordinates and hospital servants, including acquittance roll (form IX), to be sent monthly to the Superintendent.

(14)—A subscription and donation book. This should be in form X, and should be kept up by the Secretary.

(15)—A nominal disposition roll of subordinate medical officers, Assistant Surgeons, and Civil Hospital Assistants (form XI) to be submitted to the Inspector-General of Civil Hospitals quarterly. This is to be prepared by the Civil Surgeon, and to include all medical subordinates serving under him. The report regarding the qualifications of the medical officers is to be treated as confidental, and is not to be filed in the Civil Surgeon's office.

(16)—Annual indent for European medicines and instruments (form XII), to be prepared on the printed form and submitted in duplicate.

(17)—Annual indent for forms to be prepared on the printed form (form XIII), and to be submitted in quadruplicate.

(18)—Annual return (form XIV). The annual return is to be sent through superintendents direct to the Inspector-General of Civil Hospitals. The *summary* report of the Civil Surgeon should be prepared in accordance with the scheme laid down in Appendix C, and be submitted through the *Civil authorities*. The medical officer of a dispensary is expected to draw up his report in English, but when he is unable to do so, he should prepare it in the vernacular, and it must be translated in the office of the Superintendent.

(19)—Operations are to be entered in accordance with the list in form XV.

(20)—For a visitors' book, a simple blank book will suffice.

(21)—Inspection reports of Civil Surgeons should be submitted according to form No. XVI.

(22)—A book for copies of certificates given in police and medico-legal cases (form XVII).

(23)—A blank book for records of *post-mortem* examinations, medico-legal or otherwise, and for keeping detailed records of wounds or other police cases. Instead of a book being kept up, a copy of form No. XVIII, which is to be used when despatching viscera to the Chemical Examiner, may be filed as a record of medico-legal *post-mortem* examinations.

(24)—Blank book for copies of all letters and circulars received and forwarded.

(25)—A property book should be kept up at all dispensaries.

(26)—A book-cover for filing all circulars and other letters.

(27)—A book for copying all letters despatched.

(28)—A committee-book, for recording the proceedings of each meeting of the dispensary committee.

(29)—A stock ledger of medicines (form XIX).

DIRECTIONS AND EXPLANATIONS.

Col. 2.—The yearly numbers commence with the first new case admitted in the year and proceed regularly through the 12 months, the last number thus recording the number of admissions in the year and corresponding with the total of Col. 12.

—The monthly aggregate of the daily total numbers treated divided by the number of days in the month gives the "*averaged daily sick*" required for the monthly Return.

Col. 3.—All the cases remaining at the end of a year are to be entered on the following 1st January by the previous year's yearly number and monthly date. Such cases and cas s *remaining* from day to day, will only re-appear on the date on which their result is recorded. Deaths being recorded on the day of its occurrence, the result should also be noted (in red ink or in brackets) opposite the original entry.

Col. 5.—Hindoo, H.; Mussulman, M.; European, Eu., Eurasian, Eu., Native Christian, N. C.; and other Classes, O. C.

Col. 6.—Male, M.; Female, F.; Children to be recorded as such when under 10 years old.

Col. 9.—Diseases, injuries, operations, &c., are only to be denominated by the name and number specified in the officia. 'Nomenclature,' and no name is ever to be used that does not appear in that book.

If variety or sub-division is to be recorded, the letter or figure in the book must follow the number of the main disease.

In the column headed "otherwise" a reference number and foot-note are to be used to indicate the mode of discharge—unrelieved, absconded, removed by friends, &c.

When Police cases are admitted into hospital, they should be distinguished by the letter P being placed after the yearly number, as 5 P on the 2nd January.

R. H. WILSON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 31st August 1886.—Whereas a notification, dated the 1st May 1886, announcing the intention of the Lieutenant-Governor to confirm the following bye-laws framed by the Commissioners of the Hooghly and Chinsurah Municipality, in the district of Hooghly, under section 350 of Act III (B.C.) of 1884, was published at page 122, Part IB of the *Calcutta Gazette* of the 12th idem, and whereas no objection has been raised to the bye-laws in question, it is hereby notified for general information that, in the exercise of the power vested in the Local Government by section 351 of the said Act, and on the recommendation of the Commissioners of the Hooghly and Chinsurah Municipality, made at a meeting, the Lieutenant-Governor confirms the bye-laws :—

For regulating the conduct of business at meetings.

1. The day of the meeting shall ordinarily be the second Tuesday in every month, unless the Chairman for any special reason fix any other day. A notice signed by the Chairman or Vice-Chairman shall be circulated at least three days before the day of the meeting.

2. A list of business to be transacted at the meeting shall accompany the notice, and no matter which is not contained in such list shall be brought forward for discussion at any meeting unless with the consent of the majority of the Commissioners present at the meeting.

3. Any member wishing to bring any proposition before the Commissioners at a meeting shall give written notice to the Chairman or Vice-Chairman of his intention to do so, and such proposition shall be included in the next list of business which may be prepared after the receipt of the notice.

For regulating the time and mode of collecting the taxes.

4. Every collecting officer shall be provided with a certificate of his authority to collect, and every such certificate shall bear the seal of the municipality and the signature of the Chairman. Every collecting officer at the time of demanding payment shall be bound to show his certificate if required.

5. Every collecting officer receiving any money in payment of any demand shall give a receipt for it.

6. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish shall send such schedule or return to the office of the Commissioners within one week from the date of the service of the requisition in the manner described in section 356 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rs. 5 for the omission, and to a penalty not exceeding Rs. 2 for every day the omission shall, after warning, continue.

Any person submitting a false or incorrect schedule or return shall be liable to a penalty of Rs. 20, provided that nothing in this bye-law shall be held to prevent the institution of a criminal prosecution under the Penal Code should the facts appear to warrant such a proceeding.

7. Payment of purchase-money for property sold and the delivery of the property shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer at his discretion to sell the property again on the same day or on any other day, of which due notice shall be given, and the former purchaser shall in such case be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.

For regulating the conduct of persons employed by the Commissioners.

8. All persons employed by the Commissioners whose services may be no longer required shall be liable to discharge after receipt of previous notice, or pay in advance, for the period of one month; and no such person shall withdraw from the duties of his office without having given previous notice for the period of one month, on pain of forfeiture of one month's salary.

9. All persons now holding, or who may hereafter be appointed to any office under the Commissioners, shall, when required so to do, furnish good security to such amount as the Commissioners may from time to time fix, and any person failing to furnish such security within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment, and may be removed from office.

10. The Commissioners shall have power to inflict for neglect of duty a fine not exceeding one month's pay upon any person employed by them.

For regulating the disposal of offensive matter, rubbish, and dead bodies of animals.

11. Every person within whose premises any animal may die shall, within two hours after its death, or, if death occurs at night, within two hours after daylight, either remove at his own expense the carcass to such place as may be set apart by the Commissioners for the reception of such carcasses, or report the death to the conservancy overseer of the division within which such premises may be situated; and in such latter case shall pay to the said overseer the expense of removing the carcass at the rate of Rs. 2 for a large and annas 8 for a small animal; and in cases where the said person is not the owner of the animal and the owner is known, the owner shall alone be responsible for the payment of such expense, and such expense shall be recoverable as a debt due to the Commissioners. No overseer, when called upon, shall neglect to remove a carcass.

The penalty for infringement shall be a fine not exceeding Rs. 10.

12. No person shall deposit, or cause to be deposited, any carcass, or any part of a carcass, in any place other than such places as may from time to time be appointed by the Commissioners for the reception of such carcasses.

The penalty for infringement shall be a fine not exceeding Rs. 10.

13. All dust, dirt, and rubbish of every kind, the removal of which is undertaken by the Municipal Commissioners, shall be deposited between the hours of 4 A.M. and 8 A.M. on the side of the road near the entrance of the premises from which it has come.

The penalty for infringement shall be a fine not exceeding Rs. 10.

14. No refuse resulting from any business, trade, or profession shall be removed by the Municipal Commissioners, except on payment for removal at the rates mentioned below—

	Rs.	A.	P.	
From hackney carriage stable-keepers, keeping 4 to 7 horses or ponies	1	0	0	per quarter.
For every additional 4 horses or ponies an additional rate of ...	1	0	0	„
From milkmen keeping 8 cows	1	0	0	„
For additional 8 cows an additional fee of	1	0	0	„
From owners of bazars for the sale of fish, vegetables, &c. ...	3	0	0	„
From keepers of lodging-houses	1	0	0	„
From owners of distilleries	3	0	0	„

And any expense incurred on this account shall be recoverable as a debt due to the Commissioners.

For the regulation and management of privies.

15. Every owner or occupier of any house, land, or premises from which offensive matter is not removed by the said owner or occupier shall give free access to the servants of the municipality to his house, land, or premises for the removal of any night-soil or filth within such hours as may have been fixed by the Municipal Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 5.

16. Every person shall construct his privy above ground, and shall provide it with a suitable moveable receptacle of metal or earthenware.

The penalty for infringement after notice shall be a fine not exceeding Rs. 20.

17. On receipt of a notice from the Municipal Commissioners every owner or occupier of any house, land, or premises in or on which any well-privy or other noxious or improperly constructed privy may be situated, shall fill up, close, or otherwise alter the construction of the said privy as may be directed in the notice, and if the orders contained in the notice be not carried out within fifteen days, the Commissioners may fill up, close, or otherwise alter the said privy, and any expenses incurred in so doing shall be recoverable as a debt due to the Commissioners.

18. No owner or occupier of any house, land, or premises in or on which any privy may be situated, shall allow night-soil or filth of any kind to flow or to be discharged from such privy into any drain, water-course, river, tank, hollow, or excavation, or any place containing waste and stagnant water, or into any other receptacle but one of the nature described in bye-law No. 16.

The penalty for infringement shall be a fine not exceeding Rs. 20.

19. No person shall throw, deposit, or discharge any night-soil, sewage, or the contents of any drain, privy, or cess-pool into any river, tank, khal, water-course, or receptacle for water, or dispose of the abovementioned kinds of offensive matter in any other way than as the Municipal Commissioners may from time to time direct.

The penalty for infringement shall be a fine not exceeding Rs. 20.

20. No person shall carry night-soil through the streets, except between the hours of 3 A.M. and 7 A.M., or otherwise than in a closely covered receptacle of such description and pattern as shall be from time to time required by the Municipal Commissioners, or use any places other than those approved by the Commissioners for the purpose of depositing such night-soil.

The penalty for infringement shall be a fine not exceeding Rs. 20.

21. No person shall perform any office of nature in any place outside private premises other than such as may have been appointed by the Commissioners, provided that such places have been set apart by the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 10.

For regulating traffic in the streets.

22. All wheeled vehicles plying between dusk and dawn shall carry conspicuous lights except on bright moonlight nights.

The penalty for infringement shall be a fine not exceeding Rs. 10.

23. No owner of any carriage shall allow it to be driven by a driver under 14 years of age.

The penalty for disobedience on the owner's part shall be a fine not exceeding Rs. 10.

For regulating or prohibiting the use of fireballoons, fireworks, firearms, or missiles in the vicinity of public roads.

24. No one shall let off any fireballoons, fireworks, firearms, or any missiles in or near a public street without the written consent of the Municipal Commissioners previously obtained.

The penalty for infringement shall be a fine not exceeding Rs. 10.

For regulating cremation and burials.

25. No person shall bury, or cause to be buried, any corpse, or part of a corpse, in a burial-ground, in a grave constructed of masonry, in such manner that the top of the coffin, or the body where no coffin is used, shall be at a less depth than four feet from the surface ground.

The penalty for infringement shall be a fine not exceeding Rs. 10.

26. No person shall bury, or cause to be buried, in any burial-ground, any corpse, or part of a corpse, in a grave not constructed of masonry, which shall be less than five feet deep.

The penalty for infringement shall be a fine not exceeding Rs. 10.

27. No person shall build or dig, or cause to be built or dug, any grave in any burial-ground at a less distance than four feet from any other existing grave.

The penalty for infringement shall be a fine not exceeding Rs. 20.

28. No person shall build or dig, or cause to be built or dug, a grave in any burial place in any other line than that marked out by the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 20.

29. No grave once used shall be opened for the burial of another body without the permission of the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 20

30. Every person who shall bring or convey, or cause to be brought or conveyed, any corpse, or part thereof, to any burning-ground, shall burn, or cause the same to be burnt, within six hours after its arrival at the said burning-ground.

The penalty for infringement shall be a fine not exceeding Rs. 20.

31. Every person bringing a corpse for cremation at any registered burning ghât shall be bound to pay a fee of 10 annas.

Penalty for infringement fine not exceeding Rs. 5.

32. No person when burning, or causing to be burnt, any corpse, or part of a corpse, in any burning-ground shall permit the same, or any part thereof, to remain without being completely reduced to ashes; or shall permit the clothes or other articles connected with the burning of such corpse to remain at or near such burning-ground unless the same be completely reduced to ashes.

The penalty for infringement shall be a fine not exceeding Rs. 20.

33. No one shall carry a corpse, or part of a corpse, through any highway unless it be decently covered and totally concealed from public view.

The penalty for infringement shall be a fine not exceeding Rs. 10.

34. No person while carrying any corpse, or part of a corpse, through the precincts falling with municipal limits shall, except for the purpose of ordinary relief, deposit it on or near any public highway.

The penalty for infringement shall be a fine not exceeding Rs. 10.

35. Every corpse, or part of a corpse, that has been kept or used for purposes of dissection must be removed in a closed vehicle.

The penalty for infringement shall be a fine not exceeding Rs. 20.

Miscellaneous bye-laws.

36. No person shall put, or cause to be put, on any house or other building, any spout or other thing intended for the conveyance and discharge of water, which shall be so placed that water discharged therefrom shall be thrown or fall upon any public road or thoroughfare.

The penalty for infringement shall be a fine not exceeding Rs. 5; the penalty for continued infringement after notice shall be a fine not exceeding Re. 1 daily.

37. No person shall construct or place over, or by the side of, any public drain, any bridge, platform, building, or structure of any kind, except by and with the written permission of the Commissioners, and in such manner as they shall direct.

The penalty for infringement shall be a fine not exceeding Rs. 20.

2. No person shall remove or sell any clothes or other articles appertaining to a corpse which may have been left at any burial-ground or burning-ghât.

The penalty for infringement shall be a fine not exceeding Rs. 50.

3. No person shall carry a corpse, or part of a corpse, through any highway unless it be covered and concealed from view

The penalty for infringement shall be a fine not exceeding Rs. 10.

4. No person, while conveying any corpse, or part of a corpse, shall, except for the purpose of ordinary relief, deposit it on or near any public highway.

The penalty for infringement shall be a fine not exceeding Rs. 10.

GENERAL BYE-LAWS.

5. No person shall construct or place over or by the side of any public drain any bridge, platform, building, or structure of any kind, except by and with the written permission of the Commissioners, and in such manner as they shall direct.

The penalty for infringement shall be a fine not exceeding Rs. 50, and the penalty for continued infringement shall be a fine not exceeding Rs. 3 daily.

6. No person shall make a shop over any public drain, or in any way occupy any culvert, bridge, or platform which may have been placed over any public drain without the permission of the Commissioners at a meeting.

The penalty for infringement shall be a fine not exceeding Rs. 50.

7. No person shall perform any office of nature in any public road or place other than such places as may have been appointed by the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 10.

8. No person shall remove from or deposit earth or any other substance in, or make any alteration whatever, in any public drain without the permission of the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 50.

FOR REGULATING THE DISPOSAL OF OFFENSIVE MATTER, RUBBISH, AND DEAD BODIES OF ANIMALS.

9. The Commissioners may, from time to time, order to be closed and appoint places for the deposit of the carcasses of animals. Any person who shall deposit, or cause to be deposited without special permission, the carcass of any animal in any place other than those that may have been appointed by the Commissioners, or in any place which they may have ordered to be closed, shall be liable to a fine not exceeding Rs. 50.

10. Every person within whose premises any animal may die shall, within four hours after its death, or if death occurs at night, within two hours after day'light, either remove at his own expense the carcass to such place as may be set apart by the Commissioners for the reception of such carcasses, or report its death to the Vice-Chairman, and in such latter case shall pay the expense of removing the carcasses at such rate as the Commissioners may determine, and in cases where the said person is not the owner of the animal, and the owner is known, the owner shall alone be responsible for the payment of such expense and such expense recoverable as a debt to the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 10.

FOR REGULATING THE TRAFFIC IN THE STREETS.

11. Every carriage plying between dusk and dawn shall carry two conspicuous lights, and every cart shall carry one conspicuous light except on bright moonlight nights.

The penalty for infringement shall be a fine not exceeding Rs. 20.

R. H. WILSON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 31st August 1886.—It is hereby notified for general information that the Lieutenant-Governor has been pleased to make the following rules under clause (*k*), section 138 of the Bengal Local Self-Government Act III (B.C.) of 1885:—

PART VII.

MEDICAL.

Preliminary.

170. In the following rules the term "District Board," unless there be something repugnant in the context, includes a duly empowered Joint Committee constituted under section 30, and a Local Board duly empowered under section 101.

171. A District Board may appoint a Managing Committee in respect of any hospital or dispensary which is under its control and administration. Such Managing Committee may include persons who are not members of the District Board. The members shall be notified by the Commissioner in the *Calcutta Gazette*, and the Managing Committee shall exercise in respect of the hospital or dispensary for which it is appointed such powers as may be delegated to it by the District Board.

172. No hospital or dispensary shall be established or abolished by the District Board without the previous sanction of the Commissioner. Such sanction may be either general or special.

173. No grant may be made by the District Board in aid of any hospital or dispensary which has not received the recognition of Government and been classified under the rules of the Dispensary Manual. Grants-in-aid shall be made only in accordance with the rules in the Dispensary Manual.

Appointment, Pay, and Leave of Medical Officers.

174. The medical officers of hospitals and dispensaries placed under the control and administration of District Boards under section 66, or provided by District Boards under sections 67 and 68, shall be appointed by the District Board, subject to the following conditions, viz.—

(*a*) That any medical officer so appointed must be a duly qualified medical man licensed or certified by a recognized medical college or school, his license or diploma being subject to examination and approval by the Inspector-General of Civil Hospitals;

(*b*) That he be not a dismissed servant of Government or disqualified for his duties by age, infirmity, or character; and

(*c*) That in the event of misconduct, insolvency, or professional incompetence by reason of age or otherwise being proved against him to the satisfaction of the Medical Department, he be removed from his charge on the requisition of the Inspector-General of Civil Hospitals.

Provided that on the application of the District Board, the services of a Government medical officer may be lent to such institution subject to these rules.

Provided also that no officer of the Government establishment who on the date when these rules come into force in any district is holding medical charge of any hospital or dispensary, the control and administration of which is vested in the District Board of such district, shall be removed from his appointment except with the consent of the Inspector-General of Civil Hospitals.

175. In the case of a hospital or dispensary situated at the head-quarters of a sub-division, the services of the Government medical officer in charge of the sub-division will, if the District Board desires it, be made available for the charge of the dispensary in addition to his other duties, on condition that the District Board agrees to pay him an additional allowance of Rs 10 per mensem if he be a Civil Hospital Assistant, and of Rs. 20 per mensem if he be an Assistant Surgeon. A Government medical subordinate of higher grade will be provided, if the District Board desires it, on payment by the District Board of the full amount by which the authorised pay and allowances of such officer may exceed the amount sanctioned by Government for the medical charge of the sub-division.

176. The Inspector-General of Civil Hospitals may at any time, for departmental or other reasons, remove any Government medical subordinate whose services have been lent to a District Board, and with the consent of the District Board may appoint another medical subordinate to succeed him. In every such case, except as hereinafter provided, the transit pay and travelling allowances both of the officer transferred and of his successor shall be entirely paid by Government.

Provided that if any such officer is transferred at the request of the District Board, the transit pay and travelling allowances both of the officer transferred and of his successor shall be entirely paid by the District Board.

177. The pay to which a Government medical subordinate in substantive charge of a hospital or dispensary under the management of a District Board is entitled is the pay of his grade in the public service. In the event of his becoming entitled, on promotion, to a higher salary than he has received, the District Board may at its option either (*a*) retain his services on payment of the higher salary; (*b*) apply for the services of another officer

of the Government establishment as provided in Rule 174; or (*c*) appoint its own medical officer subject to the conditions prescribed in that rule. In no case can a Government medical subordinate in charge of a hospital or dispensary be permitted to draw a special consolidated salary or any increase to his emoluments which has not been earned by promotion.

178. Government medical subordinates in charge of hospitals and dispensaries under the management of District Boards shall be entitled to leave under the provisions of the Civil Leave Code. The leave shall be granted by the Inspector-General of Civil Hospitals after consultation with the District Board. The salary to which the officer may be entitled while on privilege leave shall be paid by the District Board; in all other cases it shall be paid by Government, and the travelling allowances and transit pay of a *locum tenens* under the rule shall be paid by Government.

179. Medical officers not in Government service shall be entitled to leave in accordance with the rules framed by the District Board under clause (*g*), section 32 of the Act. The leave shall be granted by the District Board, who shall also provide for such extra expenditure as may be incurred on account of the pay of the medical officer while on leave, and the pay and travelling allowance, if any, of his successor.

Medical Stores.

180. District Boards shall have the option of obtaining their medicines and instruments either from the Government stores or from private vendors approved by the Civil Surgeon; provided that a dispensary previously supplied by private vendors shall not indent on the Government stores without the sanction of the Inspector-General of Civil Hospitals. In either case the indents of the medical officer must be checked by the Civil Surgeon.

181. Medical stores will be supplied to District Boards from the Medical Store Department at cost price,* but the supply of medicines will ordinarily be confined to the articles specified in the list given in Appendix E of the Dispensary Manual, and it will be in the discretion of the Inspector-General of Civil Hospitals to sanction or disallow any demand.

* Cost price includes the percentage fixed from time to time by Government to cover expenditure on supervision and other charges of the Medical Store Department

182. Medical stores, if required from the Medical Store Department, must be indented for annually, and the annual indent must be submitted on the date fixed by the Civil Surgeon, to enable him to submit the combined indent for his district on the date appointed by Government. Indents delayed beyond the date fixed will not be passed for supply from the Government stores.

Payment for such stores must be made within a month of the receipt of the account by the District Board.

Funds.

183. All subscriptions, donations and the interest on endowments shall be credited to the District Fund, but a separate account of hospital and dispensary receipts and expenditure shall be kept. The endowments and other invested funds of hospitals and dispensaries under the management of District Boards shall be held in the custody of the Comptroller-General apart from the District Fund. The securities shall not be sold, and these invested funds shall not be appropriated or used in any way without the sanction of Government.

Control.

184. The Civil Surgeon of the district shall be the visiting Superintendent of all hospitals and dispensaries under the management of District Boards.

185. The Civil Surgeon shall scrutinize the expenditure and accounts of every hospital and dispensary under the management of a District Board, and shall call the attention of the District Board to any irregularity or other circumstance which in his opinion deserves notice. The District Board shall be bound to consider any communication from the Civil Surgeon, and to afford him full information as to the conduct of the medical officer in charge, and all other matters affecting the welfare of the sick and the management of the institution.

186. A copy of the proceedings of every meeting of a District Board, so far as they relate to hospitals and dispensaries, shall be forwarded to the Civil Surgeon.

187. No building for the location of a dispensary or hospital, and no extension to such building, shall be constructed by a District Board until the plan and estimate of such building or extension shall have been approved by the Civil Surgeon, or, if the work is estimated to cost more than Rs. 1,000, by the Inspector-General of Civil Hospitals.

Miscellaneous.

188. In all matters not expressly provided for by the foregoing rules, the rules of the Government Dispensary Manual for the time being shall, in so far as they are consistent with these rules and with the Act, apply to all hospitals and dispensaries under the management of District Boards.

R. H WILSON,
Offg Secy. to the Govt. of Bengal

THE following Bill is proposed to be introduced in the Bengal Legislative Council.

R. H. WILSON,
Offg. Secy., to the Govt. of Behgal.

A Bill to amend Act IV (B.C.) of 1876.

Preamble

WHEREAS it is expedient to amend Bengal Act IV of 1876: It is enacted as follows:—

Commencement of Act

1. This Act shall come into force from the date on which it may be published in the *Calcutta Gazette* with the assent of the Governor-General.

Now section for section 292

2. For section 292 of Bengal Act IV of 1876 the following shall be substituted.—

Prohibition of the sale of articles of food not of the proper nature, substance or quality.

"No person shall sell to the prejudice of the purchaser any article of food which is not of the nature, substance or quality of the article demanded by such purchaser under a penalty not exceeding one hundred rupees: Provided that an offence shall not be deemed to be committed under this section in the following cases, that is to say—

(1) Where any matter or ingredient not injurious to health has been added to the food, because the same is required for the production or preparation thereof as an article of commerce, in a state fit for carriage or consumption, and not fraudently to increase the bulk, weight or measure of the food, or conceal the inferior quality thereof,

(2) Where the food is unavoidably mixed with some extraneous matter in the process or collection or preparation."

The term "food" shall include every article used for food or drink by man other than drugs or water.

In any prosecution under this section it shall be no defence to allege that the purchaser, having bought only for analysis, was not prejudiced by the sale.

New sections to follow section 292

3 After section 292 the following sections shall be inserted:—

No proceedings to be had under section 292 without leave of the Commissioners

"292A. No proceedings shall be instituted under the last preceding section except with the permission of the Commissioners granted under the advice of the Health Officer for the time being."

Power of Commissioner to enter and inspect markets, shops, &c, and to seize unwholesome articles exposed for sale

"292B. The Commissioners, or any person authorized by them in that behalf, may, at all reasonable times, enter into and inspect any market, building, shop, stall or place used for the sale or storage of articles intended for food, and may examine any such articles which may be therein, and if, upon examination, such articles, or any of them, appear to be unfit for food, may seize the same."

Power to destroy unwholesome articles

"292C. Upon the seizure of any article of food under the last preceding section, the same may, if the owner or the person in whose possession the same is found consents, be forthwith destroyed or so disposed of as to prevent it being used as food, but if the owner or the person in whose possession the same is found do not consent, then, if it appear to a Magistrate upon sufficient evidence that the same is unfit for food, he shall order the same to be destroyed or so disposed of as to prevent it being used as food, and may impose a penalty not exceeding one-hundred rupees upon the owner or person in whose possession the same was found, such person not being merely a carrier or bailee thereof."

Person refusing to sell any article to Commissioners liable to penalty.

"292D. If the Commissioners or any person authorized by them in that behalf shall apply to purchase any article of food exposed to sale, and shall tender the price for a quantity not more than shall be reasonably requisite for the purpose of analysis and the person exposing the same for sale shall refuse to sell the same, such person shall be liable to a penalty not exceeding fifty rupees.

LAND SALE NOTICES.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Bengal Central Railway, in the district of Nuddea, will be put up to sale at noon on Saturday, the 20th October 1886, corresponding with the 14th Kartic 1293 B.S. at the Collector's Office of Nuddea.

The purchasers of the plots will be subject to the following conditions:—

1*st*.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway fencing, or plough it closer than three feet from its foundation.

2*nd*.—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid down at once.

3*rd*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled, the sum deposited being forfeited to Government, and the estate to be again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4*th*.—The plots will be sold revenue-free to the highest bidders.

5*th*.—The purchasers shall be put in possession on receipt of the orders of the Collector approving of the sales. But such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

Furreedpore Collectorate, the 7th August 1886. F. H. BARROW, Offg. Collector.

NOTICE is hereby given that, under Government orders No. 1250-500L—R, dated 13th April 1886, the proprietary right of Government to undermentioned Government estates, situate in the district of Hooghly, as specified in the conditions of sale below, will be put up to sale at the Hooghly Collectorate on Tuesday, the 28th September 1886, corresponding with 13th Ashin 1293 B.S. Estate No. 1 will be sold revenue-free, and the rest subject to the payment of the Government revenue entered in column 6.

The purchasers will be subject to the following conditions of sale :—

Conditions of sale.

1*st*.—The estates to be sold to the highest bidders above the upset price. The purchasers of these estates will be considered as the proprietors of these estates, and the entire proprietary right of Government in such estates will be transferred to them, subject to the revenue fixed in perpetuity, except in the case of estate No. 1, which will be sold revenue-free.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force : and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd*.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

THE following Bye-laws for regulating the service of coolies in the Municipal Market, having been confirmed by the Local Government, are published for general information, under section 344 of Act IV (B C.) of 1876:—

Whereas it is expedient for the management and conduct of business in the New Municipal Market to regulate the service of coolies working for hire in and around this market; the following additional bye-laws are made under section 340 (*f*) of the Municipal Act:—

17 (*a*). With the exception specified below, no person shall on or after the 1st June 1886 work for hire as bazar cooly within the limits of the New Municipal Market, who is not duly licensed for this purpose by the Commissioners, or by such officers as they may authorise to grant licenses to bazar coolies.

17 (*b*). A register of licensed coolies shall be kept up in the office of the Market Superintendent, which shall be open to the inspection of any member of the Market Committee, during office hours, on all days except Sundays and close holidays.

17 (*c*). A licensed cooly shall wear a badge and such other distinctive dress as shall enable every person frequenting the market to know that he is licensed, and shall wear on his arm or in some other conspicuous place, a number corresponding with his number in the register of licensed coolies.

17 (*d*). No person other than a licensed cooly shall wear the badge, distinctive dress or number indicated in the preceding rule.

17 (*e*). Licensed coolies shall be charged such sum for the badge and other distinctive dress referred to above as the Market Committee shall from time to time prescribe.

17 (*f*). Sirdars shall be appointed to preserve order and discipline among the licensed coolies, and prevent their harrassing the public, and shall be remunerated by salaries met by contributions to be paid by the coolies monthly as a condition of the continuance of their license: Provided that not more than one sirdar shall be appointed to 25 licensed coolies.

The contributions shall be such sum, not exceeding six annas per mensem, as may from time to time be fixed by the Market Committee.

17 (*g*). These rules shall not apply to private servants employed by persons frequenting the market to carry purchases made by them.

18. The Market Committee may, for special reasons to be recorded by them, refuse to allow any particular persons to act as private cooly if they think that the employment of such person within the limits of the market is inexpedient.

ROBERT TURNBULL, Secretary to the Corporation.
Calcutta, the 21st August 1886. (1609—3)

THE following modified Bye-Law, No. 18 of the Bye-Laws framed under section 24, clause 1 of Act I (B C.) of 1880, confirmed by the Lieutenant-Governor, is published for general information:—

Every car running after sunset shall carry two bright lights: one in front of the car and one at the back, and the horses shall also be provided with bells. The penalty for infringement of the rule either by the driver or conductor shall be a fine not exceeding Rs. 20.

ROBERT TURNBULL, Secretary to the Corporation.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT

[Third publication.]

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 11th August, 1886:—

No. 16 of 1886.

A Bill to prescribe the mode of valuing certain suits for the purpose of determining the jurisdiction of Courts with respect thereto.

WHEREAS it is expedient to prescribe the mode of valuing certain suits for the purpose of determining the jurisdiction of Courts with respect thereto; It is hereby enacted as follows:—

Short title, local extent and commencement.

1. (*1*) This Act may be called the Suits Valuation Act, 1886; and

(*2*) It shall extend to such local areas, and come into force therein on such dates, as the Governor-General in Council, by notification in the Gazette of India, from time to time directs.

Power for Local Government to make rules to determine value of land for purposes of jurisdiction.

2. (*1*) The Local Government may from time to time, with the previous sanction of the Governor-General in Council, make rules for determining the value of land for purposes of jurisdiction in the suits mentioned in the Court-fees Act, 1870, section 7, paragraphs v and vi, and paragraph x, clause (*d*). VII of 1870.

(*2*) The rules may determine the value of any class of land, or of any interest in land, in the whole or any part of the local area in which this Act is in force in the territories under the administration of the Local Government, and the value so determined may vary from place to place within the local area or part thereof to which the rules apply.

Value of relief sought in certain suits not to exceed value of the land to which those suits relate.

3. Where a suit mentioned in paragraph iv of section 7, or in article 17 of Schedule II, of the Court-fees Act, 1870, relates to land or an interest in land, the amount at which for purposes of jurisdiction the relief sought in the suit is valued shall not exceed the value of the land or interest to which the suit relates as determined by the rules made under the last foregoing section. VII of 1870.

Ad valorem court-fee value in other suits to be value for purposes of jurisdiction.

4. Where in suits other than those referred to in sections 2 and 3 court-fees are payable *ad valorem* under the Court-fees Act, 1870, the value as determinable for the computation of court-fees shall be the value for purposes of jurisdiction. VII of 1870.

Procedure where objection is taken on appeal that suit was not properly valued for purposes of jurisdiction.

5. (*1*) The objection that a suit was not properly valued for purposes of jurisdiction shall not be entertained by an appellate Court unless the objection was taken in the Court of first instance. [Act XII of 1881, s. 206.]

(*2*) If the objection was taken in the Court of first instance but the appellate Court has before it the materials necessary for the determination of the suit, it shall dispose of the appeal as if the suit had been instituted in the proper Court. [Act XII of 1881, s. 207.]

(*3*) If the appellate Court has not those materials before it, it shall proceed under the rules applicable to it with respect to the hearing of appeals; but if it remands the suit, or frames and refers issues for trial, or requires additional evidence to be taken, it may direct its order either to the Court prescribed in that behalf in those rules or to any Court competent, in its opinion, to entertain the suit; and the objection that the order of the appellate Court was directed to a Court which was not competent to entertain the suit shall not be taken on further appeal. [Act XII of 1881, s. 208.]

(*4*) Nothing in this section shall be construed to affect the provisions of section 28 of the Court-fees Act, 1870. VII of 1870.

Repeal of section 14 of the Madras Civil Courts Act, 1873.

6. On and from the date on which rules under this Act take effect in any part of the territories under the administration of the Governor of Fort Saint George in Council to which the Madras Civil Courts Act, 1873, extends, section 14 of that Act shall be repealed as regards that part: III of 1873.

Provided that the repeal of that section shall not affect the jurisdiction of any Court with respect to any suit instituted in that part before the rules take effect therein.

Time and procedure for making rules.

7. (*1*) Rules may be made under this Act at any time after the passing thereof.

(2) A Local Government shall, before making rules under this Act, consult the High Court with respect thereto and publish a draft of the proposed rules in the official Gazette.

(3) There shall be published with the draft a notice specifying a date at or after which the draft will be taken into consideration.

(4) The Local Government shall receive and consider any objection or suggestion which may be made by any person with respect to the draft before the date so specified.

(5) A rule made under this Act shall not take effect before the Act has come into force in the local area for which the rule has been made or till the expiration of one month after the rule has been published in the local official Gazette.

(6) The publication in the Gazette of a rule purporting to be made under this Act shall be conclusive proof that it has been made as required by this section.

STATEMENT OF OBJECTS AND REASONS.

THE principal object of this Bill is to prescribe a simple mode of valuing suits relating to land for the purpose of determining the jurisdiction of the Courts with respect to them. Most of those suits are of course cognizable exclusively by Civil Courts, but some of them, as for instance, suits in the Punjab under section 9 of the Specific Relief Act, may be tried by Revenue Courts.

2. It has been brought to the notice of the Government that, while the Civil Courts Acts of the several Provinces, with the exception of that in force in the Presidency of Madras, prescribe no special rules for fixing the value for jurisdiction of the subject-matter of land-suits, but simply define the limit of the jurisdiction of each grade of Court by the money-value of the subject-matter in suit, thus leaving the market-value to be the strictly legal criterion, a practice has sprung up, generally in the inferior Courts, of accepting, in the absence of any express provision of law to the contrary, the court-fee valuation as laid down in section 7, paragraph v, of Act VII of 1870, for purposes of jurisdiction also.

3. The generally admitted result is that land-suits are undervalued and disposed of by Courts not strictly competent to try them. In order to remedy this state of things the present Bill has been prepared. It empowers (section 2) the Local Government to frame rules, subject to the sanction of the Governor-General in Council, for determining the value of land in the territories under its administration for purposes of jurisdiction in the suits mentioned in section 7, paragraphs v and vi, and paragraph x, clause (*d*), of the Court-fees Act, 1870, namely, suits for possession of land, to enforce a right of pre-emption, and for specific performance of an award relating to land. These rules are to be made after consultation with the High Court; and the Bill provides (section 7) a procedure for the publication of proposed rules, so that the Courts and the public may have an opportunity of preferring any objections which they may have to them before the rules are made. The Bill further declares (section 3) that where a suit mentioned in paragraph iv of section 7, or article 17 of Schedule II, of the Court-fees Act, relates to land, the amount at which for purposes of jurisdiction the relief sought in the suit is valued shall not exceed the value of the land to which the suit relates as determined by the rules under the Act.

4. In addition to the foregoing provisions, which relate exclusively to land-suits, section 4 provides that in other suits in which court-fees are payable *ad valorem*, the value for purposes of jurisdiction shall be estimated in accordance with the rules which regulate the value for court-fee purposes.

5. Section 5 of the Bill is taken from sections 206-208 of the North-Western Provinces Rent Act, 1881, and has been inserted at the suggestion of Sir Charles Turner, late Chief Justice of Madras. It lays down a special procedure for cases in which the objection that a suit was not properly valued for purposes of jurisdiction is taken in an appellate Court, an objection which the Bill declares may not be entertained unless it was taken in the Court of first instance.

6. Lastly, the Bill (section 6) repeals section 14 of the Madras Civil Courts Act, 1873, which enacts the rule of valuation which it is the object of this Bill to abolish, namely, the valuation for jurisdiction in the case of land-suits shall be in accordance with the court-fee valuation prescribed by section 7, paragraph v, of the Court-fees Act, 1870. In order, however, to prevent hardship or inconvenience to suitors, it is provided that this repeal shall not affect any suit instituted before the rules under the proposed Act take effect.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Third publication.]

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 11th August, 1886 :—

NO. 17 OF 1886.

A Bill to amend the Indian Evidence Act, 1872.

WHEREAS it is expedient that Revenue-officers should not be compelled to say whence they obtain information with respect to offences against the public revenue ; It is hereby enacted as follows :—

New section substituted for section 125 of the Evidence Act.

1. The following section shall be substituted for section 125 of the Indian Evidence Act, 1872, namely :— I of 1872.

Information as to commission of offences.

"125. (*1*) No Magistrate, Police-officer or Revenue-officer shall be compelled to say whence he got any information as to the commission of any offence.

(*2*) 'Revenue-officer' in this section means any officer employed in or about the business of any branch of the public revenue." [Act X, 1876 s. 3.]

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to prevent officers of any department concerned with any branch of the public revenue from being compelled to say whence they got any information as to the commission of any offence.

In England not only is it the case that witnesses may not be compelled to disclose, but they are not even permitted to be asked, the names of those from whom they receive information as to frauds on the revenue (*Russell on Crimes and Misdemeanours*, Fifth Edition, III, 553). The law on the subject is further stated in Bell's *Laws of Excise* as follows :—

"It is a rule of evidence applicable to criminal cases, and the same rule has always been held to apply to penal informations at the suit of the revenue, that a witness is not permitted to disclose privileged communications brought to his knowledge for the furtherance of justice. 'This is not the privilege of the witness, but may be justly called a public privilege, and is observed on a principle of public policy and from regard to public interests' (1 *Phil. Ev.* 272). Hence 'those questions which tend to the discovery of the channels by which the disclosure was made to the officers of justice, are not permitted to be asked' (*Rex* v. *Hardy*, 24 Howell's S. T. 753—Eyre, L. C. J.). 'If the name of the informer were to be disclosed, no man would make a discovery, and public justice would be defeated' (*Id.*, p. 814—Buller, J.). In the case of *Attorney-General* v. *Bryant* it was held that a witness for the Crown could not be asked 'Did you give the information?' (15 M. & W. 169)."

It cannot be ascertained from the records of the Legislative Department why the English law with respect to the disclosure by Revenue-officers of the source of information as to the commission of offences against the revenue was not incorporated in the Indian Evidence Act, 1872. The omission has caused much inconvenience, and is even said to be seriously impairing the efficiency of the Excise and Salt Departments in the Presidency of Bombay.

A Bill to consolidate and amend the law relating to Native Passenger Ships.

WHEREAS it is expedient to consolidate and amend the law relating to native passenger ships; It is hereby enacted as follows:—

CHAPTER I.

PRELIMINARY.

1. This Act may be called the Native Passenger Ships Act, 1856. Short title.

[Act VIII, 1876, s. 2.] Extent and application.

2. (*1*) It extends to the whole of British India, and applies—

(*a*) to all subjects of Her Majesty within the dominions of Princes and States in India in alliance with Her Majesty;

(*b*) to all native Indian subjects of Her Majesty without and beyond British India; and,

(*c*) subject to the exceptions mentioned in sub-section (*2*), to vessels carrying more than thirty passengers being natives of Asia or Africa.

(*2*) But it does not apply—

(i) to any ship-of-war or transport belonging to, or in the service of, Her Majesty, or

(ii) to any ship-of-war belonging to any Foreign Prince or State, or

(iii) to any sailing-vessel not carrying as passengers more than thirty natives of Asia or Africa, or

(iv) to any steamer not carrying as passengers more than sixty such natives, or

(v) to any sailing-vessel or steamer not intended to convey passengers to or from any port in British India.

Provided, with respect to clauses (iii) and (iv) of this sub-section, that the Local Government may with the previous sanction of the Governor-General in Council, declare all or any of the provisions of this Act to apply to sailing-vessels, or any class of sailing-vessels, carrying as passengers more than fifteen natives of Asia or Africa, and to steamers, or any class of steamers, carrying as passengers more than thirty such natives. [New.]

[Act VIII, 1876, s. 3.] Commencement.

3. This Act shall come into force on such day as the Governor-General in Council, by notification in the *Gazette of India* appoints.

[Act VIII, 1876, s. 4.] Repeal.

4. (*1*) On and from that day the enactments mentioned in the schedule to this Act shall be repealed to the extent specified in the third column thereof.

(*2*) But all ports, places and officers appointed, rules, declarations and exemptions made, bonds executed, directions given and certificates granted under any of those enactments shall, so far as may be, be deemed to be respectively appointed, made, executed, given and granted under this Act; and

(*3*) Any enactment or document referring to any enactment hereby repealed shall be construed to refer to this Act or to the corresponding portion thereof.

[Act VIII, 1876, s. 5.] Definitions.

5. In this Act, unless there is something repugnant in the subject or context,—

(*1*) "Magistrate" means a person exercising powers not inferior to those of a Magistrate of the second class, and includes a Justice of the Peace and, at the Port of Aden, the Resident or an Assistant Resident:

(*2*) "ship" includes every description of vessel used in navigation not propelled by oars:

(*3*) "master" includes every person (other than a pilot) having command or charge of a ship:

(*4*) "passenger" means a person above the age of twelve years, or two persons between the ages of one year and twelve years; but it does not include either a person in attendance on another person who is not a native of Asia or Africa, or a child under one year of age:

(*5*) "voyage" means the whole distance between the ship's port of departure and her final port of arrival:

(*6*) "long voyage" means any voyage during which the ship performing it will in ordinary circumstances be one hundred and twenty hours or upwards continuously out of port:

(*7*) "short voyage" means any voyage during which the ship performing it will not in ordinary circumstances be one hundred and twenty hours continuously out of port:

Illustration.

A ship starts from port A, and is destined finally to arrive at port B, between which ports the ordinary distance is ten days: but she is to touch at four intermediate ports, no one of which is in ordinary circumstances more than five days from the next one. This is a short voyage.

(*8*) "Chief Officer of Customs" means the executive officer of highest rank in the Department of Customs in any port to which this Act applies.

CHAPTER II.

RULES FOR ALL VOYAGES.

[Act VIII, 1876, s. 6.] **Ships to sail only from ports appointed by the Government.**

6. (*1*) A ship carrying passengers shall not depart or proceed from, or discharge passengers at, any port or place within British India other than a port or place appointed in this behalf by the Local Government.

(*2*) After a ship has departed or proceeded upon a voyage from a port or place so appointed, a person shall not be received on board as a passenger except at some other port or place so appointed.

[Act VIII, 1876, s. 7.] **Master to give notice of day of sailing.**

7. (*1*) The master, owner or agent of a ship so departing or proceeding shall give notice to an officer authorised in this behalf by the Local Government that the ship is to carry native passengers, and of her destination, and of the proposed time of sailing.

(*2*) The notice shall be given not less than twenty-four hours before that time.

[Act VIII, 1876, s. 8.] **Power to enter and inspect ship.**

8. After receiving the notice, the officer aforesaid, or a person authorized by him, shall be at liberty at all times to enter and inspect the ship and the fittings, provisions and stores therein.

[Act VIII, 1876, s. 9.] **Ship not to sail without two certificates.**

9. (*1*) A ship intended to carry passengers shall not commence a voyage from a port or place appointed under this Act, unless the master holds two certificates to the effect mentioned in the two next following sections.

(*2*) The officer of the Government whose duty it is to grant a port-clearance for the ship shall not grant it unless the master holds those certificates.

[Act VIII, 1876, s. 10.] **Contents of certificate A.**

10. The first of the certificates (hereinafter called "certificate A") shall state that the ship is seaworthy and properly equipped, fitted and ventilated, and the number of passengers which she is capable of carrying.

[Act VIII, 1876, s. 11.] **Contents of certificate B**

11. The second of the certificates (hereinafter called "certificate B") shall state—

(*a*) the voyage which the ship is to make and the intermediate ports, if any, at which she is to touch;

(*b*) that she has the proper complement of officers and seamen;

(*c*) that provisions, fuel and pure water, over and above what is necessary for the crew, and the other things, if any, prescribed for the ship by the rules under this Act, have been placed on board, of the quality prescribed by the rules, properly packed, and sufficient to supply the passengers on board during the voyage which the ship is to make (including such detention in quarantine as may be probable), according to the scale for the time being prescribed by those rules; [New.]

(*d*) that the master holds certificate A;

(*e*) if the ship is to make a short voyage in a season of foul weather, and to carry upper-deck passengers, that she is furnished with substantial bulwarks and a double awning or with other sufficient protection against the weather;

(*f*) if she is to sail to any port in the Red Sea, that she is propelled principally by steam and, if she is to carry more than one hundred passengers being natives of Asia or Africa, that she has on board a medical officer licensed in accordance with the rules under this Act; and [Act XVII, 1883, s. 2.]

(*g*) such other particulars, if any, as may be prescribed by those rules.

[Act VIII, 1876, s. 12.] **Grant of certificates.**

12. The person by whom certificate A and certificate B are to be granted shall be the officer referred to in section 7.

[Act VIII, 1876, s. 13.] **Substitute for certificate A.**

13. Where the master of a ship produces to that officer either of the following certificates, namely—

(*a*) a valid certificate granted by the Board of Trade or by a British Colonial Government, or

(*b*) a certificate granted under the authority of a British Indian Government on a date not more than one year before the proposed day of sailing and in force and applicable to the voyage on which the ship is to proceed or the service on which she is about to be employed, [Act VII, 1884, s. 41.]

the officer may, if the particulars required by section 10 are certified thereby, take the certificate as evidence of those particulars, and it shall then be deemed to be a certificate A for the purposes of this Act.

[Act VIII, 1876, s. 14.] **Survey of ship.**

14. (*1*) After receiving the notice required by section 7, the officer aforesaid may, if he thinks fit, cause the ship to be surveyed at the expense of the master or owner by competent surveyors, who shall report to him whether the ship is, in their opinion, seaworthy and properly equipped, fitted and ventilated for the voyage which she is to make:

Provided that he shall not cause a ship holding a certificate mentioned in section 13, clause (*a*) or clause (*b*), to be surveyed unless, by reason of the ship having met with damage or having undergone alterations, or on other reasonable ground, he considers it likely that she may be found unseaworthy or not properly equipped, fitted or ventilated for the voyage.

(*2*) If the officer aforesaid causes a survey to be made of a ship holding any such certificate, and the surveyors report that the ship is seaworthy and properly equipped, fitted and ventilated for the voyage, and that there was no reasonable ground why the officer aforesaid should have thought it likely that she would be found unseaworthy, or not properly equipped, fitted or ventilated for the voyage, the expense of the survey shall be paid by the Local Government.

[Act VIII, 1876, s. 15.] **Discretion as to grant of certificate.**

15. (*1*) The officer authorized to grant a certificate under this Act in respect of a ship shall not grant it unless he is satisfied that she has not on board any cargo likely from its quality, quantity or mode of stowage to prejudice the health or safety of the passengers.

The Native Passenger Ships Bill, 1886.
(Chapter II.—Rules for all Voyages.—Sections 16-17.—Chapter III.—Rules for short Voyages.—Sections 18-20.—Chapter IV.—Rules for long Voyages.—Sections 21-23.)

(2) But save as aforesaid, and subject to the provisions of sub-section (3), it shall be in the discretion of the officer aforesaid to grant or withhold a certificate under this Act.

[Act VIII, 1876, s. 16.] (3) In the exercise of that discretion that officer shall be subject to the control of the Local Government, and of any intermediate authority which that Government appoints in this behalf.

[Act VIII, 1876, s. 17.] Copy of certificates to be exhibited.

16. The master or owner shall post up in a conspicuous part of the ship, so as to be visible to persons on board thereof, a copy of each of the certificates granted under this Act in respect of the ship, and shall keep those copies so posted up in that part during the voyage.

[Act VIII, 1876, s. 18, amended.] Supply by passengers of their own provisions.

17. If an officer appointed in this behalf by the Local Government is satisfied that a passenger has brought on board a ship for his own use provisions of the quality and in the quantity for the time being prescribed by the rules under this Act, the requirements of this Act respecting the supply of provisions for passengers shall not, except as to the supply of water, apply so far as regards the supply of provisions for that passenger.

CHAPTER III.

RULES FOR SHORT VOYAGES.

[Act VIII, 1876, s. 19.] Space to be available for passengers.

18. (1) For seasons of fair weather, a ship performing a short voyage shall contain in the between-decks at least six superficial feet and thirty-six cubic feet of space available for every between-decks passenger, and shall contain on the upper-deck at least four superficial feet available for each such passenger and six superficial feet available for each upper-deck passenger.

(2) For seasons of foul weather, a ship propelled by sails and performing a short voyage shall contain in the between-decks at least twelve superficial feet and seventy-two cubic feet of space available for every between-decks passenger, and shall contain on the upper-deck at least four superficial feet available for each such passenger and twelve superficial feet available for each upper-deck passenger.

(3) For seasons of foul weather, a ship propelled by steam, or partly by steam and partly by sails, and performing a short voyage, shall contain in the between-decks at least nine superficial feet and fifty-four cubic feet of space available for every between-decks passenger, and shall contain on the upper-deck at least four superficial feet available for each such passenger and nine superficial feet available for each upper-deck passenger.

(4) But in seasons of foul weather a ship shall not carry upper-deck passengers unless she is furnished with substantial bulwarks and a double awning or with other sufficient protection against the weather.

[Act VIII, 1876, s. 20.] Ship taking additional passengers at intermediate port.

19. If a ship performing a short voyage takes additional passengers on board at an intermediate port or place, the master shall obtain a supplementary certificate from the proper officer at that port, stating—

(*a*) the number of passengers so taken on board; and

(*b*) that provisions, fuel and pure water, over and above what is necessary for the crew, and the other things, if any, prescribed for the ship by the rules under this Act, have been placed on board, of the quality prescribed by the rules, properly packed, and sufficient to supply the passengers on board during the voyage which the ship is to make (including such detention in quarantine as may be probable), according to the scale for the time being prescribed by those rules:

Provided that, if the certificate B held by the master of the ship states that provisions, fuel and pure water, over and above what is necessary for the crew, and the other things, if any, prescribed for her by the rules under this Act, have been placed on board, of the quality prescribed by the rules, properly packed, and sufficient to supply the full number of passengers which she is capable of carrying, the master shall not be bound to obtain any such supplementary certificate.

[Act VIII, 1876, s. 21.] Report of deaths on the voyage.

20. When the ship reaches her final port of arrival, the master shall notify, to such officer as the Governor-General in Council appoints in this behalf, the date and supposed cause of death of every passenger dying on the voyage.

CHAPTER IV.

RULES FOR LONG VOYAGES.

[Act VIII, 1876, s. 22.] Space to be available for passengers.

21. (1) A ship propelled by sails and performing a long voyage shall contain in the between-decks at least twelve superficial feet and seventy-two cubic feet of space available for every passenger.

(2) A ship propelled by steam, or partly by steam and partly by sails, and performing a long voyage, shall contain in the between-decks at least nine superficial feet and fifty-four cubic feet of space available for every passenger.

[Act VIII, 1876, s. 23.] Statement of passengers

22. The master of a ship departing or proceeding on a long voyage from any port or place in British India shall sign two statements, specifying the number and the respective sexes of all the passengers and the number of the crew, and shall deliver them to the officer appointed under section 20, who shall thereupon, after having first satisfied himself that the numbers are correct, countersign and return to the master one of the statements.

[Act VIII, 1876, s. 24.] Deaths on voyage.

23. The master shall note in writing on the statement returned to him, and on any additional statement to be made under the next following section, the date and supposed cause of death of any passenger who may die on the voyage, and shall forthwith on the arrival of the ship at her destination or at any port at which it may be intended to land passengers, and before any passengers are landed, produce the statement, with any additions thereto made, to any person lawfully exercising consular authority on behalf of Her Majesty at the port of

The Native Passenger Ships Bill, 1886.

(Chapter IV.—Rules for long Voyages.—Sections 24-30.—Chapter V.—Penalties.—Sections 31-33.)

arrival if it is a foreign port, or to the Chief Officer of Customs, or the officer (if any) appointed under this Act to receive such statements, at any port or place at which it is intended to land the passengers or any of them.

[Act VIII, 1876, s. 25.]

Ship taking additional passengers and touching at intermediate port.

24. (*1*) In either of the following cases, namely,—

(*a*) if, after the ship has departed or proceeded on a long voyage, any additional passengers are taken on board at a port or place within British India appointed under this Act for the embarkation of passengers, or

(*b*) if the ship upon her voyage touches or arrives at any such port, having previously received on board additional passengers at any place beyond British India,

the master shall obtain a fresh certificate to the effect of certificate B from the proper officer at that port, and shall make additional statements specifying the number and the respective sexes of all the additional passengers.

(*2*) All the foregoing provisions of this Act in that behalf shall be applicable to any certificate granted or statement made under this section.

[Act XVII, 1883, s. 3.]

Bond where ship clears for port in Red Sea.

25. In the case of a ship sailing from any port in British India to any port in the Red Sea, the officer whose duty it is to grant a port-clearance for any such ship shall not grant the clearance unless and until the master, owner or agent of the ship and two sureties resident in British India have executed in favour of the Secretary of State for India in Council a joint and several bond, for the sum of Rs. 5,000, conditioned—

(*a*) that the ship shall touch at Aden on the outward voyage and there obtain a clean bill of health, and shall do the same on the homeward voyage if the ship continues to carry more than sixty passengers; and

(*b*) that the master and medical officer (if any) of the ship shall comply with on the outward voyage, and also on the homeward voyage if the ship continues to carry more than sixty passengers, the provisions of this Act and of such rules relating to ships sailing between ports in British India and ports in the Red Sea as the Governor-General in Council may make under this Act.

[Act VIII, 1876, s. 27, & Act XVII, 1883, s. 4.]

Ships sailing to or from port in Red Sea to touch at Aden.

26. A ship carrying more than sixty passengers being natives of Asia or Africa, and sailing from any port in British India to any port in the Red Sea, or from any port in the Red Sea to any port in British India, shall touch at Aden, and shall not leave that port without having obtained from the proper authority a clean bill of health.

[Act VIII, 1876, s. 28, & Act XVIII, 1883, s. 5.]

Bill of health at Aden.

27. The authority at Aden empowered to grant the bill of health shall refuse to grant it if the ship has on board a greater number of passengers than in the proportion prescribed for her by this Act, and may refuse to grant it if the requirements of any rule under this Act are not complied with on board the ship.

[Act XVII, 1883, s. 6.]

Certain ships to carry medical officer.

28. A ship sailing from or to any port in British India to or from any port in the Red Sea and carrying more than one hundred passengers being natives of Asia or Africa shall have on board a medical officer licensed in accordance with the rules under this Act.

[Act XVII, 1883, s. 6.]

Certain ships to be propelled by steam.

29. A ship sailing from or to any port in British India to or from any port in the Red Sea shall be propelled principally by steam.

[Act XVII, 1883, s. 6.]

Power for Local Government to direct medical inspection of passengers.

30. (*1*) The Local Government may direct that no passenger shall be received on board any ship or any ship of a specified class sailing from any port in British India to any port in the Red Sea unless and until the passenger has been inspected, at such time and place as the Local Government may fix in this behalf, by a medical officer to be appointed by that Government for the purpose.

(*2*) If, in the opinion of the officer making an inspection under this section, a passenger is suffering from any dangerously infectious or contagious disease, the passenger shall not be permitted to embark.

CHAPTER V.

PENALTIES.

[Act VIII, 1876, s. 29.]

Penalty for ship unlawfully departing or receiving passengers on board.

31. If a ship departs or proceeds upon a voyage from, or discharges passengers at, any port or place within British India in contravention of the provisions of section 6, sub-section (*1*), or section 9, or if a person is received as a passenger on board a ship in contravention of the provisions of section 6, sub-section (*2*), the master or owner shall, for every passenger conveyed in the ship, or for every passenger so discharged or received on board, be punished with fine which may extend to one hundred rupees, or with imprisonment for a term which may extend to one month, or with both, and the ship, if found within two years in any port within British India, may be seized and detained by any Chief Officer of Customs until the penalties incurred under this Act by her master or owner have been adjudicated, and the payment of the fines imposed on him under this Act, with all costs, has been enforced, under the provisions of this Act:

[New.]

Provided that the aggregate term of imprisonment awarded under this section shall not exceed one year.

[Act VIII, 1876, s. 30.]

Penalty for opposing entry on or inspection of ships.

32. If a person impedes or refuses to allow the entry or inspection authorized under this Act, he shall be punished with fine which may extend to five hundred rupees for each offence, or with imprisonment for a term which may extend to three months, or with both.

[Act VIII, 1876, s. 31.]

Penalty for not exhibiting copy of certificates.

33. If a master or owner wilfully fails to comply with the requirements of section 16 with respect to the posting of copies of certificates, he shall be punished with fine which may extend to two hundred rupees, or with imprisonment for a term which may extend to one month, or with both.

The Native Passenger Ships Bill, 1886.
(Chapter V.—Penalties.—Sections 34-44.)

[Act VIII, 1876, s. 32.]

Penalty for not complying with requirements as to statement of passengers and certain other matters.

34. If a master fails to comply with any of the requirements of section 22 or section 23, as to the statement of passengers, or wilfully makes any false entry or note in or on any such statement, or wilfully fails to obtain any such supplementary certificate as is mentioned in section 19, or to report deaths as required by section 20, or to obtain any such fresh certificate, or to make any such statement of the number of additional passengers, as is mentioned in section 24, he shall be punished with fine which may extend to five hundred rupees for every such offence, or with imprisonment for a term which may extend to three months, or with both.

[Act VIII, 1876, s. 33.]

Penalty for fraudulent alteration in ship after certificate obtained.

35. If a master, after having obtained any of the certificates mentioned in section 9, section 19 or section 24, fraudulently does or suffers to be done anything whereby the certificate becomes inapplicable to the altered state of the ship, her passengers, or other matters to which the certificate relates, he shall be punished with fine which may extend to two thousand rupees, or with imprisonment for a term which may extend to six months, or with both.

[Act VIII, 1876, s. 34.]

Penalty for failing to supply passengers with prescribed provisions.

36. If a master wilfully, and without satisfactory excuse, omits to supply to any passenger the allowance of food, fuel and water prescribed by the rules under this Act, he shall be punished with fine which may extend to twenty rupees for every passenger who has sustained detriment by the omission.

[Act VIII, 1876, s. 35.]

Penalty for not obtaining bill of health at Aden.

37. If the master of a ship to which section 26 applies wilfully fails to touch at Aden, or leaves that port without having obtained a bill of health under that section, he shall, for every such offence, be punished with fine which may extend to two thousand rupees, or with imprisonment for a term which may extend to six months, or with both.

[Act VIII, 1876, s. 36.]

Penalty for excess of number specified in certificate.

38. (*1*) If a ship has on board a number of passengers which, regard being had to the time of the year and other circumstances, is greater than the number allowed by the certificate, or, on arriving from a port where a certificate could not be procured, has on board a number of passengers exceeding the number allowed by this Act for the ship, the master and owner shall, for every passenger over and above the number allowed by the certificate or by this Act, as the case may be, be each punished with fine which may extend to twenty rupees, and the master shall further be liable for each of the passengers over and above that number to imprisonment for a term which may extend to one week:

Provided that the aggregate term of imprisonment awarded under this section shall not exceed six months.

(*2*) Any officer authorized in this behalf by the Local Government may cause all passengers over and above the number allowed by the certificate or by this Act, as the case may be, to disembark, and may forward them to any port of British India, and may recover the cost of so forwarding them from the master or owner of the ship as if the cost was a fine imposed under this Act, and a certificate under the hand of that officer shall be conclusive proof of the amount of the cost aforesaid.

[Act VIII, 1876, s. 37.]

Penalty for bringing native passengers from foreign port in excess of authorized proportion.

39. If a ship bringing native passengers from any port or place beyond British India, into any port or place in British India, has on board a number of passengers greater either than in the proportion prescribed by section 18 or section 21 or under section 57 (as the case may be) or than the number allowed by the license or certificate, if any, granted in respect of the ship at her port or place of departure, the master and owner shall, for every passenger in excess of that proportion or of that number, be each punished with fine which may extend to twenty rupees.

[Act VIII, 1876 s. 38.]

Penalty for landing passenger at a place other than that at which he has contracted to land.

40. If the master of a ship to which this Act applies lands any passenger at any port or place other than the port or place at which the passenger may have contracted to land, unless with his previous consent, or unless the landing is made necessary by perils of the sea or other unavoidable accident, the master shall, for every such offence, be punished with fine which may extend to two hundred rupees, or with imprisonment for a term which may extend to a month, or with both.

[New.]

Penalty for making voyage in contravention of contract with passengers.

41. If a ship, otherwise than by reason of perils of the sea or other unavoidable accident, touches at any port or place in contravention of any express or implied contract or engagement with the passengers, or assurance to them, with respect to the voyage which the ship was to make and the time which that voyage was to occupy, whether the contract, engagement or assurance was made by public advertisement or otherwise, the master and owner shall each be punished with fine which may extend to five hundred rupees, or with imprisonment for a term which may extend to three months, or with both.

[Act XVII, 1883, s. 7.]

Penalty on master or medical officer of certain ships disobeying rules.

42. If the master or medical officer of any such ship as is referred to in section 26 wilfully breaks, or omits or neglects to obey, any rule under this Act applicable to the ship, he shall be punished with fine which may extend to five hundred rupees, or with imprisonment for a term which may extend to three months, or with both.

[Act XVII, 1883, s. 7.]

Penalty on master of certain ships sailing without medical officer.

43. If a ship sailing from or to any port in British India to or from any port in the Red Sea and carrying more than one hundred passengers has not on board a medical officer as required by section 28, the master of the ship shall be punished with fine which may extend to five hundred rupees, or with imprisonment for a term which may extend to three months, or with both.

[Act XVII, 1883, s. 7.]

Penalty on master and owner of certain ships not propelled by steam.

44. If a ship sailing from or to any port in British India to or from any port in the Red Sea is not principally propelled by steam, the master and owner shall each be punished with fine which may extend to five hundred rupees, or with imprisonment which may extend to three months, or with both.

The Native Passenger Ships Bill, 1886.
(Chapter V.—Penalties.—Sections 45—50.—Chapter VI.—Supplemental Provisions.—Sections 51-53)

[Act XVII, 1883, s. 7.]

Penalty on master receiving passenger in contravention of section 30.

45. If the master of a ship to which a direction under section 30 applies knowingly receives on board the ship any person in contravention of that section, he shall be punished with fine which may extend to five hundred rupees for each person so received, or with imprisonment which may extend to three months, or with both.

Procedure.

[Act VIII, 1876, s. 39.]

Adjudication of offences, and levy of fine by distress on ship.

46. (*1*) Offences against this Act shall be punishable by a Magistrate.

(*2*) If the person on whom a fine is imposed under this Act is the master or owner of a ship and the fine is not paid at the time and in the manner prescribed by the order of payment, the Magistrate may, in addition to the ordinary means prescribed by law for enforcing payment, direct by warrant the amount remaining unpaid to be levied by distress and sale of the ship, her tackle, furniture and apparel.

[Act VIII, 1876, s. 40.]

Jurisdiction

47. For the purpose of the adjudication of penalties under this Act, every offence against its provisions shall be deemed to have been committed within the limits of the jurisdiction of the Magistrate of the place where the offender is found.

[Act VIII, 1876, s. 41.]

By whom proceedings for penalties to be instituted.

48. The penalties to which masters and owners of ships are made liable by this Act shall be enforced only on information laid at the instance of the officers appointed to grant certificates under this Act, or, at any port or place where there is no such officer, at the instance of the Chief Officer of Customs.

[Act VIII, 1876, s. 42.]

Application of fines.

49. A Magistrate imposing a fine under this Act may, if he thinks fit, direct the whole or any part thereof to be applied in compensating any person for any detriment which he may have sustained by the act or default in respect of which the fine is imposed or in or towards payment of the expenses of the proceedings.

[Act VIII, 1876, s. 43.]

Depositions receivable when witnesses cannot be produced.

50. (*1*) Whenever, in the course of any legal proceeding under this Act, the testimony of a witness is required in relation to the subject-matter of the proceeding, any deposition that he may have previously made in relation to the same subject-matter before any Justice or Magistrate in Her Majesty's dominions (including all parts of India other than those subject to the same Local Government as the port or place where the proceeding is instituted), or before any British consular officer elsewhere, shall be admissible in evidence on proof that the witness cannot be found within the jurisdiction of the Court in which the proceeding is instituted :

Provided that the deposition shall not be admissible unless—

(*a*) it is authenticated by the signature of the Justice, Magistrate or consular officer ;

(*b*) it was made in the presence of the person accused ; and

(*c*) the fact that it was so made is certified by the Justice, Magistrate or consular officer.

(*2*) It shall not be necessary in any case to prove the signature or official character of the person appearing to have signed any such deposition ; and in any criminal proceeding, such certificate as aforesaid shall, unless the contrary is proved, be sufficient evidence of the accused having been present in manner thereby certified.

CHAPTER VI.

SUPPLEMENTAL PROVISIONS.

[Act VIII, 1876, s. 44.]

Information to be sent to ports of embarkation.

51. (*1*) The Chief Officer of Customs, or the officer, if any, appointed under this Act, at any port or place within British India at which any ship to which this Act applies touches or arrives, shall, with advertence to the provisions of this Act, send any particulars which he may deem important respecting the ship and the passengers conveyed therein to the officer at the port from which the ship commenced her voyage, and to the officer at any other port within British India where the passengers or any of them embarked.

(*2*) Any officer appointed under this Act may, at any port or place in British India at which a ship to which this Act applies touches, board the ship and inspect her in order to ascertain whether the provisions of this Act as to the number of passengers and other matters have been complied with.

[Act VIII, 1876, s. 45.]

Report of Consul.

52. In any proceeding for the adjudication of any penalty incurred under this Act, any document purporting to be a report of such particulars as aforesaid or a copy of the proceedings of any Court of Justice duly authenticated, and also any like document purporting to be made and signed by any person lawfully exercising consular authority on behalf of Her Majesty in any foreign port, shall be received in evidence, if it appears to have been officially transmitted to any officer at or near the place where the proceeding under this Act is had.

[Act VIII, 1876, s. 46.]

Power for Governor-General in Council and Local Government to make rules.

53. (*1*) The Governor-General in Council may make rules consistent with this Act, to regulate, in the case of any ship or class of ships to which this Act applies, all or any of the following matters :—

(*a*) the scale on which provisions, fuel and water are to be supplied to the passengers or to any class or classes of passengers, and the quality of the provisions, fuel and water ; [New.]

(*b*) the medical stores and other appliances and fittings to be provided on board for maintaining health, cleanliness and decency ;

[New.] (*2*) The Local Government may make rules consistent with this Act to regulate, in the case of any ship or class of ships to which this Act applies, the local limits within which, and the time and mode at and in which, passengers are to be embarked or discharged at any port or place appointed under this Act in that behalf.

[New.] (*3*) In making a rule under this section, the authority making it may direct that a breach of it shall be punishable with fine which may extend to two hundred rupees, and, when the breach is a continuing breach, with a further fine which may extend to twenty rupees for every day after the first during which the breach continues.

[New.] **54.** (*1*) An authority making rules under the last foregoing section shall, before making them, publish a draft of the proposed rules for the information of persons likely to be affected thereby.

Procedure for making rules.

(*2*) The publication shall be made in such manner as the Governor-General in Council, by notification in the *Gazette of India*, prescribes.

(*3*) There shall be published with the draft a notice specifying a date at or after which the draft will be taken into consideration.

(*4*) The authority making the rules shall receive and consider any objection or suggestion which may be made by any person with respect to the draft before the date so specified.

(*5*) A rule made under the last foregoing section shall not take effect if it is made by the Governor-General in Council until it has been published in the *Gazette of India*, and if it is made by the Local Government until it has been published in the local official Gazette.

(*6*) The publication in the Gazette of a rule purporting to be made under that section shall be conclusive proof that it has been duly made.

[Act VIII, 1876, s. 47.] **55.** The Local Government shall appoint such persons as it thinks fit to exercise and perform the powers and duties conferred and imposed by this Act.

Appointment of officers.

[Act VIII, 1876, s. 48.] **56.** The Governor-General in Council may declare, by notification in the *Gazette of India*, what shall be deemed to be, for the purposes of this Act, "seasons of fair weather" and "seasons of foul weather," and, for sailing vessels and steamers respectively, a "long voyage" and a "short voyage."

Power to declare what shall be deemed "seasons of fair weather" and "long voyages."

[Act VII, 1876, s. 49.] **57.** The Governor-General in Council may by order prescribe, in the case of any ship or class of ships and for all or any voyages to which this Act applies, the number of superficial or of cubic feet of space to be available for passengers; and the order shall override the provisions of sections 18 and 21 so far as they apply to that ship or class of ships.

Power to prescribe space to be available for passengers.

[Act XVII, 1883, s. 9.] **58.** The Local Government may, with the previous sanction of the Governor-General in Council, for any special reason and subject to such conditions as it thinks fit, exempt any ship or class of ships from any provision of this Act.

Power to exempt ship from provisions of Act.

[New.] **59.** All powers conferred by this Act may be exercised from time to time as occasion requires.

Powers exercisable from time to time.

SCHEDULE.

ENACTMENTS REPEALED.

(See section 4.)

Number and year.	Title.	Extent of repeal.
VIII of 1876	Native Passenger Ships Act, 1876.	The whole.
XVII of 1883	Native Passenger Ships Act, 1883.	The whole.
VII of 1884	Indian Steamships Act, 1884.	Section 41.

STATEMENT OF OBJECTS AND REASONS.

The law relating to native passenger ships is contained in three enactments, namely, the Native Passenger Ships Act, VIII of 1876, and the amending Acts, XVII of 1883 and VII of 1884. Further amendments having now become necessary, the opportunity has been taken to consolidate the law in a single measure.

2. The amendments are not numerous and will be noticed in the order in which they occur in the Bill—

(*a*) *Section 2.*—The primary object of the proviso to sub-section (*2*) of this section is to confer on the Government of Bombay the power of having certain small vessels engaged in the pilgrim-trade between Western India and the Hedjaz examined with a view to ascertaining whether or not they are seaworthy.

(*b*) *Section 11, clause* (*c*).—The corresponding section of the Act of 1876 requires certificate B to state that provisions, fuel and pure water sufficient for the voyage have been placed on board. It is now proposed to require the certificate to state that the supply is sufficient not only for the voyage but for any probable period of detention in quarantine. On one occasion at least the Government has had to undertake the maintenance of a shipload of pilgrims whose private stock of provisions had become exhausted.

(c) *Section 41.*—Cases have occurred in which pilgrims who had engaged their passages on the understanding that they would proceed direct to the Hedjaz have been taken on long coasting voyages. The deception thus practised has caused great hardship, pilgrims very frequently taking their own provisions with them (section 18, Act VIII, 1876) and very rarely taking more than is absolutely necessary for their support on the voyage which they believe themselves to have undertaken.

(d) *Section 53, sub-section (1), clause (g).*—It is proposed, following section 21 of the English Merchant Shipping Act, 1876, to empower the Governor-General in Council to require native passenger ships to be provided with means for making signals of distress and with life-saving apparatus.

(e) *Section 53, sub-section (2).*—This sub-section is designed to meet a suggestion made by Mr. T. M Cook, of the firm of Messrs. Thomas Cook & Son, that the embarkation of pilgrims in the "Roads" at Bombay during the monsoon should be forbidden, and that pilgrim-carrying ships should be required to go into dock for the purpose of receiving their passengers during that season.

(f) *Section 54.*—This section requires drafts of any rules which it is proposed to make under the Act to be published for the information of the public before the rules are made.

RESOLUTION ON THE SANITARY COMMISSIONER'S REPORT FOR 1885.

MUNICIPAL DEPARTMENT—SANITATION.

Darjeeling, the 27th August 1886.

RESOLUTION.

READ—

The Report of the Sanitary Commissioner for Bengal for the year 1885, including the Report on Vaccination in Bengal for the year 1885-86.

The Report for the previous year and the Resolution recorded upon it.

The year under report was generally unhealthy, cholera and fevers having prevailed to a greater extent than in the previous year. A characteristic feature of the year was the heavy inundations, caused by the abnormal rainfall in different parts of the Province, the registered average rainfall being 70·24 inches against 66·81 inches, the average of previous years. Referring to the effects of the inundations, the Sanitary Commissioner observes that "while on the one hand they proved a calamity by destroying and damaging the agricultural outturn wholly or partially, and by causing heavy loss of cattle, they exercised on the other hand a great power for good by diminishing sickness in the great majority of the localities in which they prevailed." The prices of food-grains, especially common rice, the staple food of the poorer classes, ranged high, and gave rise to much distress, which reacted unfavourably on the public health. The districts which suffered most in this respect were Burdwan, Midnapore, Moorshedabad, Rajshahye, Bogra, Gya, Shahabad, Durbhunga, Cuttack, Balasore, and the Sonthal Pergunnahs. In several of these relief works had to be opened by Government or the District Road Committees.

2. A slight improvement was made in the registration of vital statistics, though the results of the year are still far from being accurate. Births were registered in 46 towns with a total population of 1,664,577, against 47 towns with a population of 1,685,651 in the previous year. The number of births recorded was 41,133, giving a ratio of 24·71 per mille of the population against 39,640, or a ratio of 23·51 per mille. Among a total population of 66,163,884 within the area in which the registration of deaths was carried on, 1,504,745 persons were reported to have died, showing an increase of 126,135 compared with the number of deaths recorded in the previous year. The ratio of deaths to population was 22·74 per mille against 20·83 per mile in 1884. Many casualties caused by the cyclone and storm-wave in Orissa have, it is said, found no place in the year's statistics owing to there being no persons to record them; the chowkidars having perished with the inhabitants. It is estimated that in Orissa alone about 15,000 persons must have perished, and no record of their death has been kept. The Lieutenant-Governor is glad to learn that "the instances were not rare in which a lively interest was manifested in the cause of registration." The systematic attention given to this branch of work by Major Ramsay, District Superintendent of Police at Monghyr, is said to have been highly successful, and reflects credit on that officer. Several municipalities have already taken over the work of registration from the hands of the police and the Sanitary Commissioner attributes much of the improvement in the returns of the year to this cause. Under recent orders the work of registration will in future be performed by municipal agency in all those municipalities in which the provisions of the Compulsory Registration Act IV (B.C) of 1873 are in force, and it is hoped that better results may be looked for in future.

3. The following statement shows the death-rate from specific causes during the year, compared with that for the previous year, and the quinquennium 1880-84:—

There was an increase in the mortality under every head of disease, except small-pox.

4. Cholera, which had in the previous year prevailed to a very great extent, and contributed largely towards the mortuary statistics of the province, prevailed with still greater severity and was more fatal in its effects during the year under report. The recorded deaths numbered 173,767, or a ratio of 2·62 per mille of population against 134,421, or a ratio of 2·03 per mille in 1884. The disease visited every district, and attacked altogether with more or less severity 29,239 villages. The districts which suffered most were Beerbhoom (6·87), Maldah (6·17), Pooree (5·98), Rajshahye (5·78), and Cuttack (5·74). The details recorded of the several outbreaks of cholera during the year in different parts of the province throw no new light on the etiology of the disease. The localities affected were invariably found to be in an insanitary condition, the water-supply impure and insufficient, and the inhabitants frequently predisposed to disease, being enfeebled by exposure, insufficient clothing, and scanty and unwholesome food. Cholera was unusually active at the large religious and other fairs, where great numbers of people are gathered together, especially at the Ruthjatra festival at Pooree, and at Sudagbagh in Moorshedabad in June and July, where 277 and 125 deaths respectively occurred. The usual precautions are said to have been taken, but were apparently defective. The remarks of the Sanitary Commissioner with regard to the several epidemics reported will be brought to the notice of the local officers concerned. The following observations regarding

the seasonal incidence of cholera are worthy of notice, as indicating the extent to which the disease was influenced by the rainfall during the year:—

"After the scanty rainfall of January and February the mortality from cholera suddenly rose very high in March. April and May followed the usual rule of being months in which the severity of the disease is very great. In June and July, months of heavy rainfall, the mortality subsided considerably, as has been usually the case. August, usually a month of low mortality, exhibited, notwithstanding its great rainfall of 17·81 inches (the largest quantity of the year), the highest mortality. This was caused by the incidence of the disease in the Behar districts, which are visited most severely in the rainy season. In August and during the early part of September heavy inundations occurred over a great portion of the province, and this contingency was followed by a steady reduction in cholera mortality during the months of September, October, November and December, and thus the winter prevalence of the disease, which is often the severest, was mitigated."

5. The recorded number of deaths from small-pox fell from 18,533 in 1884 to 9,863 in the year under report. More than 75 per cent. of the mortality was among infants and children. The disease was most prevalent in the towns of Dacca, Bettiah, and Raneegunge, and some parts of Chumparun, where the casualties exceeded 2 per mille of the population. The attention of the Vaccination Department should be specially directed to these places as standing in urgent need of greater protection.

6. Fevers prevailed to a very large extent during the year under review, and proved more fatal than in any year within the past decade. The recorded mortality from this cause was 1,042,142, or a ratio of 15·75 per mille of the population under registration, against 966,233, or a ratio of 14·60 per mille in 1884. The Sanitary Commissioner is of opinion that the increase in the recorded number of deaths is in some measure due to improvement in registration. The districts in which the deaths assigned to this head were most numerous were—Nuddea (26·85), Monghyr (25·65), Pubna (25·63), Rajshahye (24·03), Julpigori (23·71), Bhagulpore (23·13), Rungpore (22·72), Jessore (21·44), and Bogra (21·21). The Lieutenant-Governor is glad to notice that Burdwan and Beerbhoom, which were at one time notoriously fever-stricken districts, have lost their unenviable prominence; and in Nuddea also, though this district still stands first, the severity of the disease has much abated. This is attributed to the floods of August and September 1885, and it will be interesting to see whether the improvement is permanent or only temporary.

7. The mortality from "bowel-complaints," "injury" and "other causes" during the year amounted to 63,803, 28,956 and 186,209 respectively, against 58,376, 24,674 and 176,373 the recorded mortality under these heads in the previous year. The increase under "bowel-complaints" is attributed to improvement in registration, and is not regarded as an indication of the increasing severity of the maladies classed under this head.

8. The Vaccination Department continued to work satisfactorily. The number of operations performed during the year was 1,368,996 against 1,488,296 in the previous year. The decrease of 119,300 is attributed partly to the paucity of unprotected subjects in the areas in which the Government agency was employed, and partly to the inefficient manner in which the work was carried on by the municipal agency. The following table shows the number of operations performed in each circle of vaccination and in the municipal area during the year:—

The provisions of the Compulsory Vaccination Act were extended to the Chattra, Mozufferpore, Serajgunge and Arrah Municipalities. The Lieutenant-Governor is glad to find that less resistance is now being offered to vaccination, and that during the year under report many of its most powerful opponents were led to accept it. The operations performed with bovine lymph were not as successful as in the previous year, but the lymph is still favourably reported on. The failure of the virus is attributed to defects in storing it in tubes. A fact which the experience of the year has disclosed is that the lymph, if stored and used after the cold weather has well set in, generally succeeds.

9. The total expenditure on vaccination during the year amounted to Rs. 1,66,711-8-9, of which Rs. 76,709-8-10 represents the cost of the operations performed by the Government vaccinators; Rs. 78,847-14-8, the cost of the establishment employed for supervising the operations of the Licensed Vaccinators; and Rs 11,154-1-3, the cost of vaccination to municipalities. Besides this, about Rs. 600 were received as private contributions and expended in aid of the work. The average cost of each successful operation performed during the year was 2 annas against 1 anna and 8 pies in the previous year.

10. The percentages of municipal income expended on sanitary works and roads during the year were 40 and 17 against 38 and 19 respectively in the previous year. The towns in which the largest proportion of municipal income was devoted to sanitary improvements were Hazaribagh, Dacca, Midnapore, Jessore, and Burdwan. The Lieutenant-Governor regrets to find that in such important towns as Nuddea, Barrackpore, Sherepore and Monghyr not even 10 per cent. of the municipal income was expended on sanitation. Some attention was devoted during the year to improvements in water-supply. The Burdwan water-works have now been completed, and the same may also be said of the water-works at Bhagulpore. Complaints having been made regarding the impurity of the drinking water supplied at several of the stations on the Eastern Bengal State Railway, the matter was enquired into, and arrangements are now being made for the supply of good drinking water at these places. Schemes for the improvement of drainage were devised, and in some instances undertaken, during the year, but very little appears to have been done in this direction in comparison with the drainage works executed in the previous year.

11. The Lieutenant-Governor has perused with satisfaction the remarks recorded by the Sanitary Commissioner on the work performed by his subordinates. These will be communicated to the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

R. H. WILSON,

Offg. Secretary to the Government of Bengal.

ESTIMATES OF PROVINCIAL SERVICES, 1886-87

FINANCIAL DEPARTMENT—FINANCE.

Darjeeling, the 31st August 1886.

RESOLUTION.

ORDERS have already been passed in separate Resolutions upon the estimates under the various heads of Provincial Services for 1886-87, and upon the estimates of such funds as are incorporated in the general accounts. After these orders were issued, the Government of India, in its Financial Statement for the current year, prescribed certain modifications in the form of the estimates which it is incumbent upon the Local Government to follow. It will not be convenient to follow the new classification in the accounts of the year 1884-85, but the opportunity will be taken to recast the revised estimates for 1885-86, and the estimates for 1886-87 in the form prescribed. The final accounts of 1884-85 have been received from the Accountant-General, and the Government of India have considered the estimates which the Local Government formed of its financial position at the close of the past year and of the funds at its disposal during the current year. The figures of revenue and expenditure for the first three months of the current year have also been received from the Accountant-General, and the Lieutenant-Governor is now in a position to review the actual financial results of 1884-85, the revised estimates for 1885-86, and the budget estimates for 1886-87.

ACCOUNTS OF 1884-85.

2. In the Resolution of 20th August 1885, it was shown that the year 1884-85 would close with a credit balance of Rs. 14,09,000. The actual result has been less favourable than this estimate by Rs. 2,06,960. The following statement will show to what extent the anticipations formed at the beginning of the year have actually been realised under each major head of account :—

Revenue.

3. There was a net increase on the revenue side of Rs. 1,53,460 over the revised estimates. The increases chiefly occurred under "*Land Revenue*," "*Miscellaneous*," and "*Civil Buildings, Roads and Services*," against decreases in "*Provincial Rates*," "*Jails*," and "*Scientific and Minor Departments*." The increase under *Land Revenue* (Rs 98,000) is nominal. The Government of India having directed that the irrecoverable balance Rs. 2,36,000) of the Port Canning Loan should be borne equally by the Provincial and Imperial Revenues, the adjustment has been made by showing the whole charge under Public Works by civil officers, a credit of one-half being taken *per contra* under "*Land Revenue*." Apart from this there was a decrease of Rs. 20,000. The increase under "*Miscellaneous*" (Rs. 1,38,000) was chiefly due to larger receipts from unclaimed deposits," and under "*Civil Buildings, Roads and Services by civil officers*" (Rs. 42,000) to larger recoveries on account of the zemindari embankments under the contract system. The decrease under "*Provincial Rates*" (Rs. 1,28,000) was chiefly due to the prevailing scarcity in several districts which led to the grant of some suspensions, in part also it was due to the death of the Maharaja of Burdwan in March 1885, which led to the postponement of payment of Land Revenue and cesses due from his estates till after the close of the year; under "*Jails*" (Rs. 26,000) to smaller sale proceeds of jail manufactures consequent on effect having been given to the policy of the Government in discouraging the more remunerative kinds of jail manufacture, which were held to compete injuriously with private local enterprise; and under "*Scientific and other Minor Departments*" (Rs. 18,500) to the falling off in the sale of cinchona febrifuge owing to the unusually low price of quinine throughout the year.

Expenditure.

4. The actual expenditure shows a net increase of Rs. 3,60,050 on the revised estimate. The bulk of this was due to the debit of Rs. 2,36,000 under "*Civil Buildings, Roads, and Services*" on account of the balance of the Port Canning Loan. There was also an increase of Rs. 75,000 under "*State Railways (Capital)*," and an increase of Rs. 55,000 under "44—*Irrigation*," as compared with the revised estimates. In both cases the revised estimates were reduced at the instance of the Examiner, Public Works Department, whose information seems not to have been up to date. Against these increases there was a decrease of Rs. 48,000 under "36—*State Railways*," owing to smaller expenditure on the Northern Bengal, Tirhoot, and Dacca State Railways.

Revised Estimates, 1885-86.

5. A revised estimate, based on the actuals of eight months, was submitted to the Government of India with letter No. 503, dated the 12th February last. Later information has induced the Lieutenant-Governor to modify these estimates to the extent shown in the statement below:—

6. The latest return from the Comptroller-General shows that the total collections of land revenue during the year aggregated Rs. 3,85,96,000. The Provincial share of this would amount to Rs. 1,24,30,000 To this must be added Rs. 4,12,000 on account of the 10 per cent. on collections from Government estates, *plus* Rs. 1,36,228* for inter-provincial adjustments and assignments under Land Revenue, and the revised estimate may now stand at Rs. 1,30,00,0 0 in round figures. The revised estimates as now adopted under the remaining Civil heads have been fixed with the exception of "*Forest*" and "*Miscellaneous*" on the basis of the actuals (preliminary) of twelve months, as reported by the Accountant-General.

Total ...	1,36,228

7. Regarding the Public Works heads, the receipts are better by a lakh than they were originally reported, under "XXVI—*State Railways*," the increase being almost entirely contributed by the Northern Bengal State Railway. The increase of Rs. 2,35,000 under "XXIX—*Irrigation—Major Works*" almost entirely represents increased collection of water rates on the Sone Canals, a considerable portion of "arrears" having been realized. Under "XXX—*Irrigation—Minor Works*" the latest information received from the Examiner of Public Works Accounts and from the Accountant-General shows that the revised estimates framed in the beginning of the year (Rs. 8,60,000) will now stand at Rs. 8,70,000. To this must be added Rs. 1,60,000, being the amount credited for tuccavi embankments in Midnapore, the accounts of which had for some time past been kept in the suspense account. The expenditure *per contra* is shown under "43—*Irrigation—Minor Works*." The total receipts under "XXX—*Irrigation—Minor Works*" will thus stand at Rs. 10,30,000.

Expenditure.

8. Regarding Civil heads, the figures as now adopted are, with the exception of "*Forests*," "*Stamps*," "*Miscellaneous*" and "*Stationery and Printing*," based on the twelve months' actuals (preliminary) furnished by the Accountant-General. The Accountant-General's figures under "*Stamps*" and "*Stationery and Printing*" take no account of the stamp-paper and stationery supplied from central stores. Under "*Forests*" and "*Miscellaneous*" the figures of the Government of India have been adopted. The revised estimates as now adopted under *Irrigation*, "42—*Major Works*" and "43—*Minor Works*," are based on the latest information received from the Examiner of Public Works Accounts. The large increase under the latter head is chiefly due to the adjustment of Rs 2,21,000 on account of arrear charges of the Midnapore tuccavi embankments.

9. According to the revised estimates of receipts and expenditure now adopted, the closing balance will stand at Rs 17,76,000 instead of Rs. 16,65,000 reported to the Government of India in February last.

RECEIPTS.

11. The difference of Rs. 12,000 between the Local and the Imperial estimate under "*Land Revenue*" is due to the Government of India having estimated more largely under "Inter-provincial adjustments." To the estimate of the Government of India (Rs. 1,28,78,000) must now be added the sums noted in the margin, aggregating Rs. 4,500. The total estimate under this head will therefore stand at Rs. 1,28,83,000 in round numbers. There are various other items on account of which compensation will probably be required from Imperial to Provincial. These include the travelling allowance of process-serving peons of civil and criminal courts, the process-serving charges of the zemindari dâk fund, and the loss by exchange and stationery of Provincial railways. These are being considered, and will be included in the next quarterly review.

12. The receipts from "*Salt*" during the first quarter are less than during the first quarter of 1885-86. The total receipts of that year amounted to Rs. 1,01,000, and the estimate for 1886-87 will be reduced from Rs 1,20,000 to Rs. 1,00,000.

13. Under "*Excise*" the budget estimate was originally submitted for Rs. 49,00,000, and this figure has been accepted by the Government of India. The actuals of 1885-86 are now known to have aggregated only Rs. 47,92,000, and it will not be safe to allow for an increase of more than a lakh of rupees in the gross receipts The Provincial share will be taken at Rs. 48,25,000.

14. The receipts from "*Provincial Rates*" during 1885-86 were abnormally swollen by arrear collections of 1884-85, and the estimate of Rs. 39,17,000 will be reduced to Rs. 39,00,000.

15. The estimate now adopted under "*Assessed taxes*" does not represent the proceeds of the income-tax, but only the amount of the revised estimate for license-tax for 1885-86. This is done in accordance with the orders of the Government of India, under which it has been decided for the present not to divide the receipts of and charges for income-tax in a fixed porportion, but to allow the Provincial Government in 1886-87 the amounts realized and disbursed for license-tax in 1885-86.

16. Under "*Jails*" the orders in regard to Jail manufactures have been modified, and the estimate of receipts will be raised to Rs. 7,50,000.

17. Under "*Stationery and Printing*" the final revised estimate for 1885-86 amounts to Rs. 1,88,000 against Rs. 1,44,000, the first revised estimate for that year, and Rs 1,08,490, the actuals of 1884-85. The receipts of the first three months of the current year show an increase of Rs. 45,000 over those of the corresponding period of last year. The estimate is raised from Rs. 1,23,000 to Rs. 1,40,000.

18. Under the remaining heads, the estimates of the Government of India which are, with a few exceptions, the same as the local estimates, will be adhered to. The exceptions refer to "XXVI—*State Railways*," "XXX—*Minor Works and Navigation*," and "XXXII—*Civil Works by Civil Department*." The increase of Rs. 1,06,000 over the local estimate under "XXVI—*State Railways*," is mainly due to larger receipts being anticipated on the Northern Bengal State Railway—a fact which was brought to the notice of the Financial Department after communication of the local figures to the Government of India. The increase of Rs. 60,000 under "XXX—*Minor Works and Navigation*," is due to the transfer to this head of the receipts from recoveries on account of zemindari embankments formerly credited under "XXXII—*Civil Works by Civil Department*" This accounts for the corresponding decrease under the last-mentioned head.

EXPENDITURE.

19. The Government of India have increased the local estimate under "*Land Revenue*" from Rs. 34,99,000 to Rs. 35,35,000. The increase is on account of revenue survey charges for which no reason has been assigned. The

estimate of the Local Government on this account is adhered to. To this must, however, be added a sum of Rs. 34,000 for the survey of waste lands in Julpigoree—a charge which should have been included in the Land Revenue budget in the first instance. On the other hand, a sum of Rs. 8,000, representing the Provincial share of the cost of the non-professional establishment employed on demarcation work in Mozufferpore, must be deducted. The total cost, both Imperial and Provincial, entered in the budget on this account is Rs. 26,000, but this amount is said to have been already included in the Rs. 85,000 entered as the Provincial share of the survey. It is also expected that the full amount estimated for the Mozufferpore survey will not be spent, as the survey operations have been stopped under orders of the Secretary of State. Accordingly Rs. 37,000 may be deducted on this account from the sum of Rs. 85,000 referred to above. The Provincial share under "*Land Revenue*" will therefore stand at Rs. 34.88,0(0.

20. Under "*Law and Justice*," the estimate of Rs. 77,87,000 will be raised by Rs. 1,600, to meet the additional charges noted in the margin. On the other hand, it is expected that there will be savings of Rs. 11,000 under "Establishments" for "Central Jails," and Rs. 9,725 under contingent charges for "District Jails." Rupees 2,000 has also been transferred from the estimate for Petty Construction and Repairs to the Public Works Department budget, to enable the Public Works Department to carry out certain important minor jail works under the supervision of the Inspector-General of Jails. The estimate under "*Jails*" will accordingly be reduced from Rs. 18,41,000 to Rs. 18,18,000.

	Rs
For temporary court-houses for the munsifs of Moradnuggur in Tipperah	800
For a bungalow for the second munsif of Jehanabad ...	800
Total ...	1,600

21. Under "*Police*" the estimate will be reduced from Rs. 46,82,000 to Rs. 46,49,000, as it is anticipated that there will be a saving of Rs. 20,000 under travelling expenses, sub-head "District Executive Force," and it has now been discovered that a sum of Rs. 12,760 was erroneously included in the original budget under sub-head "Special Police" on account of contingencies. Under "*Marine*" the estimate will be increased by Rs. 4,167 on account of the subsidy for the current year made by the Government of Bengal to the India General Steam Navigation Company for the establishment of a daily accelerated steamer service between Naraingunge and Cachar. Similarly, the estimate under "*Education*" will be raised by Rs. 10,000, being the unpaid balance of the building grant of Rs. 19,000 made to the St. Scholastica's Convent School, Chittagong; and Rs. 18,000, being the amount sanctioned for the Dhurumtollah Loretto School building. Under "*Medical*" it is expected that there will be a saving of Rs. 1,000 under travelling expenses for medical establishment, as during the first half of the current year the Inspector-General of Civil Hospitals did not come up to Darjeeling. Under "*Scientific and Minor Departments*," the estimate must be reduced by Rs. 25,000, owing to the idea of establishing a veterinary college for Bengal having been abandoned. The estimate under "*Miscellaneous*" will also be reduced by Rs. 12,000, as the provision for the Calcutta Female Nurses' Institution will not be wholly required, and increased by Rs. 9,176 on account of the grant made to the District Charitable Society for repairs of the Almshouse buildings.

22. Turning to the estimates of the Public Works Department, the only heads under which the figures of the Imperial and Local Governments differ largely from one another are "38—*State Railways Working Expenses*," and "*Interest*," and "43—*Minor Works and Navigation*." The difference under "Working expenses of State Railways" is not so much the difference between the figures of the Local and Imperial Governments as between the "Preliminary" and "Final" Issues of the Budgets, the figures of the Government of India being those of the Final Issue. The estimate of the Government of India under "Interest" has been framed with reference to later information, and will be adopted. Regarding "43—*Minor Works and Navigation*," the estimate of the Government of India is the same as the amount entered in the Preliminary Issue before it was modified by the local Financial Department. The estimate of the Local Government will be raised by Rs. 85,000 on account of the grant made to the Public Works Department for

Orissa Coast Canal and Rs. 2,000 on account of establishments and contingencies for embankment works under the contract system.

	Rs.

For making certain additions to the Patna distillery building	3,737
For the construction of a police case hospital	40,000
For minor jail works	2,000
Total ...	68,080

23. The estimate under "45—*Civil Works by Public Works Officers*" is increased from Rs. 32,00,000 to Rs. 32,68,000 to meet the additional charges indicated in the margin.

24. The estimate of Rs. 1,06,000 under "45—*Civil Works by Civil Officers*," contains *inter alia* a provision of Rs. 50,000 for contributions to Excluded Local Funds and Municipalities. The following is the expenditure *per contra*:—

		Rs.
1.	Grant to the Darjeeling Municipality for repairs of certain roads	6,484
2	Grant to the Bali Municipality towards acquiring a piece of land in the neighbourhood of the school building (promised)	5,000
3.	Contribution to Cantonment Funds	468
4.	Ditto to Burial Board Fund	6,500
5.	Ditto to Khoud Mehal Road Fund	2,044
6.	Ditto to Mohsin Fund	20,000
	Total ...	40,496

This leaves a balance of Rs. 10,000 for expenditure during the remainder of the year. This is insufficient, but there are no funds to increase it during the current year.

25. A sum of Rs. 2,00,000 was provided for contributions for local purposes. About Rs. 1,57,000 of this represent recurring expenditure which cannot be avoided, such as the cost of collecting the Public Works cess, the grants made for communications in non-cess districts, and charges for the improvement of Government estates. This leaves a balance of Rs. 43,000, out of which the following grants have already been made:—

	Rs.
To the District Road Committee, Chumparun, for the erection of a dâk bungalow at Bettiah	1,500
To the District Road Committee, 24-Pergunnahs, for the construction of a bridge over the Nona khal	3,500
Grant for relief works in Orissa	2,000
Total ...	7,000

26. *Closing balance.*—According to the estimate submitted to the Government of India in February last, it was expected that the year 1886-87 would close with a credit balance of Rs. 17,22,000. The Government of India reduced this balance to Rs. 16,11,000. According to the estimate now adopted, the closing balance will amount to Rs. 16,98,000.

Incorporated Local Funds.

27. The following table exhibits the actual receipts and expenditure of the Incorporated Local Funds for 1884-85, the revised estimate for 1885-86

28. The estimate of the Government of India has provided for neither credit nor debit under "Deposits" against the net credit of Rs. 3,000 provided for under this head by the Local Government. In other respects the figures, as originally estimated, have been passed by the Government of India, except that a reduction of Rs 1,000 has been made in the estimate of receipts from the Inland Labour Transport Fund. This is the amount by which the Local Government raised the Accountant-General's estimate of receipts, in consequence of the rate to be levied in Chittagong under section 109 of Act I of 1882 This amount will be retained. A reduction of Rs. 5,000 will be made in the expenditure of the District Road Account, the grants made to the Chittagong Hill Tracts having been reduced by that amount.

ORDER.—Ordered that a copy of this Resolution be submitted to the Government of India, Department of Finance and Commerce, for information.

Ordered, also, that a copy of the above Resolution be forwarded to the Board of Revenue; to the Accountant-General; to the Inspectors-General of Civil Hospitals, Police, Jails and Registration; to the Director of Public Instruction; to the Conservator of Forests; to the Port Officer, Calcutta; to the Superintendent of the Botanical Gardens; and to all Departments of this Government for information.

Offg. Secretary to the Government of Bengal.

LIBERALITY OF MOULVIE ALI KHAN, KHAN BAHADOOR, OF HOSSENABAD.

GENERAL DEPARTMENT—EDUCATION.

The 6th September 1886.

RESOLUTION.

READ—

A letter from the Commissioner of the Bhagulpore Division and Sonthal Pergunnahs, No. 1344J, dated the 12th August 1886, on the subject of a donation made by Moulvie Ali Khan, Khan Bahadoor, of Hossenabad, for the support of the school at Sheikpura, in the district of Monghyr.

Moulvie Ali Khan, Khan Bahadoor, of Hossenabad, has made a donation of Rs. 2,000 (two thousand rupees) for the support of the school at Sheikpura, in the district of Monghyr, and has further promised a suitable building for the accommodation of the school.

The Lieutenant-Governor desires that the thanks of Government may be conveyed to Moulvie Ali Khan, Khan Bahadoor, for his liberal donation in the cause of education.

ORDER.—Ordered that this Resolution be published in the *Calcutta Gazette*, and that copies be forwarded to the Commissioner of the Bhagulpore Division for information and for communication to Moulvie Ali Khan, Khan Bahadoor, and to the Director of Public Instruction for information.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Offg. Secretary to the Government of Bengal.

	CHITTAGONG DIVN.					
22	Chittagong,	Sept.	7	'86	12·73	Weather—seasonable. A 10-anna *aus* crop is expected. Cultivation of *aman*, is vigorously going on. Prospects are not so good. Prices unchanged. Public health good.
23	Noakholly,	,,	3	,,	3·53	Less rain, and consequently dange of damage to crops from flood has become less. *Aus* nearly all cut; the cut rice has been injured for want of dry place to store in; damage from flood-water not yet well ascertained. Transplanting (and re-transplanting where first seedlings had been drowned) of *aman* going on *Supari* trees also damaged by water. Health fair
	Feuny			..	3·09	
24	Tipperah	,,	2	,,	2·49	Weather—close and hot when it is not raining. The water is subsiding gradually. In places as much as half the early rice appears to have been lost. The winter rice has also suffered. Transplantation is being pushed on as the water goes down. There is still time, and seedlings have not been destroyed in many places. The price of rice is high. Jute is being cut; prices will probably be low, though the outturn is expected to be about the same as usual. Public health fair.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical averages or means of the readings during the same period for the past [illegible] years. The [illegible] of the atmosphere is expressed as a percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The number and the [illegible] are averages of the rainfall in that district determined from the returns sent in by the sub-divisional stations for the period in question during the past [illegible] stations in the various sending in returns divided by the number of stations. A rainy day is one on which at least hundredth of an inch fell.

* Mean for six days.

CALCUTTA, *the 7th September* 1886.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 3RD OF SEPTEMBER 1886.

DURING the preceding week a fairly strong monsoon had been blowing over the province, which had given rise to general and heavy rainfall. As is usual, however, at the end of August or commencement of September, the monsoon current has during the present week decidedly fallen off in strength, and there has consequently been a decided decrease in the amount of rainfall. The changes which have thus been registered have been quite of the normal kind. On the 28th the wind current blowing over the province was rather feeble and irregular in direction; on the following day winds became more regular, and from this day and up to the 31st the current was mainly south-easterly and easterly, during which time the northern districts of the province received the largest amount of rain. Following on this, winds began to shift, and they first became irregular on the 1st of September, then more strongly southerly on the 2nd, and finally south-westerly on the 3rd. With the setting in of this more or less westerly current, rainfall to a great extent ceased at the western stations, though heavy rain commenced to fall in and near the hills of North Bengal. Thus for the greater part of the week and over the larger part of the province rainfall has been somewhat light and local, and particularly at the end of the week a short but distinct break in the rains was setting in over the western districts.

The changes of pressure have generally been small. At the commencement of the week the pressure registered over the province was very uniform, and on the 28th the difference of pressure between Motihari and Chittagong was barely a twentieth of an inch. This establishment of uniform pressure over Bengal is always a sign of the diminution in the strength of the monsoon. The changes of pressure, however, which have occurred during the week have been rather to increase this difference of pressure over the province, and at the close of the week there was a difference of pressure of almost a tenth of an inch between the western part of Behar and South-East Bengal. Pressure has oscillated in the usual manner during the week, but the tendency has been decidedly towards an increase of pressure, as on four or in some cases five days out of the seven pressure has increased. This is also shown by the fact that while during the previous week pressure was 0·058″ in defect of the normal, during the present week the defect has decreased to 0·012″. In North Behar even the average pressure has been in slight excess of the normal.

Temperature has generally increased during the week owing to the scantiness of the rainfall, and while during the previous week the mean temperature of the whole of the province was 0·7° in defect of the normal, temperature during the present week has become very slightly above the normal, but the excess is less than a tenth of a degree. In South-West Bengal and Orissa the excess has been decided, as it equals about half a degree, but all other districts show practically a normal temperature except East Bengal, where there is a defect of nearly half a degree also.

Rainfall has been below the normal in all districts. Orissa has received 1·42 inches of rain, falling on 3·6 days, which, compared with the normal fall and expressed as a percentage, shows the actual to be 82 per cent. of the normal. South-West Bengal has only received 0·94 inch, falling on three days, and this amount is 40 per cent. of the normal. East Bengal has received an average rainfall of 1·86 inches on 3·4 days, and compared with the normal the percentage is 55. In North Bengal the fall has averaged 1·98 inches on 3·3 days, and the actual fall is 53 per cent. of the normal. North Behar has received the largest fall of 2·57 inches on 3·0 days, but the percentage of the normal fall is still only 90. South Behar has received 1·05 inches on 2·8 days, which is 50 per cent. of the normal, and Chutia Nagpur has received 1·10 inches on 2·6 days, which equals 48 per cent. of the normal. For the whole province the average fall for the week has been equal to 59·7 per cent. of the normal.

A few very heavy local falls have been reported, particularly on August 30th, and on September 2nd. Thus on August 30th the Mozufferpur district received very heavy rain, Mozufferpur reported 5·72 inches, Pupri 4·55 inches, Siuhar 3·70 inches, Pooree 3·00 inches, and Sitamarhi 2·57 inches; and in the Durbhunga district, Tajpur reported 5·50 inches, and Durbhunga 3·75 inches. On September 2nd, in the Julpigooree district, Alipur-Duar reported 8·05 inches, Debigunge 5·83 inches, and Falacutta 4·86 inches; in the Cooch Behar district, Micklegange reported 6·40 inches, Cooch Behar 6·12 inches, and Matabhunga 4·80 inches, Silliguri also registered 3·95 inches, and in the Purneah district, Balarampore received 3·95 inches, Kalimpong 2·25 inches, and Motiari 2·00 inches.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 3rd of September 1886 :—
